Prestonsburg, Floyd County, Kentucky,

FRIDAY, MAY 14, 1937

11.50 PER YEAR

\$85,000 BUILDING OKEHED FOR TOWN BY SCHOOL BOARD

City Body Votes to Pay From
\$25,000 to \$35,000 As
Share of Cost

22 ROOMS

Voting to pay from \$25,000 to \$35,000 as their share in the cost of constructing a most modern 22-room brick building to house the Prestonsburg city school grades, the city school board trustees agreed to accept the tentative plans and specifications for an \$85,000 structure in a meeting at the local high school building Friday morning.

Dr. O. T. Stephens, board member, announced shortly afterward.

Congressman A. J. May Mayor A. C. Carter, and WPA officials met with the board.

Besides 22 class rooms, the plans call for an auditorium seating over 700 and a basement underneath the entire building. The new fireproof edifice will take the place of the present overcrowded building constructed of handmade brick in 1904.

The WPA authorities in Washington, City Superintendent Ishmael Trippett said had approved the erection of a school building for Prestonsburg. At the time of the approval in Washington some time ago the plans, shown locally, displayed the outlay of a \$100,000 structure.

Three WPA proposals, the tails of them varying slightly, have been presented to the school board. The board members met Thursday night and Friday morning, reaching an ok of one of the proposals Friday.

CONSIDERING NEW COURTHOUSE WING; TO COST \$12,500

Will Contain Eight Rooms for
Four of Floyd County's
Officials.

A report is circulated here this week to the effect that the Floyd fiscal court is considering construction of a wing on the courthouse on the east side of the courthouse entry similar to the one on the west. The proposed addition is estimated to cost about \$12,500, by County Clerk A. B. Meade and will contain office space for the county superintendent, the county health department, the county agent and commonwealth's attorney.

According to the tentative outlay it will contain at least eight rooms and will be two stories in height, of brick construction. The court will decide definitely, it is understood, when the matriculates meet here on May 22.

At present, the offices mentioned are scattered about the town and anybody coming to the county seat on "court-house" business must necessarily traverse the streets to contact the officials.

In the meantime, following closely upon the heels of the completion of the recent interior alterations and building of a spacious porch and entry way, the workmen are now busy stuccoing the main edifice at a cost of about \$3,000.

The courthouse remodeling began after the building suffered a disastrous fire last year.

GEORGE PEABODY FELLOWSHIP OFFERED TO LOCAL TEACHER

Mr. Jack Allen, a member of the Prestonsburg high school faculty, and son of Mr. and Mrs. Edward L. Allen, of this place, is the recipient of a graduate fellowship awarded to him by Eastern Kentucky State Teachers College, Richmond, Ky.

The fellowship entitles Mr. Allen to a year's free scholarship at the George Peabody College for teachers at Nashville, Tenn.

The Nashville school granted Eastern only one graduate fellowship and one faculty fellowship and the Kentucky honor in turn favored Mr. Allen, which is, indeed, an honor. He is, this week, filling a letter of acceptance.

Mr. Allen, a student at the Richmond school in the years of 1931-35, has been a teacher in the local high school for the past two years. He teaches in the school from which he graduated in 1931. His ability as a teacher, has won the admiration of fellow faculty members and pupils alike.

RELEASING INTEREST IN BRIDGE CONTRACT

S. G. Rice announces this week that he is releasing his interests in the Banner bridge contract, in order to care for other business, to Ray Hall or Allen, this county.

This is subject to approval. Mr. Rice said, of the fiscal court in its meeting May 22.

The new partnership with then be L. N. Hall and Riley Hall. Amount of the contract is \$25,990.

FLOYD'S COUNTY SCHOOLS ANNUAL EXPECTED MAY 15

Fourteen hundred copies of the Floyd county schools all-county annual are expected to arrive this coming Saturday, May 15. Every high school in the county has its own portion of the annual.

Its contents are from Prestonsburg, Betsy Layne, Martin, Auxier, Maytown, Garrett, Lackey, McDowell, Wayland, Wheelwright, Bonanza, Weeksbury and the Weeksbury colored high school. Weeksbury is a one-year high school and Bonanza has no graduating seniors.

The 156 linen-finished pages contain pictures of all high school classes and school extra-curricular clubs as well as the likenesses of each school's graduates. The pages are between black covers touched with gold letters and decorations.

PRESTONSBURG RAPS CITY'S WATER RATES

The Public Service Commission in Frankfort, Ky., Wednesday, May 12, received a complaint from the city of Prestonsburg regarding the water company, which has its headquarters in Springfield, Ky.

The commission sent a copy of the complaint to the company, along with an order summoning it to file an answer within 10 days, according to a report reaching here.

Recently the water company closed down in circuit court the case of the complaint against the Prestonsburg Water Company, which has its headquarters in Springfield, Ky.

Mr. and Mrs. J. D. Bond spent the week-end in Lebanon, Ky., with Mrs. Bond's parents, Mr. and Mrs. S. K. Crawford.

GRADES FACULTY TACKETT RECEIVES HERE IS CHOSEN TWO-YEAR VERDICT

Messer to Act as Grades Head and High School Coach

Friday night, the Prestonsburg school board of education, composed of five members, Richard Spurlock, Herbert Burke, Lon McJes, Dr. T. Stephens, and Mrs. W. M. May met at the high school building and selected the city graded school teachers for the next year.

Selection of the high school teachers was deferred by the board until it moved to have City Superintendent Ishmael Trippett to meet with the county board and make the choice.

W. M. Messer, high school coach and teacher during the term of 1935-36 was chosen as grade principal and athletic director for the high school next year in the place of Richard Greenwell, who is the present athletic director. Both Messer and Greenwell are well-liked by the board and have good records at P. H. S., a member of the board stated. No reason was given for the change.

Teachers named and the grades tentatively assigned are as follows: Eighth grade, Evelyn Baskin, Irene Stephens, Edna Collins; sixth grade, Anna Martin; fifth grade, Fannie Jarrell; fourth grade, Margaret Collins; third grade, Anna M. Melton, Pauline Burchett; second grade, Anna Laura May, Frances Jones; first grade, Shirley Hughes, Kiki Sandige.

Se the West Prestonsburg school: first grade, Edna Burke; second and third grades, Hope Spradlin. Mrs. Burke is replacing Miss Eulah Hunley at West Prestonsburg, a report from the board meeting states.

Leave For Ann Arbor

Mrs. Joseph D. Harkins and son, J. D. Harkins, Jr., left Thursday for Ann Arbor, Mich., where Mrs. Harkins will be the guest of her son, Walter, for the Beta house party.

Will Seal 300 County Mines; Underground Fires Reported

Under ground fires in two mines in Floyd county are reported this week by W. A. May, county supervisor of the mine sealing project, and it is said that several thousand acres of coal is in danger of being destroyed if the fire keeps on burning in one, the Autocrat Coal Co. mine at McDowell. The other mine, the Maguire-Elkhorn Co. mine below Martin, is burning internally, but most of the coal, Mr. May stated, was mined out before the mine was abandoned.

The Autocrat mine was closed down and abandoned following differences between the union and company officials, it is understood. The fires, their origin unknown, Mr. May said, have been raging in this mine since its abandonment about six months ago. The McDowell mine is one of the best in Floyd county. Sealing the mine, he stated, would extinguish the fire.

Of the six mines already sealed, one of them, the Beaver Pond mine near here, was on fire and several acres of good coal was destroyed before the mine was sealed. The fires are put out by sealing all openings to the mine and cutting off all oxygen to the mine interior.

Method Explored

It takes about a month to seal the average mine, the length of time depending on the number of openings. The mines here average 15 openings. These openings are sealed with masonry.

The sulphuric acid water found in all abandoned mines, passes through a masonry trap installed at mine exits and in the course of from one to three years, changes to an alkaline water by virtue of having the oxygen shut out of the interior. Thus the Floyd county mine sealing WPA project serves many causes.

Hundreds of tons of the acid pour from these mines per year in Floyd, listed as the highest acid producing county in the state. Mr. May estimated over 300 abandoned mines in the county to be sealed.

Damages Stated

An imposing list of damages have their source at the mine drift mouths. Some of them are given as follows: Kills fish and water life, pollutes the water.

A government estimate of several million dollars per year on the Ohio river alone is made.

ANTIQUITY SHOW AND QUILT DISPLAY ARE GREATLY ENJOYED

The past came to life at an antique and quilt show given last Friday by the Woman's Auxiliary of the Prestonsburg Presbyterian Church, in the church parlors. During the afternoon and early evening guests from Prestonsburg, Paintsville and Pikeville enjoyed the well-arranged collection of materials from other years, and coverlets of diverse patterns.

Some of the articles exhibited had been brought to America during colonial and pre-national days. These included: a Paisley shawl, brass candlesticks, and a pewter tea set belonging to Mrs. Claude Stephens. The articles were brought to America in a sailing vessel during the first half of the seventeenth century.

An arithmetic work book, the property of L. Pittman in 1804 was brought by Mrs. W. C. Rimmer, a Richmond, Va., newspaper of 1790, the Virginia Gazette, was loaned by Mrs. B. M. James and a coffee jar, running back one hundred years, by Mrs. E. H. Sowards. Mrs. George Stephens had several dresses of bygone years in the display.

The quilts were striking and colorful in appearance, and there were several of peculiar note. These included: a coverlet of gorgeous wool flower garden design, loaned by Mrs. A. C. Harlowe; one containing in its materials bandanas of slaves of Civil War days, Mrs. Ishmael Trippett; quilts of beautiful and unusual designs, including a dogwood quilt, Mrs. Ida Hager, of Paintsville; a cherry quilt of Mrs. Fannie Archer of Paintsville; and an English daisy of Mrs. Boone Howard of Salsersville.

HUNTING TRIP NETS FIRST "RATTLER" OF SEASON NEAR HERE

The first "rattler" of the season, and a "whipper" at that, so it is reported, was captured by Sam Fraley Tuesday, while hunting on "Goldiers Knob" near Prestonsburg. The bull rattlesnake had 11 rattles and a button which, old-timers say, indicate that the diamond-back reptile is 12 years old.

The snake measured about four feet and six inches and was as large as an ordinary man's wrist.

The technique of snake catching, Mr. Fraley explained, is to pin the reptile's head with a forked stick, press it and then remove it's fangs with a handy pair of pliers. From there you will have a mite destroyer that serves even better than a cat, but he continued, that he would probably make a bet June Knox Polk, Hannah Simpson Grant, Fiza Baen Garfield, Uellie Baier Washington, Mary Alton McKinley and Sarah Delano Roosevelt.

Miss Virgie McCombs gave "Mother Memories" by Margaret Sangster in a very impressive manner.

The club voted to contribute \$10 to the Cancer Control fund, which is to be used for further research in cancer control. Seventy per cent of this fund remains in the state where the money is raised, the remaining 30 per cent goes to the American Society for Cancer control.

Mrs. Chas. Hughes, Mrs. Merle Wilson and Mrs. L. C. Keeling acted as co-hostesses, serving delightful refreshments.

Final plans were made for a "Welcome" sign to be erected over the bridge at Cliff.

CAUDILL ORDERS SESSION EXTENDED TO EIGHT WEEKS

Rules Contingent Docket. Special Judge to Hear Fifteen Cases

700 CASES

Due to a congested docket, Judge John W. Caudill, Saturday, ordered that the present term of circuit court be extended an extra two weeks from May 17 to May 29. This term of court began April 5. Last week court was adjourned from Wednesday noon until Friday morning because the docket was clean for the time being, but a special grand jury, in three days session, returned 44 new indictments. A large number of civil cases are to be heard from now until the new deadline.

Judge Caudill ordered Saturday that 11 equity cases, two common law and two criminal cases be heard by a special judge during the extension. Judge J. B. Hannas, Ashland, Ky., was designated by Chief Justice Alex L. Ratliff and Circuit Court Clerk Troy B. Stouffil was notified here Wednesday. Listed as one of the criminal cases is the trial of Milton Tackett for voluntary manslaughter in the death of Reid Gunnel. The Gunnel's man was killed by a car near Emma, Ky. September 24, 1934.

The present term is carrying both the civil and commonwealth dockets. There are over 700 cases on the dockets.

Emmett Tackett went on trial this week charged with

WOMAN'S CLUB IS MRS. HEINZ GUEST ON MAY NINTH

Enjoy Impressive Program in Observance of "Mother's Day"

The Prestonsburg Woman's Club met at the home of Mrs. F. L. Heinze Thursday night, May 6, at which time an appropriate program in observance of Mother's Day, was given with Mrs. E. P. Hill in charge.

Mrs. R. V. May presented real life biographies of seven mothers who lived to see their sons receive the highest honor conferred upon them. From there you will have an American, that of being President of the United States. The following women have been thus honored: Jane Knox Polk, Hannah Simpson Grant, Fiza Baen Garfield, Uellie Baier Washington, Mary Alton McKinley and Sarah Delano Roosevelt.

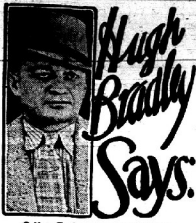

Miss Virgie McCombs gave "Mother Memories" by Margaret Sangster in a very impressive manner.

The club voted to contribute \$10 to the Cancer Control fund, which is to be used for further research in cancer control. Seventy per cent of this fund remains in the state where the money is raised, the remaining 30 per cent goes to the American Society for Cancer control.

Mrs. Chas. Hughes, Mrs. Merle Wilson and Mrs. L. C. Keeling acted as co-hostesses, serving delightful refreshments.

Final plans were made for a "Welcome" sign to be erected over the bridge at Cliff.

Giant to Dish Out Lots of Hard Luck Before Season Ends

PROBABLY the other National League club knows all about it, but no matter. It will do no harm—and, incidentally, will be a big help in getting this piece started to remind them to avoid black cats, putting bats on beds, walking under ladders and other innocent seeming yet dangerous pastimes this season.

The reason is the Giants. In spite of occasional spring rumors to the contrary there definitely will be no need for the Cubs, Pirates and Cards to saddle themselves with extra jinxes just to be sure of getting some competition when the season comes to the Polo Grounds. Instead, judged by what they have showed thus far it is obvious that the league titleholders are going to continue furnishing more than enough hard luck for all other contenders.

By that I do not mean that the mere statistics of early season triumphs over the second division Dodgers is proof of their superiority. Another pennant winner, I doubt that he has, but it nevertheless is plain that he does have just such a dol as won two flags for him when better opponents faltered.

The team hustles. It is smart. Probably there still is a lack of hitting power—for instance Ott could easily be the difference between first place and fourth—but the Giants still play the league's best defensive baseball. Also they still need only the tiniest opening in an opponent's guard to enable them to slice themselves a victory. Added to that, they have been as good as assured that there may have been some improvement there, but Lou Chiozza is not so finished a third base performer as Travis Jackson, but he has added needed speed. Then Hal Schumacher, who made his mates uneasy each time he went to the mound in 1936, then back in form.

But don't go to asking too many questions about the Dodgers. The Brooklyn have so many other worries that it would be unfair to take their minds off their work just so that you can give a good example of what killed the cat. In a word, the Dodgers continue to be the Dodgers.

Manush, so long as his legs hold up, will provide line-drive assistance that the directors would not obtain for the fans twelve months ago. The experienced Woody English, probably can combine with young Cookie Lavagetto to produce more double plays than could the best of any combination so generously allotted to the fans by the owners in 1936. Yet the truth is that the improvement is not enough to make any appreciable difference. Like the Ebbefts field teams of 1930 and all too many other recent years, the Dodgers just do not have class.

They try hard, just as did the sorely battered Yankees, which played the second best ball in the league from July 4 on last year. The addition of such fighting veterans as Manush and English makes a difference now just as it would have last spring. There also are schedule blessings, such as the fact that the club means favored Westerners on the home terrain, before venturing upon a long campaign on foreign terrain.

That may mean—indeed probably will mean—the Dodgers will do relatively well in the early stages of the race. After that weakness that were evident to all on opening day and pitching practice, that soon must drop up will tell the story.

A summer book rating of the (so-called) Ivy League football teams makes Penn the favorite and Yale the second choice, with Princeton figured to battle Columbia for show money. Incidentally N. Y. U.'s Mr. Stevens says that Captain Clint Frick's Yale backfield should be the best seen on an eastern gridiron in many years.

Unsung heroes always are being uncovered at the strangest places and now Princeton has come up with one in the form of a wrestling coach. He is Jimmy Reed, former Lehigh two-time national champion and Olympic star, who produced at least one titleholder during each of the five years he has been in Nassau. His mat teams have been undefeated during the past two seasons in dual meets and the Tigers got so excited about it that 2,000 one of the biggest Princeton indoor sports crowds on record-of-the-year witnessed one meet last winter.

NOT IN THE BOX SCORE:

PRIMO CARNERA has written to a close friend that he is considering returning to this country as a wrestler. Judge Landis' favorite dish is Spanish bean soup. He refuses to take about it his wealthy friends insist that Bill Terry's dearest ambition is to be president and part owner of the Brooklyn baseball club. One success secret of Jockey Harry Richards, who is riding for the Cup, is that he never shifts his hand on the reins. It also was a success secret of Isaac Murphy, who probably was the greatest American jockey of all time, and is earnestly recommended to those riders who prefer good horses by continually fiddling with the reins.

Fight Manager Jimmy Johnston, Jr., is a candid camera addict. He takes pictures of his babies daily. Friends say Paul Schissler undoubtedly would consider an offer to take on a college head football coaching job. Schissler had an excellent record at Oregon State and, considering the handicaps under which he worked, an even better one during his two years with Brooklyn's program. American leaguers are complaining about Bill Dimech, a great pitcher and umpire. They say the veteran can't move and is practically too umpire at all when not behind the plate. If the Davis Cup committee pairs Bobby Riggs and Joey Hunt for the double match against Japan it will be like hitching a dog and cat in tandem, for they have just about as much love for one another. Still, so far as doubles ability goes, it would be a good team and might prove as successful as that celebrated, non-speaking double-play combination of Joe Tinker and Johnny Evers.

Baseball betting in California gets a cool \$12,500 for meeting Bob Nestle, while waiting for Louis, Nemo; and Braddock to settle their heads. The best of the Cleveland Indians. Lefty Weisman, Cleveland trainer, used to sell newspapers in Boston and pal around with a young Red Sox pitcher named Babe Ruth. The New York State Athletic commission should give more work to the very able young referee, Frankie Fullam. James Garigan McCarthy is on the third freshman crew at Yale. The first time, according to his parent, the celebrated Black Bat McCarthy, that the famous turf family ever has been mixed up in a boat race. Add odd names among pigs—Carroll Paul, Raul, Joe, and Benoit, Demidri, a new Greek 175 pounder, Panis Trantaopulus.

London Defeat Proves Crowding Beats Bae

That London whipping proves once more a statement made repeatedly in the past four years that anybody who crowds Max Baer can beat him in a fight. Max is a long-distance puncher and he lost that one recently because he couldn't keep his feet.

In spite of persistent rumors, Giants' first baseman Leslie and McCarthy have nothing to worry about so long as they continue their present good work. Giants officials declare they lost interest in Dolph Camilli of the Phils two years ago. They also said that no other deals were contemplated. Casey Stengel, who was deposed so that Brooklyn could have a "right" manager this season, was called by John J. McGraw "the best winning and best fighting player ever to be in a major league." Jake Flowers, former Dodger and Cardinals infielder, has written a wrestling book which might interest some wide awake movie concerns. Turfmen, who have high hopes that the present campaign will surpass it, say that New York's best race season was in 1906.

Philip Murray, first vice president of the United Mine Workers of America, also is honorary president of the Keystone Soccer League in Pittsburgh where he once starred at left halfback for the Reading F. C.

Patrick T. Faan, executive president of District Five of the U. M. W. of A., also achieved his first win in the soccer game. He performed for the Castle Shannon F. C. League championship. The most promising of the younger lightweights is an East Side kid named Mickey Farber, who looks much like Tony Canzoneri. Clint Howard, former Brooklyn baseball writer, has won more than 300 baseball talks at colleges, schools, clubs and fraternal organizations during the past three years.

Aldo Spilli, Italian lightweight champion, praised American fans and promoters during an audience with Premier Mussolini. Harry D. Turner will promote wrestling and cycling at the Coney Island Velodrome this summer. Boxing and wrestling will be summed at the Long Beach Stadium this season after a four-year layoff.

Joe McKee, who has written a fine soccer column in the Advance, does just as neat a job when he speaks about the sport on the radio. And why not? For years Joe booted the ball around for some of the nation's best soccer clubs.

King George VI.

Queen Elizabeth.

5,000,000 Line London Streets to View Coronation Procession

London, England.—(Special)—A full day of mortal toil for the principals concerned, and a day and night of heroic vigil for thousands of spectators for George VI and Elizabeth, his queen, returned to Buckingham palace, full-fledged ruler and consort of Britain by virtue of one of the most splendid and spectacular coronations the world has ever seen.

Five million persons, it was estimated, lined the processional route, over which the King and Queen in the ancient coronation coach rolled solemnly the six and one-half miles from the palace to Westminster abbey in mid-morning and back again in the early evening.

The solemnity of the occasion was observed by the crowd, even by the 300,000, mostly non-Britons, who had come from across the seas to witness it. But the cheers were

Her presumptive to the most important throne on earth is charming, ten-year-old Princess Elizabeth.

hale and hearty and the attitude was one of celebration as the roar of the guns in the historic Tower of London split the air of the spring afternoon. It was the signal that George VI had won the crown for the first time the Crown of St. Edward, or Crown of England, and called for the cry from 5,000,000 throats as one, "God Save the King!"

Hotels Sold Out.

This was probably the most important point in the entire coronation ceremony, which was heavily religious throughout and extremely burdensome to the principals as well as to the 9,000 peers and their ladies who gathered in old Westminster abbey to do homage to the king and to display for the cost of which ran far into the millions.

It was the climax of the occasion for which souvenir manufacturers had been planning for many months; for which every hotel and boarding house room in London and its environs was sold out; for which a single day; for which the government had spent \$2,800,000, with a prospect of getting back perhaps \$400,000 from the sale of seats along the processional route at \$2 to \$250 a head.

Souvenir manufacturers, distracted at first over the abdication of King Edward VIII—for they had struck his likeness on millions of medals, spoons, plates and other articles—later became jubilant. For the sovereign's collectors were so anxious to obtain the memento souvenirs that the latter sold at a premium.

That the sentiment for the crown, which is the chief bond holding the Empire together, lives healthy and strong was apparent from the thousands who, not being able to afford reserved seats, took their stand along the curbs long before the

setting of the sun on May 11. All night they had to stick to their watch and all the next day. Yet they did not even see the coronation ceremony itself. They witnessed only the procession as it passed up the Strand.

Queen Precedes King.

The ceremony at the abbey was only for the peerage, the persons of royal blood and the king's representatives. With the clergy, they were waiting at the west door of the handsome Gothic edifice, taking their places inside as the approach of the coronation coach in ornate vehicle made for Queen Anne in 1701, was noted. Once inside they were doomed to wait for seven hours in their heavy trappings of crimson or purple velvet and ermine, never moving from the 15-inch seat spaces allotted them until the end of the day, after the King and Queen had departed.

When the coach pulled up, Queen Elizabeth proceeded ahead to the recognition chairs, there to await her lord. When King George entered, to the sound of anthems and prayers, he was introduced to the four sides of the assembly by the archbishop of Canterbury, who assumed the mastery of the ceremonies from that point on.

It was the archbishop who, a few minutes later, was to ask the king: "Sir, in your Majesty willing to take the oath?" The king answered, according to the ritual, "I am willing," and the Archbishop questioned him.

"Will you solemnly promise and swear to govern the peoples of Great Britain, Ireland, Canada, Australia, New Zealand and the Union of South Africa, of your possessions and the other territories to any of them belonging or pertaining, and of your Empire of India, according to their respective laws and customs?"

King Given His Vestments.

There followed a long drawn out coronation service during which the king was presented with the various jewels with which the of his vest him, and was anointed upon the hands, breast and face with the holy oil. Among the jeweled presented him were the staff of sceptre, with the cross and golden spurs, handed down from the time of St. Edward; the three jeweled swords signifying mercy, temporal justice and spiritual justice; the king's sceptre with the dove symbolic of mercy and equity; the sword of state; the king's gold and diamond orb, surmounted by the Christian cross; the crown of state and the imperial crown of India. The jewels used in the ceremonies are reputed to be worth at least \$25,000,000.

Then as the king knelt before the altar, the archbishop placed the Crown of St. Edward upon his head, but only for a fleeting moment for its weight is unbearable. He prayed:

"God crown you with a crown of glory and righteousness, that by the ministry of this our benediction, having right faith and manifold fruit of good works, you may obtain the crown of an everlasting kingdom by a gift of him whose kingdom endureth forever."

The choir sang: "Be strong and play the man; keep the commandment. Lord thy God, and walk in His ways."

Solemn, thought-provoking advice for the man who must wear the crown of one of the most important nations on earth, times when the seething caldron of the world's hate threatens hourly to boil over.

AROUND the HOUSE Items of Interest to the Housewife

Hanging Pictures—Never allow picture frames to touch the wall if it is damp. The frame will soon rot. Use a small nail and a tack or gramophone needle, attach two small corks at the bottom of your frame. These will keep the frame off the wall.

Beef Juice—To make beef juice add 1 pound of fresh, raw, finely chopped round steak without fat to 8 ounces of cold water. Add a pinch of salt, put the beef and water in a glass jar and stand it on ice, overnight. Shake and strain it through coarse muslin, squeezing hard to obtain all the juice.

With Fanerwork—Before starting to draw the threads on linen for hemstitching, wet a small brush, rub it over a bar of soap and then a latter is produced, scrub the threads of linen that you wish to draw, and they will pull out easily.

Boiled Whitefish—Clean a whitefish. To sufficient water to cover add salt and vinegar and a bunch of parsley and a quartered onion. Cook until the flesh separates easily from the bones. Drain and place on a hot platter, garnished with parsley and serve with a sauce.

Outer Leaves of Lettuce—The outer leaves of lettuce, often trimmed off and thrown away, are more than 30 times as rich in vitamin A as the inside leaves.

Butter Layer Cake—When raspberry jam that is not of firm consistency is to be used for filling a sponge sandwich cake it is advised to add a little of the jam to the butter.

Mustard Stains—Mustard stains can be removed from table linen by washing in hot water and soap and rinsing in warm water.

Washing Windows—Add a little starch to the water used for washing windows. It not only helps remove the dirt, but gives a lasting polish.

Soaking Salt Fish—When soaking salt fish add a small glass of vinegar to the soaking water and it will draw out more of the salt. WNU Service.

IT'S NO EFFORT TO KEEP FURNITURE BEAUTIFUL WITH O-CEDAR POLISH! IT'S SO QUICK AND EASY TO USE

TRUCK OPERATORS!

Get the Facts on the EXTRA SAFETY and EXTRA PERFORMANCE of CORDUROY TRUCK TIRES

Before you replace your worn truck tires with new ones, get the facts on Corduroy's famous line of Factory Fresh Super Tires. They're real heavy duty tires. They're built to last. They're built to give you the longest mileage. They're built to give you the most safety. They're built to give you the most performance. They're built to give you the most value. FOR BETTER HEALTH AND GOOD POSTURE

A. Spencer, individually designed for you, will straighten your back line and beautify your figure lines. Also all kinds of surgical supporters. Write or phone

MRS. E. M. WARD
Registered Spencer
Corsetier
708 Scott Avenue
Pikeville, Ky. Phone 136

M. T. DOTSON, M. D.
Office: Opposite courthouse.
Phone 284.

BOND and BOND
Attorneys at Law
Prestonsburg, Ky.
Practice in All Courts

DR. G. C. COLLINS
Dentist
At office in Stumbo Memorial hospital, Lacey, on Mondays, Wednesdays and Fridays.
At office, Martin, Ky., on Tuesdays, Thursdays and Saturdays.
Office hours: 8 to 12 a. m., 1 to 5 p. m.

DR. C. R. SLONE
Dentist
Layne Bldg., Court St.
Phone No. 211
Prestonsburg, Ky.

A. J. MAY
Attorney and Counselor
Practice in all courts
Pittspatrick Bldg.
Prestonsburg, Kentucky

DR. R. H. MESSER
Dentist
GARRETT, . . . KENTUCKY

Prestonsburg Lodge
I. O. O. F. No. 293
Meets the first, second, third and fourth Thursdays in each month. The following officers were installed:
W. M. Hagans, N. G.
Joe Sharkey, V. G.
F. C. Hall, Secretary
W. J. Vaughan, Treasurer

Zebulon Lodge, No. 278, F. & A. M.
Meets 1st and 3rd Mondays in each month. Members of sister lodges are fraternally invited to attend. Permanent guests in our new Temple on Court street.
Notice to Candidates:
M. A. & F. G. Degrees 1st Monday.
M. M. Degrees, 3rd Monday.
H. R. Burke, W. M.
T. J. MAY, Secretary

DR. J. S. KELLY
Dentist
Wright Building, corner of Court and Second, Prestonsburg, Ky.
PHONE 44

Harrisonburg, Va.

NOTICE
Kindly take notice that the Kentucky Children's Home Society, Lyndon, Ky., through its Superintendent, K. L. Messenger, will proceed in due course to consent to and consummate the adoption of Corbin Slone, four (4) years of age.
Any and all objections to said adoption as provided by Section 2072 should be made within four weeks from April 22, 1937.

Sunday School Lesson

THE FORBEARANCE OF ISAAC
International Sunday School Lesson for May 16, 1937

Golden Text: "Blessed are the peacemakers: for they shall be called the sons of God." Matthew 5:9.

Our lesson today centers about Isaac and his love of peace. This patriarch has been minimized in retrospect because of the greatness of his father, Abraham, and of his son, Jacob. He was a man of superior ability, of great patience and perseverance and probably would have loomed larger if he had not been so closely associated with his greater predecessor and successor. While Abraham and Jacob each played an important role in the history of the Jews, the role played by Isaac was just as noteworthy, although not as spectacular.

While we do not know a great deal about Isaac, we do know that he was the long-promised son of Abraham and Sarah. Early in life Isaac learned from his father the lesson of obedience to and trust in God, having willingly acquiesced in the apparent necessity of becoming a sacrifice at the divine command. Later, he married Rebekah, obtained from him by his father from their kinsmen in Haran, the "old ancestral home," so that he would not intermarry with the Canaanites.

While Abraham wandered from place to place, Isaac was more settled. He was forced by famine to leave his home and to go to Gerar, in the country which then belonged to Abimelech, King of the Philistines. While there he "waxed great, and grew more and more until he became very great; and he had possessions of flocks and herds and a great household," so much so that the Philistines envied him. The Philistines, if you remember rightly, were prior settlers in the land and they regarded the presence of the Hebrews as an intrusion upon their rights.

To curtail the prosperity of this "foreigner," they resorted to the practice of digging the wells which were indispensable for the life of the cattle. Isaac had his servants to dig again the wells of water which his father Abraham had dug before him. Time and again, we find these covetous neighbors presenting Isaac with the alternative of moving to another location or of attempting to live in the midst of people they would have to constantly fight.

Isaac was by nature peace-loving, desirous of friendship and invariably he moved on hunting, new sites, rather than living in an atmosphere

of contention. He abandoned a well named Esek, which meant contention, and moved on to another. For this the Philistines contended also and Isaac named the well Sinhar. Hatred. From there he moved again and dug another well, which he named Rehoboth, which meant room or enlargement, and here Isaac received assurances from God that this was the place he was to stay and that God would bless him here.

It is significant to note just what Isaac did immediately upon coming to Beersheba. First, he built an altar. Next, he talked, or prayed, to God. Then he erected his tent, or established his home, and then he dug a well that he, as well as others, might have an abundance of water. "Many people of our time despite their high civilization, are far behind the humble Hebrew patriarch in the true ordering of their lives. Most of them see only their tent—the circle of their own interests; they have no place for their altar or well. They forget God who should be first in life, and the people of tomorrow who ought to benefit by their sojourn here. Others did the well, thus providing a social blessing, but they have no place for an altar. The only true life is that which combines, and in the right order—altar, tent and well."

Isaac's attitude was prompted by his desire for quietness and peace, as well as by a strong faith in the providence of Jehovah. For ought that Isaac knew, these stylings at the well may have been God's way of keeping him moving until he finally reached the location for his life's efforts, which God in his judgment would be better able to select than Isaac trusting to human selfishness and passion.

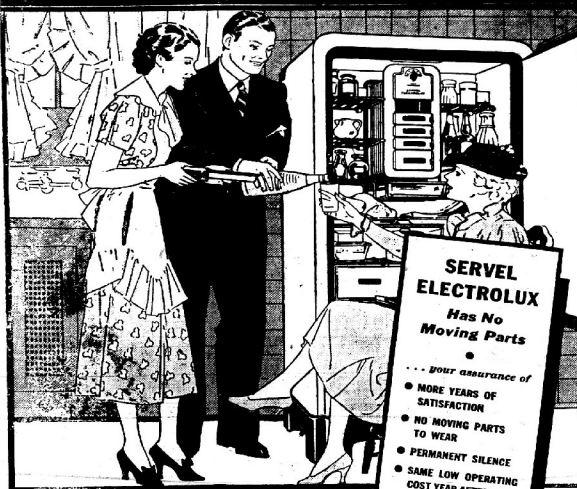

"The noblest kind of sacrifice is the denial of those who have the clearest rights," says J. Strachan. "Isaac was again and again placed in circumstances in which others would have quickly drawn the sword. The question arises whether he surrendered too much for the sake of peace. If a man cannot waive his rights without neglecting his duty, violating his conscience, surrendering his religion, losing his self-respect, betraying the rights of others, he is bound to resist. Otherwise he may yield, and scarcely any price is too high to pay for peace."

Our modern society should profit by Isaac's example. International privacies, territorial markets, oil and power, expressed in political maneuvers, seeking advantage the stimulation of animosities and passion and the preparation for war are in direct contrast with Isaac's peace-loving attitude.

Add water to make a dough, cutting and mixing the paste thoroughly. Flour a board and roll the paste out very thin. Fit into muffin rings. Brush with melted butter. Bake in an oven 425 degrees until done. Cool. Fill the shortcake with sweetened strawberries and cream. Cover with inverted shell, cover with whipped cream and garnish with a large strawberry.

Strawberry Cocktail
Peel carefully and divide into sections 1 medium sized grapefruit. Drain and cube 4 slices of canned pineapple, add an equal amount of large ripe straw berries, halved with just enough sugar to sweeten slightly. Arrange in cocktail glasses and pour over the chilled juice of the pineapple, to which has been added enough orange juice to flavor delicately. Arrange

ITS SILENCE MEANS SAVINGS throughout its long life!

Women everywhere have started a trend to the GAS refrigerator!

MANY PEOPLE choose Servel Electrolux because its permanent silence says "Comfort" to them in a big way. And they're right—it is a real convenience. But this noiseless operation tells you something of even greater interest—especially to your pocketbook. It says: "Here's a refrigerator that has no moving, wearing parts... a refrigerator that gives you longer service at greater savings." Servel Electrolux has no moving parts for the very good reason that it needs none. A tiny gas flame does all the work in this remarkable refrigerator. See it today at our showrooms.

SERVEL ELECTROLUX
Has No Moving Parts

- Your assurance of
- MORE YEARS OF SATISFACTION
- NO MOVING PARTS TO WEAR
- PERMANENT SILENCE
- SAME LOW OPERATING COST YEAR AFTER YEAR
- FULLEST FOOD PROTECTION
- SAVINGS THAT PAY FOR IT

And you enjoy also...
Modern Convenience
Streamlined Beauty
Extra Roominess
Greater Ice Cube Capacity

grapefruit sections over the top and place a sprig of mint in the center of each glass. Serve very cold.

Strawberry Melange
2 egg whites
Few grains of salt
2-3 cup of confectioner's sugar

Teaspoon vanilla
Beat the egg whites and salt. When partially beaten begin adding the sugar in 2 tablespoon portions, beating after each addition. Just before the final portion add the vanilla. Cover an oiled baking sheet with ungreased paper. Place mounds of the meringue mixture on the paper to make circles about 2 inches in diameter. Bake in an oven 275 degrees for about 45 minutes or until the shells are dry on the surface. Remove from paper while warm; they stick moisten the reverse side of paper with a wet cloth. Scoop out the center with a spoon and cool before filling with sweetened berries and cream. Garnish with a perfect berry. Serve cold on lace paper doilies.

Frozen Strawberry Salad
1 tablespoon butter
2 egg yolks
3 tablespoons flour
1-2 cup sugar
1-2 cup lemon juice
2-3 cup of milk
2 cups strawberries
1 cup whipped cream
Salt

Mix the butter in a double boiler. Blend and add well-beaten egg yolks, flour, sugar and salt. Add the milk gradually and cook, stirring constantly until thick. Cool, beat in the lemon juice and prepared fruit. Fold in the whipped cream. Freeze. Serve on lettuce with fruit dressing. Garnish with whole strawberries.

Spring Salad
On salad plates arrange crisp lettuce leaves. In groups

of three. Fill one group with sliced strawberries. Fill another group with thinly sliced unpeeled radishes and cucumbers. The last, fill with cottage cheese moistened with cream, seasoned and sprinkled with paprika. Top the center with a large ripe olive.

Strawberry Whip
1 pint strawberries
1 cup sugar
1 tablespoon gelatin
1-4 cup cold water
Salt
2 tablespoons lemon juice
1-2 pint cream
2 egg whites
Wash and stem berries. Add sugar. Crush and cook for a few minutes. Add sugar, which has been soaked in the cold water. Mix well and strain. Cool. Place in refrigerator to set. Add salt and

lemon juice, and whip until light. Fold in whipped cream and stuffy beaten egg whites. Pour into tray and chill.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But as you grow older, they may not act as Nature intended—fail to remove the waste that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes, a feeling of tiredness, loss of energy, and general weakness. Other signs of kidney or bladder disorder may be frequent urination or too frequent urination.

There should be no doubt that prompt treatment is what you need. The Doan's Pills have been known to cure kidney trouble for more than forty years. They have a nation-wide reputation as the most effective kidney pills in the country ever. Ask your druggist!

HEART DISEASE A KILLER

Heart disease is rapidly becoming the chief cause of death in the United States, being far ahead of cancer, second on the list of diseases which kill the greatest number of people in the United States every year. Incidentally, of the 10 leading causes of death in the country, only one, tuberculosis, has shown a steady decline during the past three years. Whether this is to be attributed to the steady campaign which is waged against the white plague or not, we have no way of knowing but we suspect there is some close connection.

Concerning heart disease, Dr. Harry L. Smith, of the Mayo Clinic, reports that coronary sclerosis is often called the "disease of the intelligentsia" because of the susceptibility of physicians, bankers, lawyers and clergymen. The characteristics of the disease include the hardening of the nerves, ligaments and blood vessels around the heart and its incidence is highest among those who do mental work and lowest among those who do manual labor.

The Times naturally hesitates to attempt any conclusion from these observations but, apparently, the disease attacks individuals who are prone to forget the importance of physical exercise while

consuming their energies in the anxiety of mental worries. It would appear that, somewhere along the line of popular education in this country, the physical nature of man has been neglected. If this is true, and we believe that it is, we might save the lives of future professional men by stressing athletic interests during childhood, with the hope that, when they grow up, the individual will have sense enough to continue what has been wisely begun.

THE VICTIMS INCREASE

Talk about safety all you please but the automobile continues to take its victims in Floyd county and all over the United States, and the people of the land seem to regard it as an inevitable toll.

The National Safety Council reports that 8,500 persons died in traffic accidents in the first three months of this year which is more than 25 per cent above the figure for the same period of 1936.

What about it? The answer is nothing much! We will sit quietly in our homes or die on the roads, as the case may be, but the next year will see the fatalities increase. A few words of warning, an exhibition of grief here and there as death strikes home and the automobiles speed on their way.

EASTERN KENTUCKY CLUB LEADERS IN STATE CONVENTION

Mrs. W. P. Mayo

First Vice-President

Mrs. W. P. Mayo, first vice president of the State Federation, assisted Mrs. Paul Wickliffe in presiding over two sessions of the convention. Mrs. Mayo as state chairman of art, had charge of the Art Mart and exhibit which was held during the convention at the James Hatcher Hotel. Mrs. Mayo is herself an artist of note and presented one of her paintings as a prize to the governor whose district was first perfect in contributing to the P. A. F. While Mrs. Mayo did much to put it on the map.

Mrs. Katherine Langley

General Chairman

Mrs. Langley, president of the Pikeville Club which she founded many years ago, is a member of Congresswoman and an able leader in numerous fields of club work. She was general chairman of the convention and did much to make it a success. She gave the welcome address Tuesday evening, and following the program opened her lovely home for a reception honoring the visitors with the Pikeville club as host. Mrs. Langley is a most interesting speaker and vivid personality.

Mrs. Edgar Ruley May

Vice-Chairman

Mrs. May, district governor of Maytown, is the state's youngest Governor. She appeared on the convention Thursday morning and evening and was vice-chairman of arrangements. She is a vivid booster of the mountains and has the distinction of royal ancestry according to her family tree, which has been published in several editions. She is a member of the sixth generation directly descended from Ruben Cannon of a grand duke in Germany, who landed in Charleston, S. C., in 1769.

Mrs. Stanley Combs, Chairman

of American Citizenship

Mrs. Combs, of Prestonsburg, was state chairman of the department of American Citizenship and had charge of a tree planting service on the convention program Wednesday afternoon. Mrs. Combs is found in each edition of "Who's Who" beneath the name of her father, Dr. Thomas Smith, now of Detroit. She is the daughter of Grace French Smith, poet and is herself one of the best high school teachers in Floyd county, an enthusiastic leader of extra curricula activities and a splendid speaker. Mrs. Combs was chairman of the Committee on Credentials for the convention.

Mrs. May Baker Brownint

Guest Soloist

Mrs. Brownint, of Ashland, formerly of Prestonsburg, was heard during the convention alone and with the quartette from the Three Arts Club in Ashland. She needs no introduction to Eastern Kentucky readers, being well known personally and by radio audiences, since she has broadcast over various stations. She is a graduate of the Cincinnati College of Music and is one of the most active club women in Kentucky.

LOCAL FIRM REPORTS CAR SALES INCREASING

Howard Motor Company, local Ford dealers, according to S. B. Howard and John Warick, of the firm, can lay claim to record sales for the past month. During the month of April, the report states, the records show 28 new cars and 40 used ones sold.

Working toward a goal of selling 40 new cars and 60 used cars in May the company is anticipating a bigger month than ever. So far 25 cars toward the total number has been sold this month.

Howard's recently opened a used car exchange in Ashland, Ky., under the manage-

BUILDING OKHEED BY SCHOOL BOARD

Continued from page one

S. A. Ballinger, county WPA engineer, said, after Friday's meeting that building plans will be worked out in detail by the state WPA office at Paintsville and will be presented to Washington authorities for final approval for the proposed building. "Bringing any hindrances," Mr. Ballinger said, "the plans will be approved in about six weeks and actual construction will start about July 1."

Congressman May told the board that the plans would meet no obstacle in Washington. The board's ok of over it will pay YOU!

What is the "Low-price Field"?

YOU hear a lot about "the low-price field" these days. A good many cars claim to be in it. So whenever the low-price field is mentioned, remember:

Until Ford came, no average American could own a car.

Today all Ford prices are still low—with the prices of the 60-horsepower Ford V-8 \$30 to \$60 lower than those of any other car of comparable size.

But with Ford, "low price" doesn't merely mean low figures on the price tag. It means much more than that. It means low prices and low costs all the car's long life. Low prices for service — for parts — and, above all, for operation.

Both Ford V-8 engine sizes are economical to operate. The 85 horsepower gives greater gasoline mileage this year than ever, and the "60" delivers the highest mileage in Ford history.

Private owners, cab companies, fleet operators all report that the "60" averages from 28 to 27 miles per gallon of gasoline.

Check and see how much Ford saves you.

Ford Founded the Low-price Field Ford Keeps That Field Low-priced Today

Ford V-8 Prices Begin at \$529

AT BLANKET FACTORY, TRANSPORTATION CHARGES, STATE AND FEDERAL TAXES EXTRA

This price is for the 60-hp. Coupe equipped with front and rear bumpers, spare tire, horn, windshield wipers, new view, glove compartment and ash tray.

Ford V-8

\$25 A MONTH, after usual down-payment, buys any Ford V-8 Car from any Ford dealer in the U. S. — through Authorized Ford Finance Plan of Universal Credit Co.

SOME BURIAL CUSTOMS

Burial customs are among the most persistent things we know. Many persons will not sweep under the bed of a sick or dying person, for fear that such a deed will hasten death. Mirrors are turned to the wall in the room where a dead body is lying, and a picture of a dead person is likely to be swathed in many layers of cloth or turned to the wall. It is thought that the person who sees himself in a mirror while the corpse is in the house will be the next to follow. I have never known it to happen, but I think a corpse out of a house head first would be regarded by most people as a major calamity. Just how far back into the past this custom of removing the corpse from the house goes, back no one knows; it is probably as old as any form of house, in some Kentucky neighborhoods that I have known the pallbearers, seated three on each side, the custom of filling up the grave in the presence of the whole family is gradually disappearing. In many places a few months ago I was present at a funeral, where the family left, but the neighbors remained to help in their turn at filling the grave. On one occasion I saw the grave filled by the pallbearers, and what makes me remember it is that I was one of them, and the day was exceedingly warm.

A custom that I have not heard of in recent years was that of having the funeral many months or even several years after the burial. I have attended such, but that was a long time ago. Just how this custom started I do not know; it probably grew out of pioneer times, when the roads were bad and the weather would not permit a long

service in the open air or the poorly-heated churches. It was customary to hold a brief service when the burial took place, but the funeral often lasted a whole day, with dinner on the ground. One day a negro who worked for us came in a towering mood one Monday to do the washing. The day before, the funeral of her mother, Aunt Milly, had been held at Mt. Zion. Julie and Lucy, her sister, had made many preparations for the event, including slaughtering and barbecuing a sheep. When the dinner was spread out, after the morning services, some rude boys of color made a dive for that mutton and soon had it reduced to bones. There was also some fried potato pie, a gallon and a half of it, said Julie, that disappeared quite as mysteriously. She and her sister, not to mention all the children and the relatives, were completely left out. That seems a comic version of a funeral, but those of white people sometimes were not vastly different. Sitting up with the dead is still a living custom, though hardly so common as formerly. I have seen it made a delightful and even gay occasion, with plenty of food for a midnight lunch and a good yarn-spinner to liven things. In some families I have known, the custom has been given up very reluctantly. In its way it was a neighborly thing, designed to show kindly thing. If the young people who came were not always sad, we must remember they often took this custom as well as others as their proportionate share of the responsibilities and duties of their neighborhood.

THE FARM AND HOME (Kentucky Agricultural Experiment Station)

Fertilizer applied to lawns now will stimulate crab and other wild grasses, rather than help the bluegrass, which grows most in spring and fall. Wait until frost kills the wild grasses before applying fertilizer and sowing bluegrass seed.

Watermelons grow best in well-drained, slightly acid, sandy loam soils that contain an abundance of organic matter. The use of four to six tons of well rotted manure and about 500 pounds of complete fertilizer to the acre is recommended.

Placing hives in the shade especially of trees, tends to bees bees from getting lazy in hot weather. Bees fly two to three miles, sometimes farther, seeking honey-making plants. This fact should be considered in locating hives.

Paradichlorobenzene crystals are among the best controls for moths. Have winter garments cleaned and sealed in partheboard boxes, heavy garment bags, tight trunks of cedar chests, putting in the core sealing the clystale, tied in pieces of cheese cloth.

Serving different cereals and fruits and varying the method of preparation help children interested in breakfast. Adding slices of lemon or orange during cooking changes the flavor of stewed prunes, apricots or apples. Prunes and apricots may be cooked together.

The buffet service is a delightful and convenient method of serving a large number of guests or an unexpected number. The menu may be much simpler than those of a regular meal at the table, but the meal may be just as attractive.

Warning Issued By Social Security Board as to Use of Account Number Cards

Employers, businessmen and workers, were cautioned today against mis-use of social security account number cards, by William M. Duffy, field representative of the Social Security Board in Louisville.

Instances of alleged counterfeit social security account cards being used for identification in cashing checks and similar purposes have been brought to the attention of the Social Security Board, said Mr. Duffy. These cards have no particular significance for other than identification purposes under the Social Security Act. They do not certify the financial responsibility of the individual.

Account numbers, explained Mr. Duffy, are being used by the board in administering the Federal old-age benefits plan and by the state in administering their unemployment compensation laws.

With this warning, Mr. Duffy requested that all employers return social security account cards in their possession to the workers to whom they belong. "Several instances in which cards have been retained by employers have been brought to my attention," he said. "While this has resulted generally where postoffices have sent the cards to employers, workers and employers have not known what to do with them, this is not always the case. In every instance these cards should be turned over to the workers promptly."

Berea, Ky.—Miss Anna Marshall, junior at Berea College Academy, was elected secretary of the Academy Young Women's Christian Association at a recent meeting of the members. She will serve during the school year of 1937-38. Miss Marshall is a native of Betsy Layne.

BRUSH CREEK

Mrs. Kendall Patrick, Mrs. H. H. Kees, Amanda Hicks and Miss Madge Potter were the Sunday guests of Mr. and Mrs. Leck Bailey.

A large crowd, exceeding that of many months attended the Brush Creek church. Every one enjoyed a fine service despite the fact a few disorders due to the weather. The pastor, Rev. J. H. Hays, said, "Don't let this happen again. We're giving you alcohol users fair warning. If you have to get drunk don't come around our church."

The Brush Creek road project is now beginning to show a great deal of progress, considering the available equipment and number of men. We certainly need it. We've endured these mud holes delays have enough on our way to hospital and school.

Mr. Curt A. Gusey is now the fifth camp manager for the United Gas Corporation. He apparently takes the place of Mr. R. E. Moore who recently moved to his privately owned home. Mr. Moore, though, is employed as before.

Guy Shepherd and Amos Bailey were visiting in Maysville Sunday.

MARTIN

Mr. Wallace, of the Wallace Music Company, Pikeville has organized a class in piano-accordion.

Through mistake the name of Miss Audra Mae Elam was omitted from the group to participate in class night exercises. She is the class poet.

The Martin orchestra was guest of Pikeville College on Saturday, May 9, with the other bands and glee clubs of Eastern Kentucky at the Music Festival.

Mrs. T. J. Allen and son and Mrs. Monroe Wicker, visited their parents, Mr. and Mrs. S. A. Maggard, of Hindman.

Misses Pearl Allen, Audra Elam and Dortha Wurm were business visitors in Huntington on Saturday.

The freshman class, chaplained by James Salisbury, visited Natural Tunnel, Va., on Saturday. The junior class, chaplained by Mr. and Mrs. Lewis, picked up the breaks on Sunday.

H. O. Wilson spent the week end with Mrs. Wilson and family.

ed a number of guests last

week with a miscellaneous shower honoring her daughter, Mrs. Marvin Conley. Mrs. Conley was the recipient of many attractive gifts which she graciously acknowledged. Mrs. Hutton served tempting refreshments to a large number of guests.

Mrs. H. H. Vincent has been very sick for several days.

Miss Patty Hutton spent the week-end in Paintsville with Mrs. G. C. Perry and family.

Mrs. Chas. Dingus and Mrs. A. B. Osborne were business visitors in Paintsville Thursday of last week.

Mrs. Irene Bradley spent last week in Cincinnati with her daughter, Francis, who is in school in that city.

Mr. F. C. Klank is able to be out again after being confined to the hospital for several days with a heart ailment.

Mrs. Val Hutton returned Sunday from a few days spent in Fort Gay, W. Va.

LACKEY

The seniors of Lackey high school enjoyed a trip to Eastern Kentucky State Teachers College at Richmond, Ky., Thursday and Friday, May 6 and 7. The party was chaperoned by Mr. J. C. Wells, principal of Lackey high school.

The object of the trip was Senior Day, held every year at Richmond. An educational chapel program was given by the students of Eastern and a delightful lunch was provided by the school. Those who attended from Lackey high school were: Elita Conley, Thelma Hays, Ceredo Reed, Virginia Richmond, Josephine Collins, Jean Williams, Tom Allen, Charles Collins, Joe Preter, Maris Smith, and the chaperone, Mr. Wells.

A summary of the work of the Girl Reserves. The girls of Lackey high school have worked faithfully this school year to hold the pledge of a Girl Reserve. It has not only helped other

people, but has helped to bring the girls closer together and has taught them to love and co-operate with one another.

The year has been filled with parties and other activities. A reading room for the girls and a stinging room for the teachers were planned and constructed. Pies, cakes and candies were made and sold to make money for the use of the club.

All the school has been interested and has taken part in the programs given by the club to promote love and co-operation.

The senior class presented the play, "Crashing Society," a three-act comedy. Following is the cast:

Adam Dunnigan, the hus-

band, Joe Prater; Elsie Dunnigan, the wife and ruler, did not know anything about the shooting until he awoke the next morning.

Elita Conley, George, their son, Thomas Robinson; Christabel, the youngest daughter, Jean Williams; Scruples, the butler, Cecil Sublett; Miss Gadgett, tutor, Thelma Hays; Mr. Van Wither, society leader, Chas. Collins; Mrs. Van Wither, his wife, Ceredo Reed; Cyril Van Wither, his son, Thomas Allen; Akathas, mulctress virtuoso, Virginia Richmond; Mr. M.P., reporter, Maris Smith. The play was a huge success.

defense attorney, said

the trial occurred at about 11 p. m. Monday night when the defense placed Doctors W. L. Stumbo, J. E. Looney and McCann, whose testimony substantiated the defense plea. The trial procedure was held up to await the arrival of the doctors.

"We'll let the Supercharger be our Salesman"

The proof of the pudding is in the eating! Tributes to the super-performance, the super-economy, the driving ease and riding comfort of new Graham Superchargers come from Supercharger owners themselves. "Whatever the driving conditions—from downtown traffic crush to one-lane country road—the Supercharger brings you a margin of performance, a margin of economy, a margin of safety, a margin of motoring efficiency and luxurious comfort no other car can offer. Only behind the wheel will you come to a full understanding of Supercharger superiority over other automobiles. Only by actual driving test will you be convinced that no other motoring in the world can compare with Supercharger motoring. . . . Drive a great, low-cost Graham Supercharger yourself today. . . . Compare it with any other car you have ever known. . . . We are content to let the Supercharger be our salesman."

"... FARTHER AND FASTER ON A GALLON OF GASOLINE THAN ANY CAR IN AMERICA!"
