SPEAKING OF AND FOR FLOYD COUNTY

THURSDAY, APRIL 20, 1967

This Town . . . That World

Note to Joe Creason: When you print my name as Normal, use the prefix, Ab.

I am reminded that the worst thing about sticking your neck out is that it's your head that's on the end of it.

WHY?

The forest's "prime evil" is not always fire. As witness the timbering "haul-roads" left, straight up-and-down the hills in the upper Dewey Lake section for the rains to cut deep gullies and rush mud and rock and whatever is in the way on into Dewey Lake, which had enough problems already. This, basically one of Kentucky's most beautiful impoundments, had trouble and to spare with all the railroading and mining in the headwaters of Johns Creek.

Why I mention such matters puzzles even me; especially so, since I have wasted a lot of paper and time and space already on the subject and have achieved exactly nothing.

STILL DESKBOUND

Well, Gov. Breathitt didn't arrange for me to help him out with Go Fishin' Week, and so here I sit and the bass, I hear, have gone to bed. Now, with my luck, they will have quit nesting and their young'uns will be married off before I get at 'em. (See Story No. 7, Page 4)

KAI NOT TO QUIT, HEAD OF FIRM SAYS

Dr. George P. Archer, president of Kentucky Appalachian Industries, Inc., said Monday that the company has no intention of closing its West Prestonsburg plant if District 50 succeeds in organizing its employees.

No statement was made by the union representative, but it was generally understood here that the National Labor Relations Board has been called on to conduct an election to sound the sentiment of workers.

At the same time the A. F. of L. Carpenters Local Union at Allen issued a statement to The Times and radio stations pointing out that it is not participating in the attempt to organize the KAI plant, that no authorization has been given for the use of the Allen local union hall for that purpose and will not be given in the future without the express permission of the international office, United Brotherhood of Carpenters and Joiners of America. MINISTERIAL GROUP FILES FOR HOUSING

\$2 MILLION HOUSING JOB IS PROPOSED

State Survey Shows City Needs 200 Homes; Group Applies for 150

The Prestonsburg Ministerial Association has filed an application for construction of 150 housing units here under the FHA-approved rent subsidy program which would involve the expenditure of an estimated \$2 million.

The action was taken by the ministerial group after a state-sponsored survey had shown that a "critical need" exists in Prestonsburg for 200 dwellings.

The homes, which would be of one, two and three bedrooms, will cost, it is estimated an average of \$14,000, including the cost of sites. These would not be built into a housing complex such as the Green Acres low-rent housing development here but would occupy sites in various parts of Prestonsburg, thus affording the homes individually. PCC BUDGET GETS BOOST

UK Trustees Vote Increase of \$30,335 For Next Year's Work

The University of Kentucky's board of trustees at its recent meeting voted the Prestonsburg Community College a \$30,335 increase for the 1967-'68 school year over the appropriation for the current term.

The total allocation for the college here for the next school year is \$345,889, as compared to \$315,554 for the current year. The figure does not include administrative costs at the Lexington office.

Also not included in the budget allocation is \$100,000 for library acquisitions. This fund will be shared by the several colleges in the community college system.

Major part of the Prestonsburg Community College budget is for personal services and the addition of faculty members to meet a growing enrollment.

The overall appropriation for the community college system for the coming year is \$3,570,175. For the current school year, which will end June 30, the appropriation was \$2,844,238.

The budget figures shown for Prestonsburg Community College do not include proposed expenditures for new construction.

His brother, Abel Tackett, Boca Raton, Fla., driver of the car in which the victim was a passenger, was seriously hurt. The accident took place at 4:15 p.m., and Tackett died at a Pikeville hospital about an hour later.

State Police said an auto driven by Ada Ratliff stopped on the highway, in front of the Tackett car, to make a left turn and that it was struck from the rear.

Others injured, none seriously, were the wives of the Tackett brothers, and Mrs. Ratliff. Brenda Carol Coleman, a passenger in the Ratliff car, was uninjured, it was reported.

The victim was a son of Hiram and Nannie Darnon Tackett. In addition to his widow, he is survived by four sons and a daughter, Luther Tackett, of Drift, Sid Tackett, Robinson Creek, Ward Tackett, Albion, Mich., Rutherford Tackett and Miss Nannie Tackett, both of Printer; one brother, Abel Tackett, Boca Raton, Fla., and one sister, Mrs. Artie Darnon, Robinson Creek, Pike County. END-MEASLES WORK SLATED NEXT WEEK

Dr. Russell L. Hall announced this week that the Floyd County Health Department will launch next Wednesday a three-day series of clinics which could stamp out measles as thoroughly as polio has been eliminated.

The clinics, at which measles vaccine will be administered to children, ages 1 to 12, will be held at 14 school centers, and at the health department building here. The vaccine, which would otherwise cost approximately \$15, will be administered as a free service by the health department.

Dr. Hall said that 15 million doses of the vaccine have been given to other children of school age and that it has been proved to be absolutely safe. The clinics scheduled in this county are a part of a widespread effort to stamp out measles, a childhood killer.

Two pre-school evening clinics for children, age 1-5, will be held next Thursday (April 27) at Martin high school and at the health department here from 7 to 8:30 p.m. The schedule for clinics

for other children follows: Pre-schoolers will also be given these at any of the school clinics.

Wednesday, April 26—Melvin school, 9 a.m. to 10:45 a.m.; Osborne school, Bypro, 9 a.m. to 10:45 a.m.; McDowell, 11:30 a.m. to 12:45 p.m.; Martin, 11:30 a.m. to 12:45 p.m.; Maytown, 1 to 2:30 p.m.; Garrett, 1 to 2:30 p.m.

Thursday, April 27 — John M. Stumbo school, at 9 a.m. to 10:45 a.m.; Harold, 9 a.m.; Betsy Layne, 10:45 a.m. to 1 p.m.; Allen, 10:45 a.m. to 1 p.m.

Friday, April 28—Prestonsburg elementary school and Clark elementary, both beginning at 9 a.m., and ending at noon.

Children who attend other schools should be taken to the center nearest them at the hours here listed, Dr. Hall said. He added that the injections will be 98% painless.

"If there is any doubt that a child has had what is commonly known as 'the bad measles,' it should be given the vaccine," the health doctor emphasized.

Three from County Are Honor Students At Eastern Ky. U.

Richmond, Ky., March 24 (Spl.)—Four hundred thirty-five students, of whom three are from Floyd county, have been named to the Dean's List of honor students for the fall semester at Eastern Kentucky University. Dr. Thomas F. Stovall, vice-president for academic affairs, has announced.

Among those receiving special recognition for scholastic achievement were 88 students who compiled perfect grade standings.

Each student named to the Dean's List will receive special citations from Dr. Robert R. Martin, Eastern president.

To receive Dean's List recognition a student must have achieved a minimum grade of 3.5 of a possible 4.0 while enrolled for 14 or more hours of classes.

Floyd county students named on the Dean's List were: Jo Ann Caudill, Manton; Dempit Gobie, Stanville; and Alan J. Hyden, Martin.

Lewer Forest Fires Reported In State In 3-Month Period

The number of forest fires in Kentucky, the first three months of this year, dropped 30% below the number in the same period last year, according to the Kentucky Department of Natural Resources.

The Department's forest fire control chief, Maynard Marcum, says 812 fires were reported during the period this year, compared with 1,153 in the same time last year.

Marcum says the acreage burned in the periods compared is 10,685 this year and 19,693 last year.

"The unusual thing is that the average daily spread during the 90-days was generally higher this year," Marcum says.

The spread is a formula of humidity, wind velocity and length of time without rainfall that determines fire possibility. A spread of 10 is considered high.

Comparative average spreads for Western Kentucky were 18 this year to 11 in 1966; Central Kentucky, 11 to 12; and Eastern Kentucky, 11 to 10.

Marcum says personnel borrowed part-time from the Federal Neighborhood Youth Corps and the Work Experience and Training Program helped reduce size of fires this year.

The decrease in the number of fires, Marcum says, can be traced to a better educated public, increased law enforcement and better preventive efforts by forestry personnel.

These Articles Help Nobody

THE TIMES doesn't often let the stories published by many daily newspapers and national magazines about Eastern Kentucky get the local recognition that editorial comment gives these admixtures of truth and fiction.
Even now, although The Dayton (O.) Daily News has aroused the ire of many residents and former residents of this section with its recent articles on Floyd and Johnson counties, we are loath to comment. It is easy, of course, to "blast" the writers of the features and to condemn the newspaper for publishing what they wrote; we could dwell at length and with considerable bitterness on the fact that they picture, in word and photograph, only the worst side of mountain life, and we could with some degree of justice point out in you-too fashion that Dayton and every larger center has its cesspools of ignorance, immorality and slum-life that make the lowliest hovel in what they call Appalachia seem bright and wholesome.

THE CONDITIONS
The dog still comes to the office when conditions are right. Such conditions are: (a) a car to haul him in, or (b) a clear day, and neither too warm or too cold for the trip afoot, or (c) a lookout at home.

ME?
I thought everybody knew better, but, believe it or not, I have within as many weeks received three very gracious invitations to appear as a speaker. Those good people hadn't heard that, years ago, when I eschewed church attendance, one preacher made me a proposition: "If you'll come, you won't be asked to make a speech."

WRONG NUMBER
Speaking of speaking, there's the one which tells of the toastmaster introducing the guest-speaker in the most glowing terms, extolling every virtue and forgetting a whole parcel of weaknesses. Finally, the guest, with halo slightly awry, rose to his feet.

GARDEN TIPS

Spring-flowering shrubs need pruning immediately after flowering, for best results. If pruning is deferred until July, August or later, next year's flowers may be removed or the amount seriously reduced.
Flower buds for next year's flowers are initiated as early as late May for some spring-flowering shrubs. Others may not start to form until after mid-summer or until early fall, but early pruning immediately after flowering is necessary in either case for the best flower show next spring.

CLAY'S HISTORIC SYCAMORE USED IN PROFESSOR'S TABLE

The tree had to come down because traffic on Lexington's Richmond Road was increasing so rapidly. To the expressed regret of Ashland's neighbors, Henry Clay's great sycamore was felled.
But its usefulness continued, said Prof. David K. Blythe, chairman of the University of Kentucky Civil Engineering Department, who this week recalled the history of a piece of furniture in his campus office.

TIDBITS of KENTUCKY FOLKLORE
By GORDON WILSON, Ph. D.
I KNOW THAT'S WRONG
Many times, in my interviews with people about regional usage, I have asked for a term, such as the name for some farm animal or some bit of equipment; I have been given the regional word with an apology: "That is what I always said, but I know it is wrong." Too often people who ought to know better have taught us that what "comes naturally" is therefore wrong, in speech and everything else.

In naming things on the farm, for instance, we had as much right to our words as anybody else had to his. If we said "single tree" or he said "swing tree," so what? If we called a small pile of hay out in the field a "shock" or "pile" and he called it a "haycock" or "doodie," who is to say that we are wrong and he is right or vice versa? One way of talking, regionally, is as good as another. For ages the dictionaries have frowned on pronouncing the name of a common weed as "cuckebur"; Webster's Seventh Collegiate Dictionary has finally tumbled, and the good old "cuckebur" can be called that with no fear of our being back-country or wrong. And we do not have to say "pigsty" or "barnyard" or "stockbarn" if we grew up saying "pigpen" and "horselot" and "stables."

Even the so-called scholars have often shown themselves to be as folksy as the very people whom they felt they were foreordained to teach in the correct ways. No more folksy assumption ever existed than that all of us must talk alike, no matter whose language is taken as a standard. An earlier edition of the Webster's dictionary pronounced "ask" and similar words only as some but not all New Englanders pronounce them; a smallish figure after the word indicated a section in the introduction where it was stated that nearly everybody pronounced it with the same quality of the "a" as "a" in "at." That is, this very statement would indicate that nearly everybody is wrong. What is language anyway, something cut and dried or something alive and growing?

Of course, a dictionary that would give proper recognition of regional differences would be far too big for the average person to own, but at least small efforts are being made now by dictionary-makers to record our language as it is rather than as it ought to be, by the pattern in the speech of a limited number of careful speakers. Whether meaning or accent or sounds, a regional word has a right to its own place in our language.

If I were asked to state the one thing that seems to me, after a lifetime of teaching English, as the greatest disappointment to those who try to improve our language habits, I would say, cryptically, "prunes and prisms." Some one, long ago, used these words to indicate the affectation often used by people who were trying to impress strangers or people in authority. An affected British pronunciation, a stilted use of a word that is perfectly at home elsewhere but not here, an obvious straining for effect

of the most ordinary word or sentence—these are to me ridiculous, unnecessary, and enemies of good speech. We English teachers have heavy burdens to bear because we have so often broken up or tried to break up good language habits and replace them with others no better and far less natural. Even here we acted folksily, for we handed down the stilted and authoritative pronouncements of our textbooks as if they were always true and even righteously so.

NATURE TRAILS • By RUFUS M. REED

TWO OF MY BEST LOVED BIRDS
1.—The red-eyed vireo. The name of this bird comes from its red eyes and the Latin word, vireo, meaning, "I am a green (bird)." This bird is also called, "the preacher bird," as he preaches or "orates" all day long. I call him, "The Plato of the spring woods," as he makes me think of the celebrated Greek philosopher, Plato, delivering one of his famous dialogues on philosophy.
The red-eyed vireo returns to our region about the middle of April and if you will listen at the edge of the woods along about then, you'll hear him "orating." He delivers his speech with slow and deliberate phrases, with a slight pause between the phrases, as if to give their meaning time to sink in. He often turns from side to side, in the manner of an orator delivering his speech to a large outdoor audience. His phrases are clear, loud and musical. He "speaks" the phrase about forty times per minute, or about 2,400 times each hour. During the course of a long summer day, this bird speaks his lines as many as 20,000 times. This puts him away out front as the most persistent vocalist in all the bird kingdom.
The red-eyed vireo is a gentle, sleek, handsome bird, with a white breast, and olive-green back and wings, and his red eye is bordered with a conspicuous white stripe, which in turn is bordered with a black stripe. He wears a mossy-gray cap and his wings have no bars or markings.
The red-eyed vireo is a valuable protector of our forests, as his favorite food consists of span worms, leaf-rollers, caterpillars of many kinds, and all the different moths and beetles that devour forest trees.
This bird is also called, "the hang-nest bird," as the nest is a pretty, compact structure hung like a small basket from

MY FELLOW EDUCATOR, LABORING MAN, AND CITIZENS OF FLOYD COUNTY

The National Education Association has urged its members to take part in partisan politics. As President-Elect of the Eastern Kentucky Education Association, the largest of the 11 educational districts in the Commonwealth, I have entered the RACE FOR RAILROAD COMMISSIONER. I would not have entered this race, but in 1963 you gave me the greatest compliment in my life when you allowed me to carry FLOYD COUNTY, and help me to carry the SEVENTH CONGRESSIONAL DISTRICT. But because this involves 44 COUNTIES, 3 CONGRESSIONAL DISTRICTS, I lost my first state-wide race. Now, since I am the only candidate from the Floyd County line to the OHIO RIVER in KENTON COUNTY, I feel the FLOYD COUNTY CITIZENS will give me the greatest plurality ever received by a candidate for RAILROAD COMMISSIONER.

- * If the laboring man working with the railroads, want the "FULL-CREW" law, I will see that this will be enacted.
- * I will never vote to discontinue any railroad facilities and services.
- * I will attend every MEETING AND HEARING, and represent the CITIZENS rather than just certain INDIVIDUALS.

SHEPHERD AWARDED MEDAL FOR HEROISM IN VIETNAM

Sgt. 1/C Forrest Shepherd, son of Mrs. Katy Shepherd, of Hueysville, and the late Wilbur Shepherd, has been awarded the Bronze Star with "V" for heroism in Vietnam.

The citation accompanying the decoration, issued by Col. M. W. Keddall, points out:

Sgt. Shepherd distinguished himself Feb. 28, 1967 while serving as chief of a firing battery in Battery C, 3rd Battalion, 34th Artillery, near Tan Hiep, Vietnam. When the Viet Cong launched a mortar attack on the battery, Sgt. Shepherd left the relative safety of his bunker to assist in restoring communications. This done, he remained in the battery area, moving from gun to gun, supervising the firing in a counter-mortar action and disregarding his exposure to shell fragments.

"Sgt. Shepherd's personal bravery and devotion to duty," the citation reads, "were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit and the U. S. Army."

Princess Announces Purchase of Assets Of Johnstown Mine

Officers of Princess Coals, Inc. and the Johnstown Coal and Coke Company have jointly announced that the Sewell Coal Company, a totally owned subsidiary of Princess Coals, Inc., will purchase the assets of the Johnstown No. 4 mine located near Nettie, West Virginia, on April 23.

The No. 4 mine has a common property line with the Sewell Coal Company and additional reserves will be assigned to it, thus adding materially to its life. Last year, the Sewell Coal Company produced approximately 1,115,000 tons and the No. 4 mine produced approximately 750,000 tons. The combined operation will in the future produce approximately two million tons per year. The Sewell seam coal is a high quality product and is used primarily for the making of coke for steel companies.

Princess Coals, Inc., with executive and sales offices in the West Virginia Life Building in Huntington, has three major operating divisions, each producing annually approximately one million tons of bituminous coal. These divisions consist of the Princess Elkhorn Division, a David, near Prestonsburg; the Powellton Division, with offices at Mallory, W. Va., and mines near Man, W. Va., and the Sewell Division, located halfway between Richwood and Summersville, West Virginia.

troubles that bring about a work-stoppage, we will stand a good chance to lose this work and there wouldn't be anything for our people to do."

Told that the union has filed charges against KAI, claiming that 10 employees were unlawfully discharged and that the company has been interfering with, restraining and coercing its employees in their right to organize, Dr. Archer vehemently denied the charges. He said the company has conducted itself at all times in accordance with the law and that it will continue to do so.

"I feel that our employees, when given the opportunity at the time of an election, will do what is best for themselves and their families and that they will vote 'no union,'" he added.

KAI has held recent layoffs because certain contracts were completed, but it is hoped that new work will be in the plant soon which will bring back to work those who were laid off, he said.

Dr. Howard Announces Rural Medical Fund Offering Two Loans

A new program designed to help fill the need for physicians in the field of public health in Kentucky has been announced by Dr. C. C. Howard, chairman of the board of trustees of the Rural Kentucky Medical Scholarship Fund.

Under the provisions of the plan, two annual loans of \$2,500 each will be provided to medical students who will agree to go into the Kentucky Public Health Service upon completion of their medical training. The provisions provide for a cancellation of one year's loan for each year of practice in this field. Thus, a medical student may borrow up to \$10,000 and have the entire amount forgiven.

Cancellation of loans is also available to medical students who will practice in a critical area approved by the fund.

it is explained. Nor would their occupancy be restricted to tenants of limited incomes.

The homes, as planned, will be built for families of incomes in the medium range and for the elderly.

The non-profit group, if the application is approved, would finance construction by means of a FHA loan which would be amortized over a period of 40 years. The benefits to tenants would accrue in this manner:

If, say, a three-bedroom unit were rented to a family at a rental of \$145 a month, and the wage-earner makes only \$100 a month. On that basis it might be calculated that the family could pay no more than \$25 a month rent—in which case, the federal agency would pay the \$120-a-month difference. (These figures are used only as an example of the workings of the program. In fact, the federal agency cannot pay more than 70% of the rent bill.)

The local sponsoring agency, if successful in its application, will be represented by a minister and one layman from each of the participating churches. The only personnel to be paid salaries or fees would be a manager, an attorney, an accountant and a maintenance worker.

The group met last week with a FHA representative and Monday at May Lodge with an architect and a representative of the Kentucky Chamber of Commerce. A decision on its application is expected Friday.

ALICE LLOYD ART FESTIVAL TO FEATURE DRAMA, POETRY; POET'S KIN TO TAKE PART

Pippa Passes, Ky.—The drama of Shakespeare and the poetry of Edna St. Vincent Millay will highlight Alice Lloyd College's fourth annual Fine Arts Festival, April 23-29.

Twice during the week-long emphasis of art, Norma Millay Ellis, of Steepletop, Maine, will give readings of her sister's poetry. Mrs. Ellis, who has earned recognition for her own talents as stage actress and singer, will be accompanied by her husband, actor-artist Charles Ellis.

The poet, who died in 1950, is best known for her "Renaissance" and for her volume THE HARPWEAVER, which won her a Pulitzer Prize.

Louisville's Carriage House Players will present four performances of Shakespeare, including "Julius Caesar," "Romeo and Juliet," "Twelfth Night," and "Hamlet." The Players are a repertory group specializing in Shakespeare and the classics for secondary school and college audiences. They are directed by C. Douglas Ramey, Louisville, and a native of Paintsville.

Performances on the College green are scheduled for 9:30 a.m. April 27, 23; 7:30 p.m. April 28 and 2 p.m. the 29th. The morning dates were arranged to allow high schools opportunity to make the performances available to their students.

Other features of the festival include a concert by the Louisville String Quartet, at 7 p.m. April 26. The quartet's program will be aimed especially at young listeners, explaining the characteristics of stringed instruments and illustrating why chamber music is one of the most highly developed of all musical styles. The quartet will feature Paul Kling and Peter McHugh, playing the violin; Virginia Schneider, viola; Grace Whitney, cello. William Piacitelli will assist on the contrabass.

The festival will close April 29 with a demonstration by the Berea College Country Dancers, under the direction of Ethel Capps, at 7 p.m. and a program of folk ballads and poetry by Lee Pennington, chairman of the English department at Southeast Kentucky Community College, at 8 p.m. Pennington has been published in several leading literary magazines.

WE DELIVER

HOW MANY WINTERS?

There's the snowy kind, of course.

Then there's Dogwood Winter . . . and Redbud . . . and Blackberry . . . and Elder Bloom . . . and . . .

But, really, we aren't too interested in how many "winters" there are. What matters is how many winters we last. And how many the homes we build withstand, providing us and our loved ones safe, comfortable, enduring shelter.

Our specialty is providing the materials which will make for you and yours an attractive, lasting home. See us before you build.

OH SAY, CAN YOU VOTE?

IF YOU CAN, MAY 23rd IS YOUR DAY

Your day to remove the 100 percenters, the Constitutional changers, and the Breathitt-Ward Administration that has caused industry to shun our state like a plague for four years.

It is your day to show all elected officials that you expect them to keep their promises, and show some consideration for the people who pay their salaries.

Yes, it is your day to return the affairs of Kentucky to the taxpayers and stop the additional 10% raises in taxes, and, after that, my goodness, they may REWARD us by doubling them again.

If they deceive you again—shame on you!

We urge you, for the sake of your children and grandchildren, and for the common sense of Kentucky, to use your day. You only have two (2) days every four years.

813 FATHERS TO GET JOBS

New Federal Projects To Take Up the Slack Caused by WE&T Cut

Most of the unemployed fathers cut from the work-experience and training program in 19 Eastern Kentucky counties recently will receive training under other federal projects. Gov. Edward T. Breathitt has announced. He said this after State Economic Security Commissioner C. Leslie Dawson received federal approval for training 813 persons in the counties. The new training plan, drawn up by the Economic Security Department and the State Board of Vocational Education, will provide skills-training for 513 persons and pre-vocational training for 300. For the 513 skilled training sessions, \$400,575 will be provided by the U. S. Department of Health, Education and Welfare to the Vocational Education Board and \$1,095,420 by the U. S. Department of Labor to the Economic Security Department for training allowances, transportation and subsistence payments. Funds for the 300 pre-vocational training trainees will amount to \$32,775 for instruction and \$179,100 for training allowances, transportation and subsistence payments. Dawson gave this breakdown on occupational training number of trainees and maximum number of weeks of the course: Machine operator, 72 persons, 39 weeks, Floyd, Pike, Morgan and Harlan counties; auto mechanics, 90 trainees, 39 weeks, Floyd, Pike, Wolfe, Morgan and Perry counties; electrician, 72 trainees, 39 weeks, Floyd, Harlan, Knox and Breathitt counties; welder, 36 trainees, 33 weeks, Pike county; auto body repairman, 36 persons, 39 weeks, Letcher and Perry counties; springer (placing springs in furniture), 15 trainees, 16 weeks, Letcher county; building maintenance, 54 trainees, 24 weeks, 5,700 feet to a point in the Pike-Floyd county line; hence, with the Pike-Floyd county line, North 24° East 2,000 feet to the point of beginning. Within thirty (30) days after the publication of notice, any resident of the proposed district may file with the County Clerk of Floyd county, at the courthouse in Prestonsburg, Ky., objections to the action proposed to be taken by the Sandy Valley Water District, defining more accurately the description of the area comprising said district, or any other objection or remonstrance to any action heretofore taken, or any action proposed to be taken with respect to the establishment and creation of said water district. This matter is set for hearing on May 2, 1967, at the hour of 9 o'clock, a.m. in the courtroom of the Floyd County Court, at the courthouse in Prestonsburg, Kentucky. Dated: This 29 day of March, 1967. C. "OLLIE" ROBINSON, Clerk, Floyd County Court

I'm appealing to the people of Floyd county for your vote to elect me for Clive's last two years of office. Neither Clive nor I had anything to do with this new 100% assessment. On June 8, 1965, the Kentucky Court of Appeals ruled that, beginning Jan. 1, 1966, each property owner must list his taxable property at 100% value.

The Tax Commissioner is subject to a fine, if he or she fails or neglects to do his duty in listing properties at their 100% value.

Frankfort, Ky. — The 170th anniversary of the founding of Middletown will be observed April 29 in an all-day celebration in and around the Jefferson county community. COUNTIES ADJOINING FLOYD INFESTED BY CATERPILLARS; IMMEDIATE CONTROL URGED

The eastern tent caterpillar, a long-time bane of summer outdoor activities, is now in the hatching stage and the Kentucky Division of Forestry is urging landowners to begin immediately to control the pest. Heaviest infestation, a survey revealed, is expected in Taylor, Casey, Marion, Green, Adair, Menifee, Morgan, Montgomery, Powell, Wolfe, Magoffin, Elliott, Rowan, Clark, Letcher, Knott, Perry and Harlan counties.

The insects feed on cherry, apple, crabapple and similar fruit trees. They form silvery, silken webs or tents in the forks of the trees and almost completely defoliate them.

Harry Nadler, associate director of the forestry division, said the caterpillars can be easily controlled now by burning or spraying with malathion or sevin chemicals. Control becomes more difficult the longer they are allowed to live, Nadler said.

Kentucky has had a wide infestation of the caterpillars in the past few years, Nadler said, and infestation is expected to reach all sections of the state this year.

Conducted last fall by the forestry division and the U.S. Forest Service, the survey was the first of its kind in the nation. It sought to determine the presence of caterpillar egg masses through a sampling of wild cherry trees in 30 counties across the state.

From these egg masses the caterpillar larvae emerge in the spring to begin defoliation of the host tree. The larvae grow to about two inches in length and are hairy with a white strip down the back, bordered by reddish-brown patches with blue spots on the sides.

The caterpillars feed for about six weeks, eventually becoming moths. After mating, the female moths again lay in the fall their eggs in cases that form bands

around the branches of the host tree, to hatch the following spring.

Nadler said each egg mass contains from 150 to 350 eggs. The first signs of their presence on the trees are white-colored tents or webs.

Another survey will be conducted next month to see if there is a correlation between the numbers of egg masses found last fall and the actual infestation of the caterpillars, Nadler said.

He said his division has prepared a brochure on how to deal with the pest. Copies of it can be had by writing to the Kentucky Department of Natural Resources, Division of Forestry, Capitol Annex, Frankfort, Ky. 40601.

Telephone Talk

Your Telephone Manager
By
BILL GIBSON

MAY I INTRODUCE MYSELF? I'm Bill Gibson, new Southern Bell Manager of the Paintsville and Prestonsburg offices. I've been with the telephone company eleven years and before coming here I worked in the Engineering Department in Frankfort, Ky. I'm a family man—my wife's name is Mae and we have a 15-year-old son, Harold.

So far as my work with the telephone company is concerned, I'm here to serve you, to answer your questions, and help you with all your communication needs. My office is in Paintsville, so call me if I can be of help. In the meantime, thank you for the welcome you've given me on my visits to Prestonsburg.

THE FIRST PHONE BOOTH? A blanket over the head of Thomas Watson, for the purpose of "silencing" his call to Alexander Graham Bell.

Early phone booths looked like Victorian sitting rooms. But today's booths are brightly-colored, glass-paneled, well lighted. And plenty handy, when you're out somewhere and need to get a message to someone back home or at the office. There are more and more public phones around, located where they're the most helpful to the most people. And they're one of the biggest bargains you can get for a dime, these days.
