DRAFT-DODGER GIVEN TERM OF 1 YEAR

Floyd Man Is Penned, Others Considered As Delinquent

Clarence Clenton Frost, 24 years old, of Wheelwright, was convicted in U. S. district court at Pikeville this week of failure to keep Draft Board 45 of this county notified of his address and of failure to report for physical examination. He was given a one-year federal prison term.

Frost, a married man, but without children, was indicted Monday. Draft board officials here said he registered as a delinquent after being released from a Virginia prison gang and gave his address as Wheelwright. Later, he figured in a Whitesburg jail break, and when other efforts of the local board to locate him failed, and he had failed to report for examination, the case was placed in the hands of the Federal Bureau of Investigation. He was arrested at High Point, N. C., by the FBI.

This week, Draft Board 44 here declared six registrants delinquent after they had failed to complete their questionnaires, and placed the case of another, Joel Hinton, of Allen, with the U. S. district attorney after he had failed to report for induction. Those declared delinquent and their addresses are: Ernest Akers, Betsy Layne; Ernest Thurston Hall, Retay Layne; Homer Johnson, Risner; John H. James, German; Beal Peaster, Water Gap.

SOLDIER HURT, FOUR QUIZZED

2 Placed Under Bond In Stabbing, Beating; 2 Others Released

County Attorney Woodrow W. Burdick said Tuesday that two Floyd youths--Charlie Newman and Ernest Isaac--are under bond of \$2,000 each to the next Floyd circuit court. Burdick's action in the cutting and beating of Charlie Johnson, of H. C. Church officiating. Burial was made in the Gearheart cemetery here under direction of the Arnold Funeral Home.

ON FURLOUGH

The Rev. William H. Connors, of Danville, has been guest during a 10-day furlough of his parents, Mr. and Mrs. Chas. Connors, of Auxler, and of his sons, Mr. and Mrs. Frank and Miss Ellen Connors, of Prestonsburg. He has been first-aid instructor for the last five months and is anxious to serve overseas with some of his students. He has two brothers in the navy.

Want Another Go At Gathering Scrap

School children and teachers of the county are anxious to have another go at the scrap, and we are now planning a drive to include that chance," Mr. Isbell said this week.

Small Purchasers of Kerosene, Daily Headaches to Board

The 5 and 10-cent kerosene purchasers are daily headaches to the Floyd War Price and Rationing Board.

It all came about by dealers wanting to know, "What are we to do with the nickel and dime customers of kerosene?"

HOW MANY? The Floyd War Price and Rationing Board announces this week that all dealers in fuel oil and kerosene--including all classifications, cross-road stores, gasoline stations, etc.--who sell to the public should notify them of the number of applications that will be needed for their customers. That is the only way in which the Board, it is pointed out, can reasonably determine the quantity of applications to have on hand when the dealers' registration day is announced later this month. The Board stated further that dealers will register with the Rationing Board in advance of consumers.

The dealers had been informed by the suppliers that they would be required to turn in a coupon for each gallon of kerosene sold after the first of November. No more kerosene would be supplied.

REV. SMITH IS KILLED

By Rock While Working In 'Coal Bank'; Dies Almost Instantly

The Rev. William Smith, well-known minister of the Right Reformer church of this county, was almost instantly killed Friday when his head was crushed by a rockfall in a country coal bank in which he was working near his home on Snaggy Fork of Salt Lick Creek. He was about 68 years old.

He died shortly after his brother, Green Smith, reached his home. Surviving are his widow, Mrs. Laura Whitaker Smith, two sons, James and Ernie, both in the U. S. army, and seven daughters, Mrs. Sewell Griffin, of Quitman Creek, Mrs. Hoy Shepherd and Mrs. Troy Fairchild, both of Hueyville, Mrs. Nannie Hicks, Cary, Mary and Edna, all of Randolph.

Burial of the victim was made Saturday near his home.

COUNTY SCRAP PILE GAINS 90,343 POUNDS AS WORK OF 19 MORE SCHOOLS REPORTED

Floyd county scrap weighed to date jumped 90,343 pounds with the junk harvest of 13 additional schools weighed and reported this week, S. L. Isbell, county salvage director, announced.

Seventy-five schools remain unreported, but their contributions are expected to be known within the next few days as state highway trucks gathered up the scrap heaps.

So successful has the WPA emergency scrap collection in Floyd county that George F. Shaw, state supervisor, has suggested that other counties adopt methods practiced here in the collecting of school children in the work. In a weekly memorandum to WPA supervisors over the state Mr. Shaw wrote:

"It looks like Floyd is trying to make a runaway race collecting 129,067 pounds this week, more than doubling the collection of any county except McCreary. From the number of iron beds I saw in the stock pile in Floyd this week, I believe a lot of our mountain people will have to sleep on pallets on the floor this winter."

"This week we made a trip through the mountain counties of Eastern Kentucky, and it was really inspiring to see the tremendous enthusiasm which our mountain people are exhibiting in applying to the war effort, especially the school children, in the collection of scrap. The children are working like ants, covering the hills and hollows with scrap and using every type of conveyance common to mountain use in delivering it to the numerous schools. There are 156 trucks and vans visiting the schools and purchasing the scrap, which the children have collected, with the understanding that the money they are paid will be used in buying milk for the school lunch project, basketball, or playground equipment."

MOTHER'S MEMORY

Is Long, Resulting In Happy Ending To This Story

A Floyd mother's memory of a chance remark made by her soldier-son, months before, recently prevented a mistake that would have been of tragic proportions to her.

When Mrs. Jonas Collins of Lackey, and daughter, Mrs. George Evans, went to Baton Rouge, La., to visit her son, Gordon, in the army camp there, she telephoned her son before her arrival. Learning it was too late to see him on the night of her arrival, she and her daughter spent the night at a hotel, next day drove to his barracks to meet him.

GREER DIES OF INJURIES

Abbott Creek Man, Crushed in Mines, Succumbs Monday

Oscar Greer, 57 years old, Abbott Creek resident, was fatally injured Monday morning while working in the Old Purly Canal Coal Company mine on Abbott, and died at the Prestonsburg General hospital, here, late in the afternoon.

Mr. Greer was almost covered, it was said here, by a fall of slate and rubble. He died of head and internal injuries.

The victim, a son of Townsend and Mrs. Tempa Flancyer Greer, was born in Boone county, Virginia, and had resided on Abbott Creek for more than 20 years. He was married to Miss Laura Dolson in 1906. Mr. Greer had one of his children, Mrs. M. J. Greer, Knoxville, Tenn., and three other children, Mrs. M. J. Greer, Norton, Va., and one daughter, Mrs. James Lykins, Norton, Virginia.

Funeral rites were conducted Wednesday by the Rev. Isaac Stratton, and burial was made in the Pruitt cemetery under direction of the Arnold Funeral Home.

'BUDDY' HALL DIES AT 65

Kin of Late Judge Is Heart Victim In Knott-Co.

Miles L. 'Buddy' Hall, prominent Knott county farmer, died Saturday at his Pippas home, victim of a heart ailment, from which he had long suffered. He was 65 years old.

Mr. Hall, who has six sons and two sons, well-known in educational and legal circles in this county--Everett (Reb) Hall, former teacher at Lackey, and now Knott county attendance officer, and Atty. D. Hollender Hall of Hindman. Other surviving children are Bill Hall, Litt Carr, Ky.; Russell, Newport News, Va.; Lloyd, Hampton Roads, Va.; Mrs. Taubie Jacobs, Mrs. Malcolm Slone, Mrs. Melvin Stagg, Mrs. Marie Slone, all of Pippas; Miss widow, Mrs. Clara Caudill Hall, is a sister of the late John W. Caudill, former circuit judge of this judicial district. He leaves three brothers and two sisters: Connie, Buford and Joe Hall, Mrs. Henry Reynolds, Mrs. Garrett Thornberry.

Funeral rites were conducted Monday from the graveside in the family cemetery on Hollyhills, the Revs. Allen Hopkins and Floyd Caudill officiating. Burial was made under direction of the Ryan Funeral Home.

WHOOPING COUGH VICTIM

Daughter of Granus and Mr. Myrtle Damron Blair, of Irel, died Thursday, last week, a victim of whooping cough. Besides the bereaved parents, the little victim is survived by one brother and one sister, Billie Dan and Bobby Marie. The funeral was conducted Saturday from the graveside in the cemetery at Irel, the Rev. Isaac Stratton officiating, and burial was made under direction of the Arnold Funeral Home.

FLOYD SLAYER BROUGHT HERE FROM OHIO

Barrett Admits Blow That Killed Waddins; Others Are Sought

By his own admission the man who struck Walter Waddins the blow which had not been arrested, Lacey Barnett is in jail here in connection with the slaying and Riley Barnett, son of Warren, and the fourth man indicted in the case, is at liberty.

Warren Barnett surrendered to the Sheriff at Kenton last Friday. He was employed in a railway roundhouse at Willard, O., when the slaying of Waddins' death. Thereupon, it was said, he visited his brother, Clayton Barnett, prominent Kenton farmer, told him of his part in the case, and his brother advised him to surrender. He waived extradition.

His brother Melts spent one night in jail with him at Kenton, but later was released, was last reported at Warren, Ohio.

En route to Prestonsburg, the officers said, Barnett told of the slaying. He told Waddins, returning from Prestonsburg, Sept. 21, with a sack of cabbage, a WPA commodity gift, was intoxicated and engaged in a fight with Riley Barnett, son of the prisoner. When Riley was knocked down, he added, he approached Waddins, was promptly seized and knocked into a water hole. Arresting, he struck Waddins, the prisoner said, with no intention of killing him, however, as the slayer, and a sister of the victim, added her testimony to procure recent grand jury indictments. She named Riley Barnett, mother of the slayer, and a sister of the victim, and referred to the victim as "poor little Walter." Waddins was a man of slight stature, weighing little more than 100 pounds. Authorities here were first told that Waddins was attacked without provocation.

Warren Barnett told the two officers that he would apply for bond, but that continuing trial may be held this week.

GIVING BIBLE INSTRUCTION

Washington, D. C.
FARM PARTY FIGHT
To Roosevelt advisers, the farm party fight was an ominous rumormongering of what many of them expect during the two years of the November elections turn soon for the Democrats. It left people a little worried around the White House. But, if the Republicans organize the house, or even if the Democratic majority is apparently cut, that is exactly what will happen.

Three reasons are given, backstage, for the faulty handling which resulted in the terrific farm battle:

1. The President himself, who couched his message to congress in terms of such a strong ultimatum, rather than the usual Roosevelt papery strategy at which he is so adept. Incidentally, the speech was written in large part by brusque, bulldozing Leon Henderson.
2. Speaker Sam Rayburn, who dropped his usual kindness and stormily told congressional friends that the President had promised to send a farm price stabilization message until later. Rayburn's attitude was a tip-off in deeds if not words. "To vote as you please, boys."
3. Price Czar Leon Henderson, who was considered the political ogre and bogeyman for whom the farm stabilization bill was being passed.

WAR BONDS
A war savings bond salesman in Buchanan county, Iowa, was complimented when the speaking of that talk strategy session was so aptly and incidentally, the speech was written in large part by brusque, bulldozing Leon Henderson.

2. Speaker Sam Rayburn, who dropped his usual kindness and stormily told congressional friends that the President had promised to send a farm price stabilization message until later. Rayburn's attitude was a tip-off in deeds if not words. "To vote as you please, boys."

3. Price Czar Leon Henderson, who was considered the political ogre and bogeyman for whom the farm stabilization bill was being passed.

ARMY SHOES
If you are a draftee with high arches or low arches, one flat foot shoe ten feet, or one with your right foot is a half size larger than your left foot—doesn't matter. The quartermaster will fit you any way.

Even if no one of the 238 different sizes of army shoes fits you, instructions to army post canteens is your foot should be fitted, and fitted comfortably. This order is to be obeyed even if it means making a plaster cast of the old foot and ordering a special shoe from an individual last.

In such cases, the individual last is tagged with the name of the soldier and filed away until he receives another pair of shoes. Such service would cost \$25 a pair in private life.

Army experts declare that a soldier with sore feet is worthless.

NO CELLOPHANE COMMISSION
Sigfried Bechhold, president of the Armored Tank corporation, is not a private in the army. After making a small fortune in manufacturing tanks, Bechhold joined the army as a private, age 42, was sent to Camp Lee, Va. Friends expected to find him unhappy after exchanging his soft life for the rigors of the army. But when Bechhold got away for his first weekend, he declared:

"This experience is making a man of me, and I wouldn't miss it for the world. I've served in other armies, but there's no army to compare with this one. You talk about morale—the soldiers don't need 'morale,' they already have it."

"You have to get out of Washington to learn what the Army is really like. If I had ten sons, I would tell them all to join the army."

MERRY-GO-ROUND
Some doctors who passed their physical examination for the army three months ago have not yet been called. Yet the army is still appealing for more doctors.

President Ernest M. Hopkins of Dartmouth will be campaign manager for Republican Senator Styles Bridges of New Hampshire against ex-Republican Frank P. Rowland, now Democrat. Like Bridges, President Hopkins has been a militant supporter of Roosevelt's foreign policies.

After the Party

New York Picture Postcard:
The 5th Avenue store which advertises a dog soap as "Shampooch" . . . Tascanni getting a new coat from the 57th Street record shop owner . . . The Broadway night lights which go on during the day and off at night . . . The man leaning out of his 4th floor window at the Taft Hotel—focusing his binoculars on the Winter Garden dressing rooms . . . The "Queen of 47th Street"—an old gal who strolls there after midnight, attired in Gay 90s garb . . . The Music Hall lounge, swankier than most high-priced joints . . . Stop and Go signs along Broadway, which pedestrian ignores like good angels . . . The well-behaved patrons in the Automat and the noisy drunks in the apply places . . . The Wall Street nation's cash register, crowded with some of the shabbiest buildings in town . . . Columnists hearing a well-draped peer and tossing a coin to decide who gets it.

Sixth Avenue auctioneers exploded vocal Roman candles . . . Art-lovers in the museums—and their velvet whisperers . . . Two lovers juggling their dreams in whispered nothings . . . The photo of a wrecked Jap plane in the window at Dempsey's . . . The hungry beggars at 42nd and 7th every Sunday waiting for the stationery store-keeper to feed them . . . The cop's horse that accepts cookies only from the Zoo show guard near the stage door . . . The slanty penmanship of rain editing the park's complexion . . . The art and womanizing that inspire so many of the Broadway songs and tragedies.

FBI men glad the "kidnap" scare in Westchester was solved so quickly . . . "Couldn't spare 100 agents on a kidnap case now—with all the other things to do" . . . That was the case of the nurse who allegedly confessed she did it . . . She will get away with a ten year sentence, perhaps . . . Because she didn't leave the state and didn't hold the child seven days . . . "The inside is that she wanted to get rid of the kid with the tot's grandmother . . . The thing that gave the nurse cold feet was the murder nearby of those two children—by Haight."

Leon Henderson, the Man Who Rattled Your Gasoline, Etc., Is One of Washington's Hitchhikers as a result of the ration rules . . . The other ayem, the Administrator of the ration rules, is also a hitchhiker by the motorist . . . "This darn old gas rationing," grumbled the driver, "is just a waste of time. I've fixed it so I get no gas. I need it and nobody is going to stop me from getting gas, either!" . . . "I'm going to stop you," said Leon as he got out. . . . "Yeah?" was the parting shout. "You—and who else?"

The query by Mal Butt . . . Wanted to know if Kate Smith joined the WAVES would they call her a "Fidel" . . . The recollection of Ed Hurley —about Donald Day, war correspondent for Col. McCormick, who recently enlisted with the Finns. Day's dad was John Day, one of the leading horse writers . . . Alfred D. McKelvey, who is now working in an alphabetical agency . . . Seems that one division head (due to a shortage in his office) has been kept to keep someone else from getting her . . . She sat around for weeks with nothing to do, and finally to keep her out of the way from growing stale, went across the street to a court room and took down the proceedings . . . The chief clerk and spend the rest of the day transcribing her notes . . . Of the office head, nothing how very busy she was—gave her an assist.

Memos of the Congressional Limited:
Randolph Paul, FBI's tax brain, in the Maryland dining room—looking no harmless. The slow-moving cabs and cars, 22 miles per hour in the city. A \$25 fine for caught going over 33 in the suburbs . . . WAACs in their smarter looking Winter apparel . . . Washington at night—with almost no traffic and no lights . . . The hotel ruling: "Don't care how important you are—can't stay longer than 3 nights!" . . . The careful checkup on persons visiting the Navy Dept . . . "What do you wish to see him about?" "Navy business" . . . "Get your hat, that, the newly decorated Commander, who carries his decoration in his pocket . . . Said he wanted to see to get—into his might think he was peacocking."

Sign of Autumn: The outland grass in the ball park thinning out . . . The misery along the Bowers that imaginative writers mistake for mystery . . . The junk wagon which carries the legs of the "Scraps—Or Join the Heap!" . . . The Marines and their gals along Riverside Drive in the autumn . . . Leather neckers . . . The Waldorf's gold-branded doorman—looking more austere than the Generals who dwell there . . . The white-winged gulls to thump through a discarded issue of Vogue at 64th and Madison.

The Nation's steel mills are running out of scrap. They haven't enough on hand for even 30 days more. When this is gone they may have to shut down—for all new steel is 50% scrap. Get your scrap ready to turn in now!

WHOSE BOY WILL DIE BECAUSE YOU FAILED?

THINK about it as revenge—a way to get back at the scum who have attacked us. Osmehink about it as a little more protection for our fighting men—something you, yourself, can do to bring as many as possible home alive.

But think about it now—for the scrap in homes, farms and factories has got to be moving to stockpiles within the next few weeks or it may be too late!

Maybe you don't know what it means to have production fall off. Maybe you can't imagine how it feels to be hunkered down in a foxhole wishing for just one more clip of cartridges. Or to see the enemy rolling through your lines because you didn't have just a few more tanks.

Or maybe you don't care!

We think you do. We feel that our whole community is ready to rise up and bring in the scrap as soon as you get a chance. So you're going to get that chance!

Next week we're starting the biggest drive you've ever seen, to get in this precious material. And you're going to pitch in, too, because this situation is serious.

Start looking around your place for scrap today. If you've got a son in the service, do it for him. Do it for the neighbor's boy—for those fine young chaps you just passed, out on the street.

Above all do it for your country . . . and do it now!

Tony Is With Master For 'Last Round'
San Fernando, Calif., Oct. 10—Tony went to the eternal green pastures Monday.

Named as co-star with his owner, the late Tom Mix, in many dramatic episodes on the screen years ago, the old horse—he was nearly 40—was given a humane death . . . An injection in the heart brought a painless end, and relief from growing rheumatism and blindness. Tony had been retired for a long time, and when Mix was killed in an automobile accident two years ago, his will specified that his beloved "sonder horse" be well cared for by his rancher friend, Ivan Parker.

"I almost wonder if Tony didn't know what was coming early this morning," Parker said. "I took him from my ranch in a truck and he stepped right in. On the last ride to the Mix ranch he looked about as if he knew he was having his final view."

A taxidermist will stuff Tony's hide and Parker will exhibit him for Boy Scout benefits.

DO YOU WANT A BABY?
New Vitamin Combination Brings Hope to Childless Homes
Nothing equals a baby to bring complete joy and happiness into the home and the husband and wife together in a stronger bond of enduring love and mutual interest. Divine is rare is the number of couples that have children.

Unhappy wives, childless due to relievable functional weakness may now enjoy the desire and activity of "babies" without a wonderful creation—a normal, fully-developed, vigorous woman. A sensational new vitamin treatment specifically for women may be just the thing needed to bring the childless wife and her normal life into the home. It is, of course, absolutely harmless.

If you are childless due to functional weakness and lack normal vigor—if you wish to eliminate one of the great causes of unhappy marriages, by all means try Perfect for one week. To introduce this new vitamin combination to a million women quickly, the Perfect Company has opened a new office in Chicago, Illinois. It will send a full \$2.00 supply for only \$1.00—just your name and address. Perfect comes in a plain wrapper—directions very simple and no diet or exercise required.

America's automotive service men are playing an important part in the nation's war effort. It is their job to "serve the wheels that serve America."

The Automotive Mechanic of Yesterday Is the VICTORY SERVICE MAN of Today

Help him to help you

"SAVE THE WHEELS THAT SERVE AMERICA"

by getting a skilled service check-up regularly

Take the word of millions:

MORE PEOPLE GO TO CHEVROLET DEALERS FOR SERVICE

than to any other dealer organization

Just how important the automotive mechanic's work is to the nation will be clear to all who consider the following facts:

- Automobiles and trucks form the sole practicable means of transportation for war workers and war materials in many communities throughout America.
- In some sections, 78% to 100% of the workers drive by automobile to vital war plants.
- 2,314 U. S. cities, with a population of 12,324,000, depend on private cars for transportation.

54,000 communities depend entirely on motor vehicles.

- Six out of every ten farms use one car or more; 67% of farm car mileage is necessary driving.
- More than 65.2% of all war plants reporting in Michigan (a typical war production state) depend on trucks to haul their incoming and outgoing freight.
- Trucks hold nearly 100% of the milk supply of most large cities—and 58% of all livestock marketed in the U. S.
- Trucks are the sole transportation system serving our 54,000 communities not reached by railroads.

The automotive mechanic—the trained Chevrolet Victory Service Man—is the lifeguard of America's millions of cars and trucks. Help him to help you and America by getting a skilled service check-up at regular intervals.

Legion Head Calls For Old Records For Soldiers

W. G. Africa, commander of Floyd Post, American Legion, announces that old phonograph records still are wanted for the nation's fighting men. To date, the response for these records has been disappointingly slow.

Only 33 pounds of records have been received, and a shipment cannot be made until 100 pounds are contributed.

Any citizen wishing to contribute to this cause may leave their old records at the office of F. C. Hall at the Home Owners Land & Mortgage Company, Graham street.

SHIKE'S POKES

(The views expressed herein are those of the writer and not necessarily those of this newspaper.—Editor.)

We're taking steps this week, filing the necessary papers, etc., to have Mack Lewis' name changed to Joe Lewis. Yep—the champ clouter.

The Yanks lost the series because they were poor gamblers — they didn't play the "cards" right.

Since the speed limit of 35 miles an hour is being strictly enforced, why not take down all the steel around the curves—the cables, signs, etc.—and donate it to the government? They won't be needed on a 35-mile per hour basis and they can be replaced after they've spanned the dictionary. And another thing—what about that old Hite tippie, with all its steel, standing useless. The mine has been scrapped—why not the Hite's OUR SCRAP—LET'S HAVE YOUR SCRAP!

May (Mrs. Hewlett) and some other ladies were at Emery's one week for dinner—and May has been sick ever since. Must have eaten too much.

There'll be a sweet time in old Floyd this fall. The "lasses" mills are grinding on every branch.

Russell Crum, from Dwayne, formerly one of our miners, and now pitching for Uncle Sam—is now stationed down in Louisiana—wrestling alligators, I suppose. Keep pitchin', Russell!

Hunters Urged to Collect Scrap in the Field

Frankfort, Ky., Oct. 14.—In an announcement today, S. A. Wakenfield, director of the division of Game and Fish, urged hunters throughout Kentucky to collect all the scrap, such as rubber, tin, iron, steel or other materials that they may find in the fields or about their hunting or fishing camps.

Hunters should be all too familiar, Wakenfield stated, with the tremendous possibilities of such a cooperative war-time project, and they participate in it wholeheartedly, crowded though their automobiles may be this fall, they will be able to salvage an aggregate collection of scrap that will run into thousands of pounds.

Wakenfield pointed out that if each hunter brought back only one pound of scrap of one kind or another the aggregate collection, based on approximately 100,000 persons in the field, would amount to over 50 tons for Kentucky alone.

THERE was a certain clattered road leading somewhere between Avoca and Monticello in France, late in September, 1918. The night was dark and the rain was even wetter than usual. There was an artillery captain, getting his battery through this mud and mire, and he wasn't very gentle about getting the right of way.

"These guns go through," he barked, and you could see he wasn't particular about how they got through. Through the jumble and the angle and the rain and mud and darkness this battery moved on its way.

The artillery captain was a fellow by the name of Larry MacPhail. He was a rough and ready and a good soldier, and he has been the same ever since.

Now he is on his way back to his old military job and whether you like him or not, the army will. And that happens to be the main idea.

Then and Now

Larry MacPhail is no longer a kid. It has been almost 24 years since that night in France where refugees, stray army outfits and complete confusion almost blocked the road which MacPhail helped to open for his gun.

Since that time he has been the major factor in building up two pennant winners in the National League—first, the Chicago Cubs, then Brooklyn's Dodgers.

There have been many times when he looked to be hard and ruthless, but he has always been as someone has said, "MacPhail's mistakes, and he had made many, have always been about minor matters. He has yet to make a mistake that was important."

If the charge that he has been hard and ruthless is true, there could be no bigger boost when it comes to the matter of winning this war.

MacPhail and the Dodgers

MacPhail was talking about the Dodgers of the "war season opened," he said, "I thought we could win. We had done all we could to strengthen a team good enough to win the pennant the year before last. And another thing—when we were ten games in front you will remember, I told you that I was worried about what might happen."

The year before we were only thinking about winning the pennant. Through this summer we have been thinking only about meeting and beating the Yankees. It was easy enough to see our pitching was crumbling. It was also easy to see that we were no longer hitting. The box scores showed that better than any large hole of words could hope to do. No one could figure at that time that the Cardinals, a young hurling team, would suddenly move into a 900 per cent pace. But that's what they did.

"Then there came the injury to Pete Reiser, who suddenly changed from a .325 hitter to a .240 hitter. These are no alibis. The Cardinals had their share of hard luck last year."

"The main point is that we ran into a change in mental attitudes. Last season we were pennant-hungry and would strike home-hungry. By this season we'd gotten over. The Cardinals hadn't. And don't forget this Cardinal team is quite a ball club. I mean skill, speed, and spirit."

The Difference

"Mental attitude," MacPhail continued, "is one of the big factors in any game. I've heard Bobby Jones say it was at least 75 per cent of golf. Any football coach will tell you the big part it plays in his sport. Of course, skill is important, speed is important, and power is important. So is experience. But mental attitude is even more important."

"I recall late last summer when Whit Wyatt would walk into the clubhouse before some hard game and say, 'Listen, you bums, give me one run today. That's all I need.' And when the pinch came, that's all what needed. This season you had the feeling that for many of our pitchers even three or four runs were hot quite enough."

About Football

Lou Little said some time ago that 1942 would be football's best off-ative season. Columbia's mandarin makes few bad guesses. It will take some remarkable defensive formations to keep the combined speed and power under check which most teams have to meet.

That Missouri backfield will be one of the best. It has speed, drive and experience, headed by one of the best in Steuber, a big fellow who can move.

NEXT to the NEWS

(In The Chattanooga Times, August 26, 1941)

DR. ELMER E. GABBARD, one of the most popular preachers Chattanooga has known during the last fifteen years, will oppose Congressman Andrew Jackson May, of the Seventh Kentucky district, in the November election. Dr. Gabbard has been nominated for Congress by the Republicans in that mountain district where, as a poor boy, he first saw the light of day and to which he returned, at the height of a brilliant ministerial career, to become president of Witherspoon College, which gives him a name to the poor boys and girls of the remote Kentucky mountains.

There's a lesson in politics for you—a Republican who is the most democratic of men, opposing a Democrat who, as chairman of the House Mil-

litarian Church of Knoxville. While here, he scored a notable achievement in building the Northside Sunday School to be the largest in the Tennessee spring with the exception of that at Maryville seat of Maryville College. While here he stood for tolerance, for charity, for civic advancement, and was one of the most eloquent speakers Chattanooga has known.

Suddenly he felt the call to go back to his remote mountains to stand as a shining example to the poor boys that here was one born as poor as the poorest of them, born in their own hills, educated at the little school near Buckhorn, Ky., which later became Witherspoon College. Automobile drivers rarely reach Buckhorn, but good words and good deeds travel far.

THE LOUISVILLE Courier-Journal, Democratic paper of the lowlands, had heard about Dr. Gabbard and when it was announced this week that he had been chosen by the Republicans to run against Chairman May, the Courier-Journal said: "Dr. Gabbard's personality and character probably will muster the full strength of the Republican party." The Courier-Journal adds: "Dr. Gabbard is not only mountain-born with a name as familiar as saddlebags and rhododendron in that region, but he is a scholar of eloquence and notable accomplishments."

THE SEVENTH Kentucky District, sometimes goes Democratic, sometimes Republican. It has been going Democratic since organized labor gained numbers in the coal mines up there, but if labor has the choice of Gabbard, Republican, or Andrew May, Democrat, there are surely many union men here in Chattanooga who remember Gabbard's work and who will pass word up to the mountains that Gabbard is the man of the hour.

Dr. Gabbard is the type of man needed for these times. A special writer, in another article in The Courier-Journal, writes of this former Chattanooga:

"The entry of Dr. Gabbard into political circles brings a man of great personal charm, sound ideals and sincere purpose into the active ranks of the Republican party. His oratorical power is great because he simply blazes with the fires of zeal, and his audience is moved to action by hearing him. Today, as never before, to this generation of voters, there is need for men who can rouse the people to action against those elected officers who have not lived up to the ideals of public service."

(Pal. adv.)

DR. ELMER E. GABBARD

tary Affairs committee, was labeled by Life magazine this week as "ruthless" and who, a few weeks ago, astonished Washington with his indiscreet claim that the war would be over soon because of certain "secrets" which he knew, but would not divulge.

DR. GABBARD came to the Northside Church in Chattanooga Jan. 1, 1930, and resigned late in 1935 to go back to his mountains. A graduate of Berea, he came here from the Fifth Avenue Pres-

What You Buy With WAR BONDS

Gas masks which came into use to warfare for the first time when the Germans used poison and mustard gas in World War I, are much improved today. Those used then, The Chemical Warfare Branch of the War Department issues these gas masks to every man in the service. We are taking no chances.

The type pictured here is the "lean" and "elephant nose" mask which costs about \$9.25 each. The headgear is transparent, made of material resembling cellophane and does not cloud over those who use them. The Chemical Warfare Branch of the War Department issues these gas masks to every man in the service. Buy them at your bank at postoffice, regularly.

Floyd County Citizen Challenges Liquor Dealers To Stick to Facts

Fifteen Billion Dollars to Get One Billion

Fifteen Billion Dollars is what the public paid last year for liquor and its damage in order to get that one billion we call liquor revenue. Five billion dollars for liquor drank and ten billion dollars the taxpayer paid out to take care of the Crime, Pauperism and Misery, the Crime, in numerous decisions, the Supreme Court has declared. LIQUOR IS THE GREATEST CAUSE HOW MANY MORE TAXES AND GUNS THIS FIFTEEN BILLION WOULD BUY THAN THE ONE BILLION THAT THE LIQUOR TRAFFIC PAYS THE GOVERNMENT AS HUSH MONEY—IS TO IT!

Wets Reflect On Our Government

If our government can keep 120 million people from buying such valuable tires, tell them how much sugar they can buy, call four million men from their homes to the service of the country, who are those fellows, who say the government cannot stop a few thousand bootleggers?

Who Will Buy Liquor Outside of the County When Floyd Goes Dry?

The old drinks the Tin Horn sports and the bums of the county. It will be good tidings to Floyd county. Yes, lets see the voters nearby counties a chance to arrest their old socks and pay their board bill. Floyd county's police and taxpayers will get a well-earned rest. Beers, Whiskis and Wines Go Out Together when Floyd Votes DRY. Beer Joints are leading our youth to be drunkards.

President Roosevelt is Against the Saloon

Read his statement in a letter to Senator Wagner as recorded in Biography of Franklin D. Roosevelt written by Ernest K. Lindley in 1932 and published by the Blue Ribbon Books. See on Page 273.

In His Proclamation, December 5, 1933, He Said This:

"I am positive in saying that there must be some definite assurance that by the possibility at any time of any party can the old saloon come back."

President Roosevelt Believes in Local Option

In the same letter to Senator Wagner quoted above, the President urged preserving Federal Assistance in enforcement for the dry states and the extension of the home rule principle so that communities in wet states could be dry by local option.

IF YOUR NOSE 'CLOSES UP' TONIGHT

Here's mighty good news... If your nose closes up tonight, and makes breathing difficult, put 3-purse Vicks Vapo-Rol up each nostril. Vapo-Rol does 3 important things: (1) it irritates swollen membranes, (2) it relieves nasal congestion, (3) it brings more freedom breathing easier, it helps you sleep. And remember, it helps prevent a cold.

... but his ticket reads, "U. S. A. TO BERLIN"

Today, the railroads form a steel highway to that freedom for which most of the world is waiting. Today, more and more travelers are in uniform... going to keep a date that will decide the destiny of all of us—and of our children's children. Yes, that fellow in khaki or blue has the right of way on American railroads.

YOU CAN HELP YOUR COUNTRY—AND YOURSELF

Chesapeake and Ohio, like other railroads, wants to give civilian travelers the best possible service, too. You'll help us serve you—and America—if you'll do these simple things: Plan mid-week rather than week-end trips. Make your plans and reservations well in advance. Accept available accommodations, even if they're not what you want. Cancel reservations promptly if you can't use them. Buy round-trip tickets. Travel with little baggage. Arrive at stations before train time. In this way you'll get better service and help your country win the war.

Following the directives of President Roosevelt, Price Administrator Henderson last week suspended agency Price Ceilings over virtually all food items.

OLD 6 YEARS OLD ANCASTER

ASK THE MAN WHO DRINKS IT. HANDMADE WHITE FINE OLD SCOTCH WHISKY.

By these moves, he increased from about 60 per cent to a full 90 per cent, OPA's control over the average family's food budget.

The 80-day emergency food price ceilings, which became effective Monday, Oct. 5, froze prices at the highest levels they reached during the five-day period from Sept. 28 through Oct. 2.

The only important food stuffs now free from price control are fresh fruits and vegetables (except potatoes, dry onions and citrus fruits), fresh fish, and peanuts—all items of a more or less seasonal character.

The administrator made it plain that the emergency price levels are not necessarily those which will be carried into the permanent regulation.

"We are not satisfied with the prices generally prevailing in the five days between Sept. 28 through October 2 on several important food items," Mr. Henderson said. "Prices of some uncontrolled foods have been running wild. We have now curbed them. We shall, therefore, look into the matter of setting some of them back to a more normal relationship to the rest of the food field."

However, Mr. Henderson warned that some moderate price increases will be necessary in certain limited food groups in the very near future. These will result from issuance within a few days of regulations designed to relieve the price "squeeze" on those food wholesalers and retailers who have been unable to transact business under their present March ceiling levels. The food items involved in these impending increases represent about 13 per cent of a typical grocery store's sales.

These adjustments, the administrator disclosed, will be embodied in three types of regulations—one giving wholesalers and retailers an alternative pricing formula on 11 groups of food products; one permitting specific increases on new peak-canned fruits and related items; and another covering a small number of highly seasonal items, such as apple cider and maple syrup.

The 4,000,000 American boys and girls, who must ride school buses, have been promised they will continue to get to their classes this

winter. But the ODT warns that stops must be reduced and other savings made.

Wood soles and lasts used in shoe manufacture have been placed under a price ceiling.

Fifteen pounds of steel will be the maximum allowed for a bedstead bed spring.

The only types of footwear rationed are men's rubber boots and rubber work shoes.

Changes in the form of the tire rationing certificate have simplified its issuance and use.

Consumers who exchange used tubes for new metal ones at their grocery or drug stores should be sure the turned-in tube is made of metal. Plastic and other types of tubes are not acceptable in trading for metal tubes.

Sugar users have been cautioned against letting their purchase certificates lapse.

The facilities of the 3622 county war boards of the U. S. Department of Agriculture will be used to assist farm truck operators in filling out certificates of war-time necessity under ODT rules.

Farmers Conserve Time and Labor

Kentucky farmers are learning tricks to save time and labor, during this critical period of man-power shortage, according to the State College of Agriculture and Home Economics.

One man found that he could fill his 25-foot tobacco barn with one extra hand and a device quickly made on the farm. He nailed three light boards together to make a triangle, the longest of two 10-inch long pegs to two corners. To the third corner he tied a 65-foot rope, running it over a pulley fastened to a board across the top tier. From five to seven sticks of tobacco were placed on the device by the man in the wagon who elevated the tobacco to the man in the top of the barn.

Another farmer will save time and labor by shucking his shocked corn into tobacco baskets, which hold two and one-half to three bushels. Bang boards on a wagon box will permit another farmer to husk from a shock to wagon.

A 12-foot hay frame made of chaff for feeding ear corn to the hogs on another farm. The frame, with the ends boxed in, with scrap lumber was fastened at an angle to the side of a building. The lower edge of the frame was six inches from the feeding platform and two feet from the building.

A manure spreader, loaded with ear corn, provided a quick way for a farmer to spread corn on sod land to his hogs.

American food is getting to Russia in greater quantities. August shipments of grains and cereals brought the delivered total to 137 million pounds.

Farmers Conserve Time and Labor

Kentucky farmers are learning tricks to save time and labor, during this critical period of man-power shortage, according to the State College of Agriculture and Home Economics.

One man found that he could fill his 25-foot tobacco barn with one extra hand and a device quickly made on the farm. He nailed three light boards together to make a triangle, the longest of two 10-inch long pegs to two corners. To the third corner he tied a 65-foot rope, running it over a pulley fastened to a board across the top tier. From five to seven sticks of tobacco were placed on the device by the man in the wagon who elevated the tobacco to the man in the top of the barn.

Another farmer will save time and labor by shucking his shocked corn into tobacco baskets, which hold two and one-half to three bushels. Bang boards on a wagon box will permit another farmer to husk from a shock to wagon.

THE WAR CONTRACT OR WHEEL AM I?

Mr. Wimple wanted to find out about a pin. It was a little pin required as part of a gun mechanism. The government needed this type of pin in large quantities in a hurry. Wimple, who made pins, had been told. He had received a letter from the PDQ or something urging him to convert his shop for an all-out production of pins. He replied, asking about a few particulars and got back a letter from the PDQ saying that the BBA now had charge of the matter.

Mr. Wimple decided he had better go to Washington and get things straightened out. He went to the building which housed the BBA to see the chairman, a Mr. Zootus. He was told to wait in an anteroom.

"Not better," a clerk came out and told him that Mr. Zootus had been assigned to another bureau and that he would have to see a Mr. Bligh. Mr. Bligh was in the office of the PQX or something 15 blocks south, "take your next left."

Mr. Wimple couldn't get a taxi so he walked. At the office of the PQX he was told that Mr. Bligh was in a conference with officials of the HQA about a VCB matter. But Mr. Gimpy was present.

"That's your business," said the attendant.

"I stated it three hours ago," said Mr. Wimple.

"Oh," said the attendant, "just a minute, please."

He disappeared and came back presently. "Mr. Glimpy took a plane to Oshkosh about an hour ago," he explained. "He left word he couldn't discuss that matter today."

"Not better," corrected Wimple. "Bligh!"

"Oh, pins!" exclaimed the attendant. "Mr. Glimpy is in the office of Mr. Toole over at the DPBA. That's in the Etifadous Building."

He finally reached the Etifadous Building and found the DPBA headquarters. Mr. Toole was in. What did he wish to see him about? About pins. Take a chair, please! After a while Mr. Toole sent out word that he was prepared to discuss those brass washers yet.

"Pins," groaned Mr. Wimple. "not washers."

"Pins," exclaimed Mr. Wimple. "I showed a packet of letters to Mrs. John West in honor of her niece, Mrs. Roy Stacey, daughter of Mr. and Mrs. F. L. Tunstall, of Hazard. TODAY'S ROADS

Prepared By Eastern Kentucky Automobile Club

IT MUST BE DONE

The importance of private passenger cars in the war effort is recognized generally by now. It is imperative that tires be conserved in order to assure that maximum service is obtained from equipment now in use.

Since this is war, private automobile transportation of workers is a life-and-death matter. If a manufacturer has all the materials, he needs and his workers cannot get to and from the plant for the lack of transportation, these supplies are useless. And soldiers, sailors, and airmen are useless without supplies!

It is increasingly vital that workers be able to reach war production plants and that essential civilian transportation be maintained. Eliminate nonessential driving.

The One Issue Facing The Voters on November 3

These War Days, there is but one issue, and one issue only, before the voters at the coming November Congressional elections in every nook and corner of the United States.

That issue is—What is the candidate's record as an American, without regard to politics? What has he done? What will he do? Who can best serve his country when service was never more needed?

There is no other issue worthy of patriotic American citizens. Here in the Seventh Congressional district this paramount issue faces us—Who can best serve the nation and the district during the two years immediately ahead?

If we ourselves are good soldiers on the "Home Front," willing to fight this war out to the bitter end and accept and follow the President of the United States as our Commander-in-Chief, then we can consider no other man than Congressman A. J. May for the job of representing the Seventh district in Congress and continuing to give the President the loyalty and service he has so unflinchingly given on every war measure facing the Congress.

Mr. May did not start a personal brand of patriotism AFTER the war started. He was on the job, long before. Can any patriotic American forget his burning anger when other Congressmen opposed the fortification of Guam, on the grounds that it might "step on the toes" of the Japanese?

And all the other grim pieces of legislation that became necessary to keep this the Land of the Free—there were others who bitterly inveighed against them, the Lend-Lease Act, the Arms Embargo appropriations for building airplanes and sending us to our allies, the repeal of the ban on arming ships, the Ship Seizure Bill and others. But Congressman May was not among those who wasted valuable time; he sprang into action. ON THESE AND EVERY OTHER WAR MEASURE MR. MAY'S SUPPORT OF PRESIDENT ROOSEVELT AND THE WAR EFFORT HAS BEEN 100 PER CENT.

As Chairman of the powerful Military Affairs Committee, Mr. May has not only been instrumental in handling in that committee important legislation necessary to bring the United States to full fighting strength. He has gone further and given his time and talents to the service of our fighting men and those they have left at home. He allows, for the dependents of our soldiers and sailors. He has been the OUTSTANDING CHAMPION of this kind of legislation. The following is a list of allowances sponsored by him:

Table of Monthly Allowances for various family sizes, ranging from \$50.00 for a single man to \$102.00 for a man with five children.

More than that—he introduced and sponsored on the floor of the House the bill raising the pay of soldiers. Almost single-handed, he fought down early attempts to draft young men in the 18-19-year group. Now, since President Roosevelt has called upon the nation for these young men to enter military service, Congressman May accepts the calm, far-seeing judgment of his Chief, and, like a good soldier, is ready to follow him in enacting this legislation. He is, however, at this very moment working as chairman of the Military Affairs committee to have written into that law a provision that no boy of this age group shall be taken into combat service without one full year of training.

Mr. May is not shirking his responsibility in this time of sacrifice. The Seventh Congressional district would not want a slacker or a coward representing it. Experienced, able, unafraid, Congressman May serves his country and his people. By serving him in Washington the people of this district have a Congressman higher in the councils of the national government than ever before in the history of the district. He occupies a position his opponent could not hope to attain, if elected, in many years.

His chairmanship of the Military Affairs Committee of the House of Representatives is not a mere honor to him. His honor belongs to the district where he was born, has lived and expects to die. These are matters every thinking voter will consider, regardless of politics. Patriotism is not measured by political yardsticks. Men and women whose interest in flag and country transcends self-interest and political prejudice will ponder that truth before voting, November 3. They will vote for Mr. May's return to Congress—SIMPLY BECAUSE THEY RECOGNIZE THE ISSUE AT STAKE AND WANT SERVICE FOR THEIR COUNTRY AND THEIR BOYS WHO ARE FIGHTING ITS BATTLES.

No man on earth, with the possible exception of Winston Churchill, is more cordially hated by that Unholy Three—Hitler, Mussolini and Hirohito—than Franklin D. Roosevelt. Congressman May has fought, IN EVERY INSTANCE, the Congressional battles President Roosevelt has asked him to fight in order to defeat these three. Then, can't you imagine the glee with which these enemies of humanity would greet the news of the defeat of A. J. May, Roosevelt's friend and supporter?

These facts are cited to show good Americans their duty at a time when ALL good Americans have one common enemy—the Axis. We should not forget the advice of the immortal Lincoln who, in the midst of the Civil War, reminded the people, "Don't swap horses in the middle of the stream." And we should remember these words of Speaker Champ Clark: "When the people of a district retire an experienced member who has valuable senior rights, for a new inexperienced member, they have made a grave mistake that requires long years to correct."

We respectfully submit these facts to the people of the Seventh district for consideration, and urge them to do their duty as clear-thinking, patriotic Americans, by re-electing A. J. May to Congress.

Blackcats at Jenkins Saturday, Renewing Gridiron Schedule. Prestonsburg's Black Cats are away from home Saturday, returning to the grid wars after last week-end's open date on the schedule. Originally scheduled to play Jenkins here Saturday, they go to Jenkins instead.

The Cats, though losers of two conference games, held both Fleming and Whitesburg to one-touchdown margins, and are due to win. Their prospects may have been dimmed, however, by the decision this week of three regulars to quit school. Several farmers in Ohio county are expecting to have at least 2,000 pounds of burley to the acre. Good quality and a high price tended to offset low yields of commercial tomatoes in Ohio county.
