CASUALLY SPEAKING

By F. P. EPLING

Fifty million wandering refugees in one big country alone. Let's lose sight of the other nations for a while and look at China. An appeal comes over the radio, telling of these people—old, middle-aged and young—no place to go, to stay, and nothing to eat...

Is there a committee in this part of Kentucky? If so, I'll do without at least a quarter's worth of good eating, things I can't very well leave off this week and give that quarter...

Equipment for China's fighting forces is going forward. Our government sees to this. We may say, "We have our hands full, giving to our own cause." That is true. But this also is to our own cause...

Trying very hard to see something to do to help my country, I've been looking too high. But when I glance at duties down near my level, I find plenty of things to do. So many things, a little confusing—but I'll pick out a few little things to do.

You hear men in their forties and fifties say, "I'd rather go than for my boy to go." Or another will say, "I think I'd want to get in the place I could do the most good for my country." Well, we know if these men do not go into the armed forces, they can be counted upon to do something back home...

Some people forget God. In good times, some forget Him in bad times; while others draw closer to Him who said, "Let not your hearts be troubled..."

16 Freight Cars Derailed in Wreck Near Pikeville

Pikeville, Ky., April 17—Sixteen cars of the Chesapeake & Ohio Railway's southbound freight No. 92, The Manifest, were derailed this afternoon three miles south of Pikeville toward Ekhorn City.

No one was injured. A switch that failed to function properly evidently caused the pile-up. The engine, tender and one box car passed the switch and the next car was derailed, causing 15 others to leave the tracks.

The freight runs from Detroit to Miami and carries miscellaneous merchandise. Eight of the 16 cars were badly smashed, and one of them rolled into the Russell fork of the Big Sandy river. Sixteen other cars on the rear of the train remained on the tracks.

Federal Bureau of Investigation agents would not comment, but it was indicated they were investigating to determine whether there was sabotage.

"Yes, Major—Uncle Sam has the right o' way!"

America's war needs get first call on Chesapeake and Ohio services. For the railroad is a primary arm of defense... and it's "in for the duration!" We know that if the public is asked to defer to military needs they'll do it gladly, as a contribution to America's victory.

Courtesy... with trains taking war goods to ports and camps and supply depots... transporting troops—and always trying to keep commercial shipping and regular passenger service up to Chesapeake and Ohio's high standards.

RUSSIA—OUR ALLY

SO you don't like Russia! Well, you'd better pray for her, anyway.

For on the success or failure of the Soviet Union in its life-and-death struggle this spring and summer with Adolf Hitler's legions depends the duration of this war.

Military authorities are agreed that,

if the Russians can withstand the German assault this year, hold Hitler at bay and give the United States time to prepare, the war may be of surprisingly short length.

They likewise are agreed that, if Hitler crushes the fierce-fighting Soviets and gains rendezvous in an East-West move with Japan, we're in for a long and exhausting struggle, with our own armies standing the full shock of a relentless foe made stronger through conquest and the disposal of a gallant enemy.

Now is no time to conjure up visions of a victorious and powerful Communist bogey man. The enemy we face is also facing Russia. Not Russia but Germany and Japan are the world-crimeinals we must shackle.

So now is the time for the United Nations to quit the policy of looking on this powerful ally as a potential threat to their safety. They should not only wish Russia success; they should send the wherewithal to make that wish become reality.

THE HOME FRONT

HERE IS A RESUME OF IMPORTANT HAPPENINGS

- Sugar rationing dates set. Shellar shortage crimps music records. Male war fashion not so bad. Plans delousing chemical restricted. WPB restricts metal for home use. EPA defends local auto boards. Auto rationing to be less. WPB cracks down on priorities evasion. Nelson urges work vacations. Companies hit for racial, religious discrimination. Stickers and oil burners for homes out. Zippers are restricted. Registrars for sugar rationing are getting 56 pages of instructions. They go to state and county administrators, local rationing boards, county and city superintendents of schools, and school-site administrators and registrars—two million or so. Registration for wholesalers, retailers, industrial and institutional users will start April 28. On April 28 and 29 this group will register in the nation's high schools. These applications are now obtainable through local rationing boards. Consumer registration takes place in the elementary schools May 4-6, and will be handled by 1,200,000 teachers under supervision of the school-site administrators who will usually be the principals. Individuals will get a half-pound a week. Photograph and radio transcription records are now hit by a WPB restriction order. Their production is cut to 30 per cent of the 1941 figure. Shellac used to make records will only come from India now blocked by war. Military production makes heavy use of shellac, as well as certain necessary civilian production. Cartoonists and jokesters had a field day lampooning the wartime clothing styles for men. The cartoonists' sick chuckle is about the facts. In general, men's clothing will be more conservative, hard weaves will be out, and softer fabrics will be in. The new styles will be without frills and serviceable, will be plentiful. The color range will be broad. The new line will be from the Office of Price Administration. You may never have heard of rotenone but if you are a farmer or trucker you will have heard of it. It goes in delousing powders for domestic animals and sprays for forest crops. It comes from Malaya and the East Indies, and now it's scarce—you know why. WPB conservation order restricts its use to delousing and forest crops except cranberries, eggplant, onions, peppers, sweet corn. Household use is prohibited. Buttons, hooks-and-eyes and snaps, good enough for everybody a few years ago, are now enlisted for war service. Zinc and steel for zippers are cut, and first quality zippers are reserved for military and work clothing. Copper is barred for use in buttons and must have more scarce. To conserve supply of critical iron and steel used also in fuel oil manufacture of oil burners and coal stokers for residences will be stopped after May 31. The stoker order will save 30,000 tons of iron and steel and 142,000 sets of motors and controls, while the oil burner order will save 12,000 tons of steel and 211,000 sets of controls and motors. It is estimated there will be 65,000 new coal stokers and 129,000 oil burners on hand when manufacturing ceases. OPA will "liberalize" automobile rationing. The rationed cars moved last slowly. Rolf Nugent, chief of Auto Rationing Section, said: "The

WAR STOPS ROAD WORK

Only Maintenance Operations Seen On Rural Roads

Frankfort, Ky., April 18.—War conditions make it impossible for the Division of Rural Highways to engage in construction projects this year, Commissioner Cecil T. Williams said. All of his appropriation of \$2,000,000 will be spent for maintenance on some 7,000 miles of rural highways in Kentucky's 120 counties, Williams said.

"We have got to protect our investment in roads already built, and conserve machinery and equipment," he explained. The division operates from a \$2,000,000 fund appropriated by the Legislature from revenue of the Department of Highways. While the war has no direct bearing on the appropriation, Williams explained, indirect war factors make it inadvisable to spend money on construction this year.

There are in the rural system some 2,000 miles of Class C highways, and some 10,000 miles of Class B highways. It is the duty of the Department of Highways and, under normal conditions, would be taken over for state maintenance. However, Williams said, depleted revenues from the gasoline tax has prevented the department from taking on the added burden, leaving it the responsibility of maintaining the roads.

"I admit," Williams said, "the money will have to be spread thin to maintain the mileage. But we are going to do the best we can. The money will be spent primarily on drainage, he explained, with some replacement of rock and bridge repairs. Good drainage is vital to the preservation of the low-type roads in this system, Williams said. Most of the mileage is traffic-sour, macadam concrete, isolated rural sections with the state and federal marked system.

The state has spent nearly \$10,000,000 in the past five years on the rural division since it was established six years ago. But this sum is only a fraction of the total outlay, as many of the projects were built by the combined resources of the counties, the state and the WPA.

The division meanwhile has accumulated nearly \$2,000,000 worth of machinery and equipment. The money for rural highways is apportioned among the 120 counties as follows: One-third equally divided; one-third divided on the basis of area, and one-third on the basis of population.

Deserters Who Killed Agent, Wounded Tignor, Penned

Abingdon, Va., April 17.—Two 21-year-old army deserters were convicted of first degree murder by a federal district court jury today in the slaying of F. B. I. Agent Hubert Tignor, Jr. here March 13, and were sentenced to life imprisonment. The jury also found the deserters guilty of a second degree murder sentence upon the two James Edward Terman, Clinchburg, Va., and Charles J. Lovett, Philadelphia, Pa., immediately after the verdict. They were returned by the jury, which recommended against capital punishment. Tignor was slain in an Abingdon cafe as he and a fellow agent, Charles L. Tignor, 29, Hindman, Ky., sought to arrest the two soldiers as they fled from Port Orchard, Ga. Tignor, a University of Kentucky graduate, was shot four times in the chest.

SHIKE'S POKES

(The views expressed herein are those of the writer and not necessarily those of The Times.)

The paper set that 140 of our boys—our brothers, uncles, cousins, fathers, etc., left last week for induction into the army. They are going forth to protect your freedom and mine, as well as theirs. They are going forth to sacrifice "themselves," if necessary, for our way of life and nothing is too good for them. And who are still at home should put our shoulders to the wheel just a little harder—and any of those "they-alls" who are kicking about the shortage, sugar shortage, etc., should receive a punch in the nose. If it takes it, can do without sugar, etc., entirely.

Well, the Easter parade is past and instead of being a preview of 1942 styles, it was just a review of 1941 styles.

Boy, wouldn't we have been in a hell of a mess if Herbert Hoover had won for President in 1928. Remember his slogan—"two cars in every garage." It would have just doubled our worries—there's not even tires for cars.

Even with only one razor blade allowed each week—don't fret. The American people will scrape through.

I read somewhere that "Life is 10 per cent what you make it, and 90 per cent how you take it." I guess the boys've got something there, 'brother!

Paul Haygood had his eggs without bacon one morning last week. He laid a 10-pound slab of breakfast bacon on the table. It was missing at 10:30. He had a note on the paper wrapper were found together. So far, the dog is still in good health.

And speaking of eggs reminds me of the Sowens, the big butter and egg man from Johnson county. Where he eats his lunch, "A' looks like where an incubator is kept. If his hens fail to lay, he "lays off."

George King is back on his brick-maker's job. Seems as though he didn't like his script writer's job.

Dick Showers and I sure have been putting forth a lot of effort in our victory garden. However, our "Better Haves" say our energy won't last beyond the "good weather spell." Anyway, we've got it planned. If the little women will just go back and see about it once in a while.

We have a report that Jim Fitch swapped for the M. P. Blanton Freshman. It seems that Jim Fitch has knocked the breath out of Jim and shipped the hide.

We also have a report that Bill Burchett and Clifford Williams are going to join the army as "smilers." They are good hands at climbing elm trees.

It's a lot better to be taxed by Uncle Sam than by Japan.

Anybody who ever milked a cow knows who will win this war. "One good Yank" is a dozen Japs.

This might not sound right, but it's the truth. After this war Japan will be up against the fact that "JP" will be knocked out of the seas.

The last war was the World War, or what call this one "The War of the Hensperses" or "The Hellaxaphers"?

We have a report from an unimpeachable source that, due to the Selective Service Act, we have about 31 assistant mail carriers in one small hamlet.

The last word we had from Jack Norris of the U.S. Navy, he was in Manila. There's one guy who will make the Japs punch card. Also the last time we heard from Claude "Cuddly" Martin, he was at Pearl Harbor. Thanks, "Cattfish" for the pictures of the "Grass Skirts." Why don't my friends in the different places send me some of the happenings in their camps—well be glad to take care of their jokes. Let's hear from Chas. Jones, Ft. Bragg, N. C.; Bill Norris, Ft. Jacksonville, Charleston, S. C.; Stan Hays, Iceland; Bill and Junior Henry in Hawaii; Oral Gibson, Ft. McClean, Ala.; Junior Martin and Frank Allen, Ft. Knox; Raymond Praley in Texas; Gearheart at Ft. Meade and Richard Tackett, etc.

From the way some "stenge" spell, they have been hired by the cause of their "giamor" instead of their grammar.

We have a report that Hitler and the German people have resorted to wooden clothes, shoes, hats, etc. But before Hitler could win this war he'll have to resort to wooden men.

A young man was being questioned by his draft board and they asked him, "What was your

BUS DRIVERS ON STRIKE

Ky.-Va. Stages Employees Ask Pay Increase

The late bus arriving in Pikeville at 10 p.m. last night (Wednesday) was the last run for the buses of the Kentucky-Virginia stages as 27 drivers went on strike pending negotiations for more pay. The strike was the outcome of the meeting in Paintsville yesterday between company officials and their drivers which resulted in a deadlock. The bus company operates from Ashland to Pikeville, Jenkins, Elk Horn, Ky., and Grundy, Va., covering approximately 247 miles.

The drivers ask for 4 cents per operating mile and a guarantee of 200 miles per day; room and board at 10¢ per mile and \$1.50 for each "flat" fixed on the road; also, a minimum of \$95 per month for the relief driver, even if he "pulls" only one run per month. An authoritative source informed THE TIMES today. At present the drivers are on strike two days per week with the privilege of two days per week off with full pay.

UNEMPLOYMENT COMMISSION TO SEND REPRESENTATIVES

County Judge E. P. Hill, Jr. announces that representatives from the Kentucky Unemployment Commission will be at the courthouse here only one day, but will be here to benefit appeal cases.

County Judge E. P. Hill, Jr. also said the Herald—triplets, two boys and a girl, were born prematurely to Mr. and Mrs. Elmer Austin on Oresay Creek, Two of the babies died only a few hours and the other died during the following night. The babies were brought to a Paintsville hospital in an effort to save them. The father, who is employed at Wheelwright, was away at work in the mines at the time of the birth, the paper stated.

PORT-MILE SPEED LIMIT—President Roosevelt has asked for a 40-mile-an-hour speed limit on the nation's highways in an effort to save lives.

The reduced speed will save rubber and gasoline. But even more important is the fact that it may save your life.

The traffic toll is one of our big problems, just as the conservation of rubber and gasoline are being lost. Skilled workers and key men in our war program are being killed every day in traffic. Untold millions in time and money are being lost. This needless drain on the strength of our country should be stopped.

So make "slow over forty" your pledge. Sign down to speed victory!

Auxier's Contribution To U.S. War Effort Increased by 3

Old Lakes, Ill. April 20 (Sp.)—Auxier, Ky's contribution to the country's war effort was increased again when three more of her sons reported for duty at the U.S. Naval Training Station here. These men are now in recruit training and will be fundamental of naval procedure. They will soon be given aptitude tests for determining whether they will give further specialized training in one of the navy's many service schools, or will be assigned to active duty with the fleet, or at some other naval station. The three Auxier recruits are: Harry Douglas Sherman, 20, son of Mr. and Mrs. Alfred Sherman; James Earl Sherman, 20, and James Paul Connors, 17, sons of Mr. and Mrs. Charles Connors. R.

Johnson county Judge W. J. Ward has been having "trouble" with his magistrates. According to the Paintsville Herald, the squires wanted a caretaker for the courthouse grounds but Judge Ward refused to consider it. Later meeting without "hissom," the judge, they elected the Rev. Winthrop Meek as judge pro-tem and proceeded with "unfurnished" business but Ward arrived on the scene declaring that "practically" was trying to usurp his authority, held him in contempt. The determined squires then elected Randall Daniel as the pro-tem, begged himself another squire for contempt. He sentenced both to six hours in the calabozo and a fine of \$100. Ward said the hiring was illegal because there was no money to pay a caretaker in their present budget.

Circuit Judge J. P. Bailey came to the rescue of the contended squires and ordered them released on a writ of habeas corpus. As the Herald went to press the "ried up" Judge had issued a commitment, caught up with his squires and had 'em locked up again.

Also, said the Herald—triplets, two boys and a girl, were born prematurely to Mr. and Mrs. Elmer Austin on Oresay Creek, Two of the babies died only a few hours and the other died during the following night.
