**Cpl. Payne, of Martin, Arrives In Germany**

24 Armored Div., Germany—Cpl. Paul L. Payne, 20 whose wife, Eleanor, lives at Martin, Ky., recently arrived in Germany and is now a member of the 24 Armored Division.

Now undergoing rigorous training as part of the U. S. Seventh Army, the 24 Armored is maintaining the peak efficiency in thrust and mobility that earned its reputation of "Hell on Wheels" in World War II.

Corporal Payne is a tank crewman in the division's 47th Tank Battalion. He entered the Army in November, 1953, and completed basic training at Fort Knox, Ky.

**Castle Was Murdered, Not Drowned, Decided; Loren Hensley Is Held**

Arthur Pete Castle, whose body was found in the Big Sandy river in Johnson county last April 22 was murdered, not drowned, authorities decided this week.

Judson County Judge J. L. Radcliffe held Loren Hensley, 26-year-old Tazaka miner, money \$5,000 bond to answer to a motion of the next grand jury. Judge Radcliffe action followed an examining trial in which Hensley's wife testified her husband had threatened to kill Castle together about 9 p. m. the day Castle was killed. When her husband came home that night she testified he had blood on the trousers. The witness added that Hensley told her, "It's all over, according to Harrington."

**WOULD BIT CAN'T**

One of our correspondents writes: "I'd like to advertise for my hair, but I can't—my pride won't permit."

**AD TELLS A STORY**

The ads often have an interesting little story. For instance, this one from a newspaper trade publication we receive wherein the advertiser seeks to sell his man-wife-operated business.

**UNEXPERT OPINION**

We refer those interested in such matters to the latest edition of the "Fishing Report" which was published over a dam in Illinois. This is a fact recorded from actual observation. Which causes one to wonder if fish will escape over a dam which is kept there from year to year when the gates are opened wide as was the case on two occasions since last fall at Dewey.

We appreciate the efforts of the Department of Fish & Wildlife Resources to rid Dewey Lake of shad and to improve fishing conditions there and have a high personal regard for the young men who came here to do the work. But we cannot agree with them that the loss of game fish through opening of gates of the dam has been negligible.

**Memorial Trail Group To Resume Tree Planting**

Two hundred trees were received this week by the Winnie P. Johns Daughters Trail Association to plant in memory of the country's war-dead planting will get underway soon, it was said.

The memorial to the county's war-dead is sponsored by the John Graham Chapter of the Daughters of American Revolution and the Gold Star Mothers of the county. Planting, which was initiated last spring, was incomplete and several sections between East Point and Boldman alongside U. S. 23 remain to be set out. Efforts will be made to complete the job this year, it was said.

**FASTEST KNOWN PAIN RELIEF FOR ARTHRITIC, RHEUMATIC VICTIMS—NOW AVAILABLE**

Seven "Film-Coated" Ingredients Offer Positive Relief

The original, famous, having been of Arthritis and Rheumatism may soon be forgotten, thanks to the action of the new discovery named **AL-PAN-EX**.

**AL-PAN-EX** has been selected by a noted scientist as a world-known anesthetic, working with all these facts about this unique discovery:

1. It is a safe, non-toxic, non-addictive medicine.

2. It is composed of seven active ingredients including a special new ingredient which has been found to be more effective than **AL-PAN-EX**. It may mean a new era of medicine and pleasure to millions.

3. All for getting **AL-PAN-EX** today at any drug store, for the kind of relief you expect can't come to you! If your druggist is not in it, he will be glad to order it for you.

**FISHING REPORT**

The first good bass caught in Dewey Lake this year was Judge Bill's 4 1/2-pounder, caught Jugging Tuesday. The only way I can get in the picture is to add that the fish was caught on my night-travlers.

The lake, muddy from recent rains, is nearing 650 elevation. Bluegills of good size were being vapo-copied this week.

Hope it's a long Spring — don't quit!

Such abuse of the people's rights are obviously needed to fix systems, as elsewhere, with the aim of one clique gaining control or for the purpose of retaining a tight grip on the power already grasped. **The School People Redeem Themselves**

An amendment to Governor Chandler's reorganization bill has been passed by school people themselves, and the part they are playing in the reorganization of the county and state educational leaders. For this part of the legislation would set a step to gerrymandering of school districts.

In the past, county school superintendents and their school boards have, in certain cases, set themselves down and coolly, deliberately and with malice aforethought toward the opposition divided their respective counties into districts out of all proportion to population and the number of persons represented per board member. Such abuse of the people's rights are obviously needed to fix systems, as elsewhere, with the aim of one clique gaining control or for the purpose of retaining a tight grip on the power already grasped. The public, in all such cases, is thought of last.

## DISTRICT FAVORITES GAIN REGIONALS AT PIKEVILLE

Five repeaters from last year's 15th regional tournament at Pikeville, Ky., will be in the first round of the 16th regional tournament at Pikeville, Ky., on Saturday night. The repeaters are: Betsy Layne, Flat Gap and John's Creek in this season's regional which opens in Pikeville on Wednesday night.

All pre-tourney favorites came through district eliminations as expected at Pikeville. Prestonsburg, Morgan County and Wayland among their respective district winners.

**17th District**  
John Hill, Trivette's Pikeville Panthers topped their 10th district tourney under Trivette's 1955-56 reign at the Pike county school.

The Junior-lead Panthers grabbed the title by eliminating Belle in the opening round 87-61, high scoring Fred Creek by 60 to 61 in the semi-finals and John's Creek 75-54 in the final.

**18th District**  
Wayland's familiar coach, Wagon, bred to their second consecutive county title with no contest closer than 10 points "Copper-John" Campbell's crew, finished a good Wheelwright 10-24.5 in the

first round, then overran Martin 100-68 in the semi-finals. Saturday night, Wayland led the way in defeating Betsy Layne 84-74, although playing without forward Billy Patis, who missed the first round because of a death in the family.

Boys' district moved to the first round at Prestonsburg, 17-55 in the first outing and tripped McDowell 73-64 in the hectic semi-finals.

**5th District**  
Pantsville Tigers sailed through the tournament with ease and the only close fray was in the final in which they tripped a ratty Flat Gap by 86-82.

Pantsville, now 27-1, whipped Van Lear 48-20 in the first game and moved on to the second game, 90-43-89 in the second game.

**6th District**  
In the five-team district, Merl Nicks's Morgan county Blue Devils won their second in a row by upsetting old Sassy Hook, 65-51. It then first came the Blue Devils dropped, Old Springs, 62-58, and Campbell's crew, finished a good Wheelwright 10-24.5 in the

### ALL-OPPOSITE TEAM NOT CONSISTENT

All-opposite or all-district teams are fine things if the best all-around players are selected. It is a well-deserved honor to any boy who is worthy of the selection, but when the coaches begin to maneuver unethically to see that his player is named to the team, whether he is serving or not—it's time to drop the selections.

In Floyd county this season, the all-district or county team was to have been selected by the coaches and to be composed of the ten boys they thought were the best throughout the entire season. These selections were to have been given to the tournament manager before the start of the annual district tournament and no coach was to vote for any of his own players.

This method of selection is undoubtedly fair if the coaches would vote their feelings on merits of players, rather than on petty jealousies and other minute happenings. It is common knowledge that some of the county coaches got together on the voting to make sure that members of their own teams make the selection, while some of the county's better and more deserving players are left off.

No doubt, some of the players selected deserved the honor, but three named had no business on the team and the trading coaches in question do not realize this.

It's an odd thing, for instance, that Martin's fine senior guard, Delmar Thompson, was left off the team of course, had he been named one of the less-deserving player would have been left out.

Thompson's record speaks for itself. He played all season long, his best performance in winning 20 games, fourth highest in Floyd county.

He scored 866 points in 24 games for a 23.1 per game average. Only Kelly Coleman and Lowell Hughes scored more. We rate Thompson as one of the top five players in Floyd county, and feel that he was not selected because of jealousy on the part of some of the county's better who are trusted with the job of training youth for citizens of tomorrow, let their feelings for some kind of a deserving honor.

Another unusual thing is that Wayland was far above every other team in Floyd county, but every other team in Floyd county, was named to the team. It would be hard to ask the coaches, were they named and named, ever considered? It appears strange that the two runner-up teams would place two players each on the "all team" while the winning team has only one member selected. Evidently the county coaches feel that Coleman and Coleman alone best them while the rest of the Wayland team watched.

After watching some 50 games this season we list these five players as the best all-around players in Floyd county:

Kelly Coleman, Wayland.  
Lowell Hughes, Prestonsburg.  
Chet Curry, Wheelwright.  
Edgar Rister, Garrett.  
Delmar Thompson, Martin.

## THEY'LL THINK YOU PAID \$1,000 MORE when you drive the year-ahead car!

The only car with which you can compare a Chrysler Windsor V-8 are the other luxury cars... because that's what the Chrysler Windsor V-8 is. But you can own this car for the cost of a medium-priced car! And at this price, it simply defies comparison. Take the way it handles in city traffic. Something quite wonderful happens. Instead of feeling tense, you're utterly relaxed—thanks to Chrysler's full-time Power Steering System and a host of other brand new Chrysler exclusives. You're handling a big, powerful car that responds like a mind reader. It does the work for you. Your Chrysler is beautifully balanced between the forward thrust of its mighty airplane-type engine and the most powerful brakes in the industry. This car flows! Yet, if you can afford any car in the medium-priced field, you can afford to step up to a Chrysler Windsor V-8. Compare its year-ahead new car features with the other leading cars in its price class. We think you'll agree that it looks and acts like a car that costs \$1,000 more than it does!

### John Campbell when a team wins as many as you have in a tough regular season, I know and you know you have a tough job ahead of you in the regular tournament when you have a team like Pitkiville in front of you," Greiser added.

He stressed the importance of defense and attitude, saying that a boy who had a reputation as a school scoundrel became a scholar of repute through a change in his attitude and desire to learn.

—Basketball as a competitive game characterized the very things that make America a great country and our state of Kentucky a wonderful place to live in," he said. He urged the boys to think about a college education, adding that the University of Kentucky is interested in young people who have a sincere desire for an education. He mentioned several plans by which students can attend college on scholarships.

He pointed out that people are interested in what you can do after basketball days are over. The speaker stressed the importance of having a set of values, telling the boys that as they grow up, they will appreciate more and more their accomplishments of this year as they gain better perspective.

Coach "Copper" John Campbell commended several members of the team for their outstanding play during the district tournament. He introduced squad members Curtis Ray Stone, Bob Bentley, James V. Hall, Bill Politz, Melvin Robinson, Jackie Greenhouse, Jack Thornberry, and Kelly Coleman to the audience. Simon Land and Billy Ray Combs were unable to attend.

The Lackey-Garrett-Wayland Ladies Club prepared the food for the banquet.

### Mrs. Artie E. Prater, Is Hit Attack Victim At Cliff Home, Tuesday

Mrs. Artie England Prater, 81 years old, died Tuesday morning at her home at Cliff. A heart attack was given as the immediate cause of death.

Mrs. Prater was a daughter of Mrs. Ernie and Mrs. England. She was first married to Alex Prater, after whose death in 1942 she was married to Daves Prater, who survives. She was a member of the United Baptist church.

Besides her husband, she is survived by a daughter, Mrs. Goble Puckett, of Lancer, and the following sons: James Prater, Portsmouth, O.; Dennis Prater, of Flatwoods; Amos Prater, McGuffey, O.; Wayne Prater, of Bonanza; and Homer Prater, of West Prestonsburg. A half-sister, Mrs. Dollie Allen, also survives.

Funeral rites were conducted Wednesday from the home, the Rev. Millard Blanton officiating. Burial was made today (Thursday), in the Prater cemetery on Abbott Creek under the direction of Carter & Callihan Funeral Home.

### For 11 years he traveled throughout the United States as a sales manager for Joy Manufacturing Company. During this period he was located in Pitkiville from 1944 through 1951, and in Denver, Colo., where he was affiliated with Schloss & Schubert Company, a sales company handling distribution of Joy Link belts and Westinghouse equipment for coal mines. Prior to being assigned to Denver, he spent the year of 1941 in Great Britain and Scotland working for the Ministry of Fuel and Power and mechanizing the coal mines in those areas.

After leaving the nine equipment firm, he accepted the position of production engineer with Clinchfield Coal Company. He was then transferred by Clinchfield to the job of assistant superintendent of its Moss mine in Virginia, at that time the second largest coal mine in the world. He spent two years with Clinchfield and was then transferred to Lillybrook Coal Company at Beckley, W. Va. as general manager of mines, in which capacity he is now employed.

Mr. Dahlin is married and the father of three sons and one daughter. He and his wife Ruth Jane Dahlin will move to David at the end of the current term.

Mr. Spote, who is being transferred, has been general superintendent at David since May 1947. During his stay here he has been in the Prestonsburg Kiwanis Club and served as president of that organization during the year 1953. He is a member of the Big Sandy-Kirkham Coal Mining Institute and was president of the institute in 1955.

### Clude Parker, Crum, about 23, Danion's brother-in-law and also of Holston, and the Hughes, about 25, were named in false-petition and felony indictments filed Monday in the federal court here.

William Peterson has been fined in the same month. Both parties failed to appear.

The Commonwealth contends a body with no head, hands or feet—found in an isolated area of Johns Creek March 20, 1954, was that of Clements.

Clements, a former Tennessee oil worker, has not been seen since he walked out of the Pike county jail in May, 1943, while awaiting trial on a burglary charge. Thomas and Goodman, brothers, are awaiting trial on a charge that they aided him to escape.

The torso case recently was transferred to Fayette circuit court and then back to Pike county. County Attorney Robert Prater said it is unlikely any of the bodies will be identified this term of court. Danion's attorney, J. M. Burke, is serving as special judge in court because of the illness of Justice J. P. Kenner.

### James Aaron Mosley, one-day-old son of James and Verlie Moore Mosley, of Martin, died at home, Sunday afternoon. Funeral services were conducted at the home the next day. The Rev. Ed Mosley officiating. Burial was made in the Greenberry Hall cemetery at East McDowell under the direction of Hal Bros. Funeral Home.

Cadillac At Home... Among Strangers! You're going to get a wonderful thrill when you take the wheel of your first Cadillac and head out into the country—a long, long way from home. We're not just talking about the car's wonderful performance and its extraordinary riding and handling ease—satisfying and inspiring though these are bound to be. No, we're talking about something more. We're talking about the friendliness you're going to encounter—how you'll be driving among people who seem to know something about you, and who are ready to trust you with respect to you as if they had known you for a long, long time. This is true, of course, because Cadillac quality and goodness have made it the overwhelming preference of people of judgment and discrimination—and the whole world has come to know and understand this and to appreciate what it means. Yes, your best bet is forward when it rests on the throttle of a 1956 Cadillac. This great personal benefit is strictly a plus value when you take the title of the "car of cars." It comes in addition to the long-known Cadillac virtues: neatness, beauty and luxury and comfort, and safety and long life. Why not consider a Cadillac for your next car? It is a logical choice—not only for quality and goodness and prestige—but for economy of ownership and operation as well. We suggest that you come in soon and see for yourself. We'll be happy to give you a personal demonstration at the wheel... and to explain why this is such a wonderful time to make the move from every standpoint.

## Heartbreak and Frustration Found in Doctors' Office

By JACK WILD

An elderly man, sick and in need of prompt medical attention, sat in a doctor's outer office. He was weary, bone weary, for now it was late afternoon and he had been there since 11. All day the room had been crowded with patients waiting for the busy doctor. When, after seemingly endless hours, his turn came to see the specialist, the old fellow received skilled treatment that made his life a bit easier to bear—but he had had to wait half a day to get it.

In another doctor's reception room a young mother and her five-year-old daughter, waited. The youngster had heavy metal braces on her legs and a battered doll in her arms. She was a sweet-natured child with a friendly smile for the others, some sitting on chairs and some standing, who waited to see the doctor. She had been through this before and she didn't complain about the long wait, but at last she tugged on her mother's skirt. "Mommy, she whispereed, 'I'm so tired."

Little signs of heartbreak and frustration like these occur in Kentucky every day, and they serve to point up the critical shortage of doctors that exists in all likelihood Kentucky has some of the best doctors to be found anywhere, but at least four studies of the Commonwealth's medical problems show

that there simply are not enough of them.

The Kentucky Medical Foundation cites a 1953 report of the Legislative Research Commission to support the statement: "There is a definite state-wide shortage of physicians, allied medical personnel, and medical facilities and critical shortages in most rural and farm areas. Kentucky currently has a shortage of about 1400 doctors. The shortage in 1965 could reach 1500."

The answer, according to the foundation, is the establishment of a medical school at the University of Kentucky soon.

### Beverage Board Head Promises "No Favors"

Frankfort, Ky., March 7 (Sp)—Kentucky beverage laws will be equally and fairly enforced with no favoritism being shown, Alfred S. Portwood, chairman of the Alcoholic Beverage Control Board, declared today.

"My only instructions as to the manner of enforcement was to go by the book," Portwood said. "The new Commissioner said his field force had been instructed to report evidence of any law violation found and that any complaint will be dealt with solely on the basis of evidence offered at the trial of the case."

Reports had reached Portwood's ears that he had been asked to "go easy" in certain areas on certain types of law violations such as Sunday sales of whiskey, which is forbidden by law.

### Spillway Fish Loss At Artificial Lakes Serious, Study Shows

Carbondale, Ill. (UP)—Is the loss of fish over spillways of artificial lakes serious enough for fishing enthusiasts to worry about? Studies by Darrell E. Louder, Southern Illinois University graduate student show it may be. Louder spent a year checking two spillways near here.

His nets caught 9361 fish in one spillway, 50 per cent of them largemouth bass 8 to 12 inches long. At the other, adult shad made up 46 per cent of fish netted at the spillway and large-mouth bass of "kempy" size made up 11 per cent.

The rest were various species, with pan fish predominating. The losses result from overflow in heavy-rain periods. A possible remedy is wire screening on the tops of the dams.

Ten counties in the United States each produced more than 10,000,000 tons of coal in 1953.

### Employers Must Pay To Replenish Funds

Frankfort, Ky., March 7 (Sp)—Kentucky employers must pay one per cent of their payrolls from January through June of this year to replenish funds for jobless workers. The order of the Unemployment Compensation Commission is applicable to more than 1860 employers in the State.

Commissioner of Economic Security Vego E. Barnes, who is chairman of the Unemployment Compensation Commission by virtue of his office, said the added tax is made necessary because the pooled accounts of the Commission has had a low stage due to heavy unemployment payments during the last year. It would yield approximately \$7,000,000 by July 1.

**POWER FIRMS WILL EXPAND**

Parent Firm of Ky. Power Plans Record Expansion At \$700 Million Expense

The largest expansion in its 50-year history was announced today by the American Gas and Electric Company, parent organization of Kentucky Power Company.

The AGE System, which provides electric service to over 4,800,000 people in seven states, will spend \$700,000,000 for construction and installation of new facilities during the period 1955-1960.

The expansion will include the addition of 2,000 kilowatts of generating capacity to meet the ever-increasing demands of the system's 1,300,000 customers.

Philip Sporn, president of AGE said, "This program is designed to provide the extra area served by the American and Electric System with all the power that its consumption and industries can use to the same full extent it has always had available."

"We are looking forward with great confidence to the continued growth and expansion of our great-territory served by the AGE System. We are proud of our success in the past in increasing power supply as rapidly as customers and prospective customers could use it. The AGE System, however, has always been to do more than that, by planning ample supplies of power well in advance of need to stimulate expansion of use of electric energy throughout our territory. Our new program—larger than anything we have ever undertaken before—underscores in terms of concrete action our confidence in the potential growth of the region in which we operate."

"All of the studies that we have made indicate that, as a result of natural growth and of our continuing efforts in area development, the utilization of electric power on our system will increase four-fold over the next 20 years. This building program, therefore, is but the first step in expanding our facilities to meet that demand in that time."

The \$700,000,000 program will cause the AGE system's total generating capacity to 6,000,000 kw by 1960, more than double the system's capacity in 1952 and more than triple its 1948 capacity. A total of 1,700,000 kw of the expansion is already under construction or will be started within the next 45 days.

The phase will be completed in 1956-58. Other development, the details of which are as yet unannounced, will be commenced by the middle of 1956 and completed in 1959-60. The new 2,600,000 kw program, Mr. Sporn observed, comes on top of a previous 10-year construction program just ended, which involved capital expenditures of \$785,000,000 and added 2,245,000 kw of capacity.

**Prominent Coal Pioneer Dies at Hi Hat, Feb. 24; Burial Is Made in Ohio**

Francis Marion Addis, who for many years was a prominent figure in the Floyd county coal business, died Feb. 24 at the home of his daughter, Mrs. Wheeler R. Turner, of Hi Hat.

Mr. Addis was born June 2, 1873 in Lawrence county, Ohio. He married Elizabeth Justice, who died in 1946. They came to the Big Sandy valley in 1910 and he was a pioneer in development of the coal fields of the area. He was a member of the Van Lear Masonic Lodge, the Conviction Chapter, Scottish Rite, and the El Hasa Temple of the Shrine in Ashland. He was also a member of the Second Methodist Church of Ashland.

Two children of his five survivors are, Frances A. Turner, Hi Hat, and Elbert M. Addis, Ashland. There are five grandchildren and five great-grandchildren.

Services are held at the Methodist Church, Ashland, and interment was made in Ridgewood cemetery, Wellington, Ohio.

**RECORD P-T-A ATTENDANCE**

Two hundred fifty-three, the largest number to attend a meeting this year, filled the seats of the new grade school auditorium at the February meeting of the Wheelwright Parent-Teacher Association.

The three first grades under direction of Miss Rainey, Mrs. Reedy, and Mrs. Cook presented the program. Eighty little children, dressed in the stage which was used for the first time to present the program. (The stage was part of the general project undertaken by the P-T-A on the old gym.) The children, dressed as characters from story books and children's television programs, attended a Valentine party at Mother Goose's house.

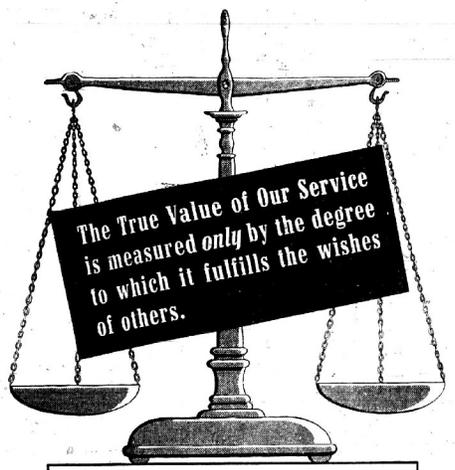

At the brief business session the minutes were read and the stage curtain for the high school auditorium at a cost of \$252. This was voted on and passed. Mr. Hill asked all teachers to be on the alert for children who might need attention about their hearing. Teachers should give the information to the Kiwanis committee for underprivileged children whose chairman is Dr. Russell Hill. The Beaver Valley Kiwanis will buy hearing aids for two children selected by this committee. Mr. Hill also asked that a P-T-A member or executive be selected to present an address on the subject, "What an Active P-T-A Means to a School and Community," to be given on a radio program in the near future.

Mrs. Cook and Mrs. Reedy won the prize for the most parents attending the meeting.

## Conservation Program Outlined by Official

Frankfort, Ky., March 7 (Sp.)—Outline of a broad conservation program endorsed by the administration of Gov. A. B. Chandler was presented to Kentucky farm newsmen by Conservation Commissioner Taben P. Jackson at a luncheon here recently. Addressing members of the Kentucky Farm Press and Radio Association, Jackson emphasized that promotion of small water-sheds and forestry will be prominent features of his department's work during the next four years.

Guests of the Conservation Department at the luncheon were created by Governor Chandler, Lt. Gov. Harry Lee Waterfield and Commissioner of Agriculture, Ben J. Bader.

Gov. Chandler called for the farm editors to closely inspect the record of the regular session of the legislature, declaring, "I think you will find that the farmers have fared as well or better than under any other legislature."

"Development of a small water-shed program and replanting and conserving Kentucky's forests is a must with this administration," Jackson explained, adding, "Benefits from such a program are endless and irrevocable."

Phases of the proposed conservation program which Jackson stressed included damming of small water-shed project included damming of primary and secondary streams

## Regional Music Festival Scheduled at Pikeville On the College Campus

Pikeville, Ky., Mar. 6 (Sp.)—The Pikeville regional music festival, which annually draws more than 1,000 high-school students, will be held April 5-7 on the campus of Pikeville College.

Students already are entered from 14 high schools in six Eastern Kentucky counties, including Prestonsburg, McDowell, Martin, Maytown and Wheelwright high schools. Dr. A. A. Page, college president and festival manager, said the entries will be qualified for the vocal and piano sections of the State Music Festival April 27 and 28, and the instrumental section May 11 and 12.

Buildings "state" entries, which are now closed, further entries for local participation will be received until March 19. Dr. Page said. The "local" entries will receive the criticisms and suggestions of the festival judges, but will be ineligible for the state contests.

The 279 registrations in different events already carded are headed by 36 piano solos. Numerous vocal and instrumental solos and small groups, 9 high-school bands and 11 choruses also are scheduled.

Judges to critique performances and select state-contest participants include: for choral and vocal events, James Van Patten, head of the Eastern Kentucky State College Music Department; Gomer C. Floyd, of the Morehead State College music faculty; for woodwind solos and ensembles, and two University of Kentucky music instructors. The University faculty members are J. William Worrell, who will critique bands and instrumental ensembles, and Ford Montgomery, judge of piano events.

## Burial Permit 'Must', County Registrar Says

A burial permit is necessary before a funeral can be held, M. V. Clark, registrar of births and deaths for the Floyd county Health Department, said this week.

Mr. Clark said that a funeral director files a death certificate to obtain the burial permit from the local registrar. A burial may not legally take place until a burial permit is issued, and if a funeral director is not available the family is responsible for obtaining the permit.

Certified copies of death certificates are often necessary, Clark emphasized. A death certificate is used to prove the fact of death for life insurance claims or for settlement of estates. Registration of a death helps to prove facts about the deceased, for circumstances, time and date of death; for age, sex and color; or for means of husband or wife and parents. Death certificates furnish official statistics which life insurance companies use to establish premium rates and which health departments use to plan future public health programs. Estimates of population, made in the years between regular census taking, are derived from birth and death certificates.

Upon application and payment of a \$1.00 fee, a certified copy of a death certificate is available from the Kentucky State Department of Health, 609 South Third Street, Louisville 2, Kentucky. For further information, consult the Floyd County Health Department.

## Who's Afraid of a Snake?

Who's afraid? Who wouldn't be? In fact, many folks are scared of little garden snakes.

In fact, many folks are scared, period. They're afraid of snakes and H-bombs and other people and themselves and—well, just life in general.

What they need is somebody to comfort them in times of fear—somebody strong and true.

Who? The Answer Is God.

If you have fears, tell God about them. He will help you overcome them. Get to know God better, and you will see. Worship God in Church Every Week—At Home Every Day.

## The man who's thought of everything

His possessions reflect the degree to which the man has planned his life.

The comfort and happiness of his family reflect how well he has planned for them.

Good husband, devoted father, he's a man who thought even to the final detail... a burial insurance policy.

As soundly considered as all his investments, the burial policy he bought in one payment at age thirty has the face value of more than twice what he paid for it. All underwritten by the financial members of the Kentucky Land and Burial Association.

At an hour when his family will have grieved and he has uncharitably sound judgment, they will find he has already provided it.

He's a man who's thought of everything.

### KOREAN VETS LOSING RIGHTS

**By Delayed Applications  
For GI Insurance; Adams  
Explains Requirements**

Veterans of the Korean conflict post-  
poning application for GI insurance are losing  
valuable GI insurance rights be-  
cause they are filing applications for  
special five-year term policies  
four months after separation in-  
stead of within 120 days.

The law grants only 120 days in  
which to apply for this non-convertible  
term policy without medical  
examination, said Ray R. Adams,  
Manager of the Veterans Adminis-  
tration regional office at Louisville.

"One hundred and twenty days,"  
he explained, "can be, and usually is,  
less than four months. So, when  
Korean or post-Korean veterans  
counts on a four-month breakeven and  
this file his application one, two  
or three days late, he cannot be  
granted insurance under the law."

Not only must the application for  
the special five-year nonconvertible  
term policy be filed with VA within  
the 120-day period after separation,  
but the first premium also must be  
paid within the same period.

A longer period of time in which  
to apply is granted to Korean or  
post-Korean veterans who are found  
by VA to have service-connected  
disabilities. These veterans must ap-  
ply within one year from the date VA  
find their disabilities to be service-  
connected and they must pass a  
medical examination to show they  
are otherwise insurable except for  
their service-connected disabilities.

Moreover, the choice of three or  
more years aside for these dis-  
abled veterans. They may apply for  
a five-year term policy or for any  
of six permanent plans of insur-  
ance.

"Even the term policy for these  
disabled veterans is different," Mr.  
Adams said. "It is convertible  
within the term policy for which  
Korean and post-Korean veterans  
must apply within 120 days after  
separation, is nonconvertible. How-  
ever, 30 of these policies, whether  
convertible or nonconvertible, are  
nonparticipating—that is, no di-  
vidends may be paid on them to  
the insured."

Mr. Adams said any VA contact  
should be made to assist Korean  
and post-Korean veterans in apply-  
ing for the GI insurance to which  
they may be entitled.

Prestonsburg, Ky. issue, published  
in The Times, to the effect that  
a bill he introduced in the Sen-  
ate was to be for the sale of 300  
poker is incorrect.

"My bill was to give counties  
chairs which they could use  
for the sale of 300 poker, and  
the statute will find that it  
was not a bill stated in your

## ONE LESSON YOU CAN TEACH YOUR CHILDREN

Of course, readin', writin',  
and arithmetic are essential parts  
of learning—but one important  
lesson is the benefit of saving—  
and learning how to save!

Textbooks do not teach this! It's up to you to teach your children  
the value of thrift. Whether the goal in your children's lives is to be  
advanced education, a home of their own, capital for a business, or for other  
important reasons—let a savings account here, be the beginning of that im-  
portant saving lesson. Come in today and start their savings account here.
