VOLUME I

PUBLISHED BY
THE HIGH SCHOOLS
OF FLOYD COUNTY

FOREWORD

This is the first attempt to publish an annual for all the high schools of the entire county. Each separate school would find difficulty in publishing a volume like this for itself, because of the expense involved. But when all county high schools come together in concentrated endeavor, as in this instance, the task is greatly simplified.

Many people who live in one high school district in our county have never seen the schools in some of the other districts. In this volume we have essayed to present to the public a glimpse of all the splendid high schools nestled among the rugged hills and pleasant valleys of Floyd County. If by this annual we can stimulate and arouse a greater interest in high school education and create a greater pride in our individual schools, we shall amply be repaid for our efforts in the undertaking.

DEDICATION

To Town Hall, Superintendent of Floyd County Schools, who conceived the idea of this annual; to the various principals and teachers who have cooperated in making this annual a success; and to the high school youth of Floyd County, we, the Annual Staff, respectfully dedicate this, the first volume of the Floyd Countian.

BETSY LAYNE HIGH SCHOOL

Since the Betsy Layne High School was destroyed by fire the school has continued in this temporary structure. Plans for a new and modernly equipped building are now in the hands of the architect.

GYMNASIUM

A HISTORY OF BETSY LAYNE HIGH SCHOOL

This marks the twelfth year of the existence of the Betsy Layne High School. In September of 1925, Mr. Ishmael Triplett began teaching thirty students the basal subjects of algebra, English, history and science. All of the students were housed in one room of the Pike-Floyd Coal Company Building. The following year Mr. F. A. Maggard succeeded Mr. Triplett as Principal.

In January of 1927, a ten room brick building was erected and dedicated as the Betsy Layne High School. Two new teachers were added to the high school fac-

ulty thus bringing the total to three.

The period between 1928 and 1930 was one of expansion. During this time the first graduation was held. A new gymnasium replaced the old skating rink and Betsy Layne soon became known as the home of winning basketball teams. One of the most important additions was that of a band. Through the untiring efforts of Mr. Jesse Elliot, the band organization ranks as the best in this section. A little later both boys' and girls' glee clubs were added in addition to the installation of a well equipped home economics department.

Mr. Maggard continued as principal until 1934 when he was succeeded by Mr. Maurice Baker. The following year Mr. Baker was replaced by Mr. B. E. Lewis who was followed by Mr. Delmon Howard who holds the

position at present.

Despite many handicaps during the past few months, the spirit of the school is still very much alive which is

illustrated by the school song:

We'll give three cheers for Betsy Layne
The finest school we ever knew;
Our hearts are full of hope and love,
To our school we will be true.
Like a mountain stands our purpose high:
To work, to help, to live.
With might and main,
Cheer for Betsy Layne,
Our school—rah—Betsy Layne.

DEDICATION

To the harbinger of school improvement in the Kentucky Mountains—the "Little Furriner" from Boston;

To one who, without salary or vacation, works incessantly for mountain youth, lives on faith and hope, and still works on;

To one who, like Lincoln, has the courage of the bird that dares the sea; and whose only desire for immortality is that of George Eliot's, in lives made better by her presence;

made better by her presence;
"To one who "Fills every unforgiving minute with sixty seconds full of distance run";

To our foster-mother, Mrs. Alice S. G. Lloyd, who labors in the mountain fastnesses of Eastern Kentucky, that we may have a more abundant life, we respectfully dedicate this, the second volume of the Floyd Countian.

Learning to do, doing to learn; learning to live, living to serveGold and National Blue

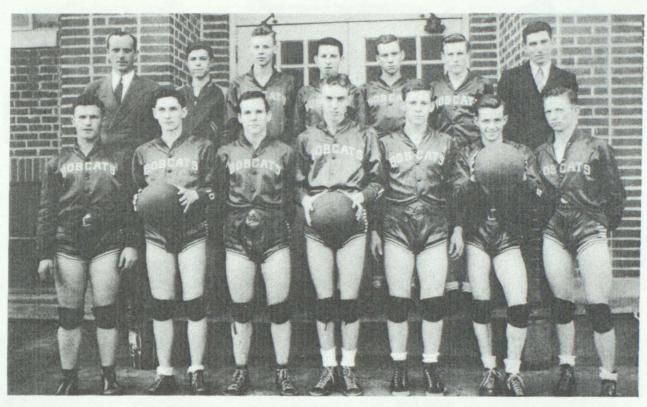

The Future Farmers of America is one of the most outstanding national organizations in the U.S. and outlying possessions for farm boys studying vocational agriculture in the public high schools. This organization was begun in 1928 at Kansas City, Missouri, by leading agriculture men of the nation who were interested in the farm youth of America. Is has rapidly succeeded in becoming popular and outstanding among the high school boys of the nation. At present, the national membership is approximately 180,000.

The F.F.A. is a non-profit organization. The aim or purpose of the F.F.A. is: 1. To develop competent, aggressive, rural agricultural leadership. 2. To strengthen the confidence of the farm boy in himself and his work. 3. To create more interest in the intelligent choice of farming occupations. 4. To create and nurture a love of country life. 5. To improve

the rural home and its surroundings. 6. To encourage cooperative effort among students of vocational agriculture. 7. To promote thrift among students. 8. To promote and improve scholarships. 9. To encourage organized recreational activities among students. 10. To supplement the regular systematic instruction offered to students of agriculture. 11. To advance the cause of vocational education in agriculture in the public schools.

The F.F.A. is composed of the national organization, state association, and local chapters. The Kentucky association has about 225. chapters with approximately 8,000 members. Conferences are held annually and memberships are active, associate, and honorary.

The Betsy Layne High School chapter of the F.F.A. organized in 1938, consists of 38 charter members, with prospects of a larger membership in the future.

THE FLOYD COUNTIAN

Volume 6

Published by the High Schools of Floyd County

DEDICATION

To one who hails from the mountain fastnesses of Knott County, somewhere near Tobey or Still House Holler;

To one who, by his own will, and drive, and push, and ambition, coupled with his innate ability, has passed milestone after milestone of educational progress, until a doctor's degree is in sight;

To one who, for twelve long, arduous years has directed the education of Prestonsburg youth, and who has seen his school system grow into something big;

To one whose personality has indelibly impressed the people of our city, county, and state;

To our own City Superintendent—Professor Ishmael Triplett, Prestonsburg, Kentucky—we respectfully dedicate this, the sixth edition of The Floyd Countian.

BOYS IN SERVICE

To the Floyd County Veterans of World War II, living and dead—
those who gave their fullest measure of devotion that
our schools and national way of life might survive—
the pages of this Floyd Countian are proudly dedicated.

VETERAN TEACHERS - RETIRED

Front row, left to right: John Stephens, 1901-1942 (Ex-Supt.), L. C. Leslie, 1891-1945, Luraney Pitts, 1910-1945.

Rear row: Supt. Palmer L. Hall, Dick Burchett, 1900-1942, N. H. Cooley, 1885-1947 (Ex-Supt.), R. T. Hunt, 1899-1942, Clabe Stephens, 1887-1942.

The six men and one woman shown above with Superintendent Hall are those who are no longer actively engaged in teaching but at heart they are still, and will remain, teachers. Together, they have given more than 250 years of service to the youth of Floyd County. With them it was a work of love. Unlike some of their predecessors their years of constructive labors are not entirely unrecognized by the State. Every three months a small check comes to them from the Teachers Retirement System and they are free to busy themselves about their homes and wish us, to whom they have passed the mantle, good luck and much success.

VOLUME NINE

The

FLOYD COUNTIAN

TO THE PRINCESS ELKHORN COAL COMPANY, especially

For recognition of an Industry's obligation to the area in which it operates, by giving as it takes;

For interest in and contributions to the intellectual and cultural growth of Floyd County; For generosity and public-spiritedness—
Shown in liberal gifts of high quality educational materials and scholarships to the Youth of Floyd County,

And to all CORPORATIONS and COMPANIES who thru a like spirit have disproved the adage that such are without heart or soul, we gratefully dedicate this, the Ninth Volume of THE FLOYD COUNTIAN.

DR. W. D. OSBORNE

Too often the Board Member is the "unsung hero" of the school system. Serving practically gratis he has the problem of the Superintendent, the Teacher and the Children with which to contend.

"Doc" Osborne became a member of the Floyd County Board of Education January 1, 1934 and has served continuously since that date.

It is said that in all the years of his general medical practice he has never sent a bill to one of his patients. And so it has been with his work in the schools.

Endowed with a keen mind, a good sense of business values, an understanding of human nature, and with a subtle wit and sense of human has often been a bulwark of strength and as a soothing balm in facing the duties and the problems of the Board.

We proudly dedicate this, the Eleventh Volume of the Floyd Countian, to DR. W. D. OSBORNE, the dean of our Board of Education.

THE TWENTY YEAR CLUB

The Twenty Year Club was organized in 1950 in order to give recognition to those teachers that had given twenty years or more of their life's work to teaching in Floyd County. Shown above are twenty-six teachers, three of whom have retired, that are members of the club. President of the club is Mrs. Grace Conley from Bonanza, Kentucky.

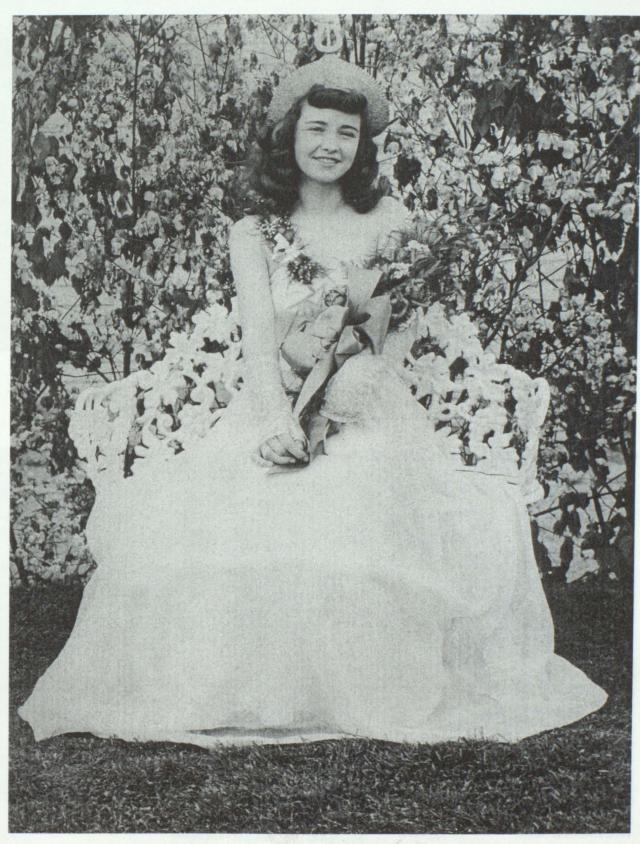

Special lapel buttons or pins designed for the Twenty Year Teachers are given to them by the Floyd County Board of Education in recognition of their loyal services to the school system whenever they become members of the club.

JOE S. DINGUS

After 48 years of working with the boys and girls, 45 of which have been in Floyd County, Joe retires at the end of 1950-51 school year. He is oldest in years of service yet youngest in spirit.

The above photograph shows Joe receiving his lapel button from a member of the "20 Year Club".

"A PROFESSOR NO DOUBT"

If he's brand new at teaching he lacks experience.

If he's been teaching all his life, he's in a rut.

If he dresses decently, he's trying to be a fashion plate.

If he thinks about something besides clothes, he's a bum.

If he seldom admits a mistake, he's arrogant.

If he ever admits a mistake he ought to go back to bricklaying.

If he plants an occasional joke in his lectures, he's a comedian.

If he never condescends to an academic nifty, he's duty dull.

If he goes to chapel with regularity, he's a hypocrite.

If he shies at sermons, he's a heathen.

If he writes a book, he's neglecting his teaching.

If he never publishes, he never had a thought worth printing.

If he hands our plenty of high grades, he has no standards.

If he hands out plenty of low grades, he's a butcher.

If he uses notes, he's unoriginal.

If he gets along without notes, he's an add-libber.

If he sticks to his speciality, he's got a one-tract mind.

If he tours the encyclopedia, he's a show-off.

If he can't identify Fritzie Zivic and Jack Kramer, he isn't human.

If he listens to sports broadcasts, he's illiterate.

If he gets paid for outside work, he's greedy.

If he does outside work for nothing, he's a sucker.

If he's young, he needs more seasoning.

If he's old, he's seen better days.

If he gets his name in the newspapers, he's publicity mad.

If he never appears in the public prints, he's so much deadwood.

If he's on good terms with the school board, he's a sycophant.

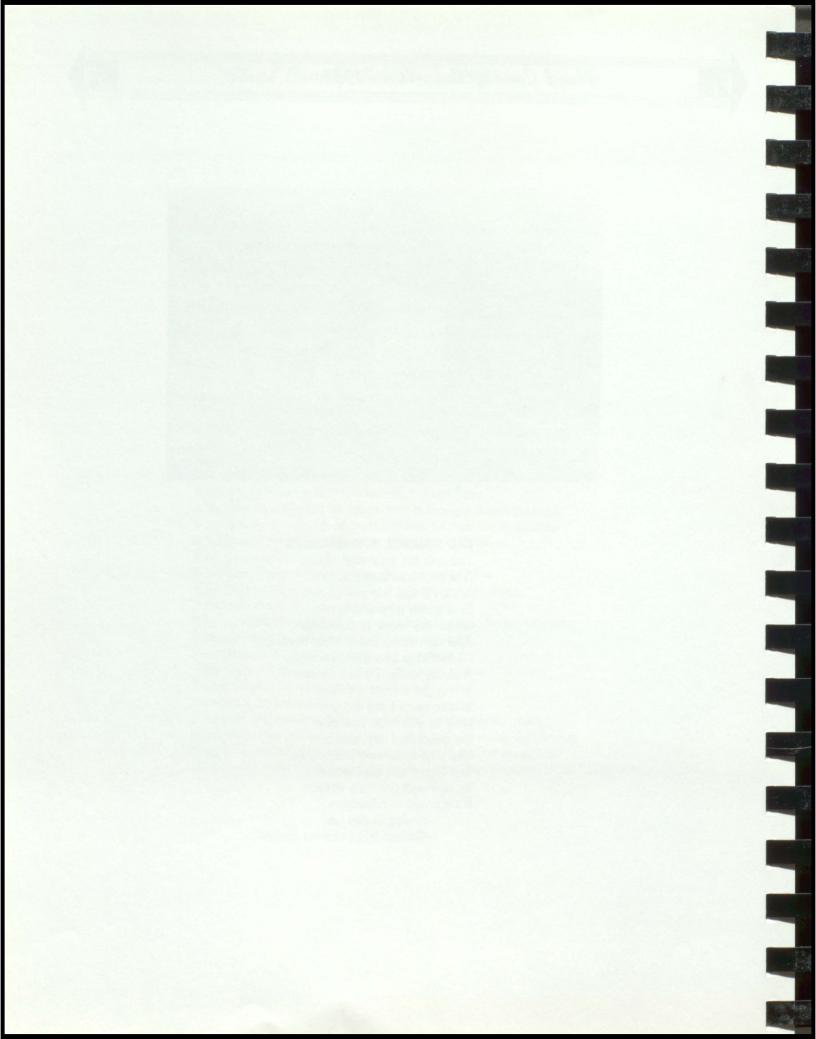

If he doesn't wear out the stairway from the Supt's. office, HE'S DISLOYAL.

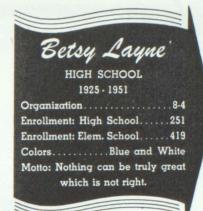

THE SCHOOL BUS STATION

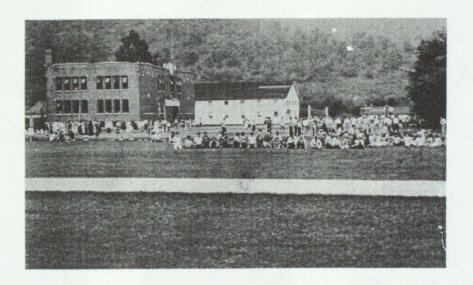

You ask me how important A school bus stop can be, Well, I'll just tell you people How much it means to me. When the snow is a'snowin' And up comes the coldest breeze, I'll just stop into that bus stop; And, by golly, I'll not freeze! When the rain is a'rainin' Where once I did get wet Now in that little bus stop I'm good and dry, you bet! Oh, that little stop's a'blessin' Tell every pal and relation, To rich and poor the same It's a boom to education.

The FLOYD COUNTIAN

This annual, the Floyd Countian of 1952, is dedicated to the MOTHERS AND FATHERS of FLOYD COUNTY, through whose inspiration, faith and sacrifices, we, the graduating seniors of 1952 have achieved this goal and are inspired and encouraged to continue our preparation for, and our enjoyment of, a richer and fuller life.

To our parents, blessed with the ideal of procuring for their children something a little better than that inherited by them, goes our heartfelt gratitude and our promise to perpetuate that ideal.

Here is your 1954 Annual, your photographic record of a year of life in Floyd County Schools. Its pages will hold for you memories of youth and growth. Treasure it. Each year of its age will add to its worth.

To the many who work with me for progress in education, I extend appreciation and thanks;

To the children in our schools we pledge our best efforts toward making next year better still;

To the departing seniors, we say congratulations and in the words of a song popular in your senior year, "Vaya Con Dios."

Dedication

The Floyd County Annual Staff respectfully dedicates the 1955 issue of the Floyd Countian to James Greene, Member of Floyd County Board of Education, who for the past eight years has given unsparingly of his time for the continuation and development of the proper education of our children. A parent, a former school teacher, a farmer and merchant, diligently serving as chairman of the board for years, gives him the background needed to understand the problems of today's youth.

Greetings:

You hold in your hands the '56 Annual of Floyd County Schools.

To some of us, parents and teachers and administrative staff, this book is a milestone marking a year of work and giving glimpses of our growth and progress.

To many, the seniors especially, it is a momento, something tangible to take with you as you leave the sweet, sad, fun-filled, despair-filled, dream-filled, "crazy mixed-up," lonely, lovely moments of your high school life.

In this book "when other nights and other days find you gone your separate ways, you will have these moments to remember."

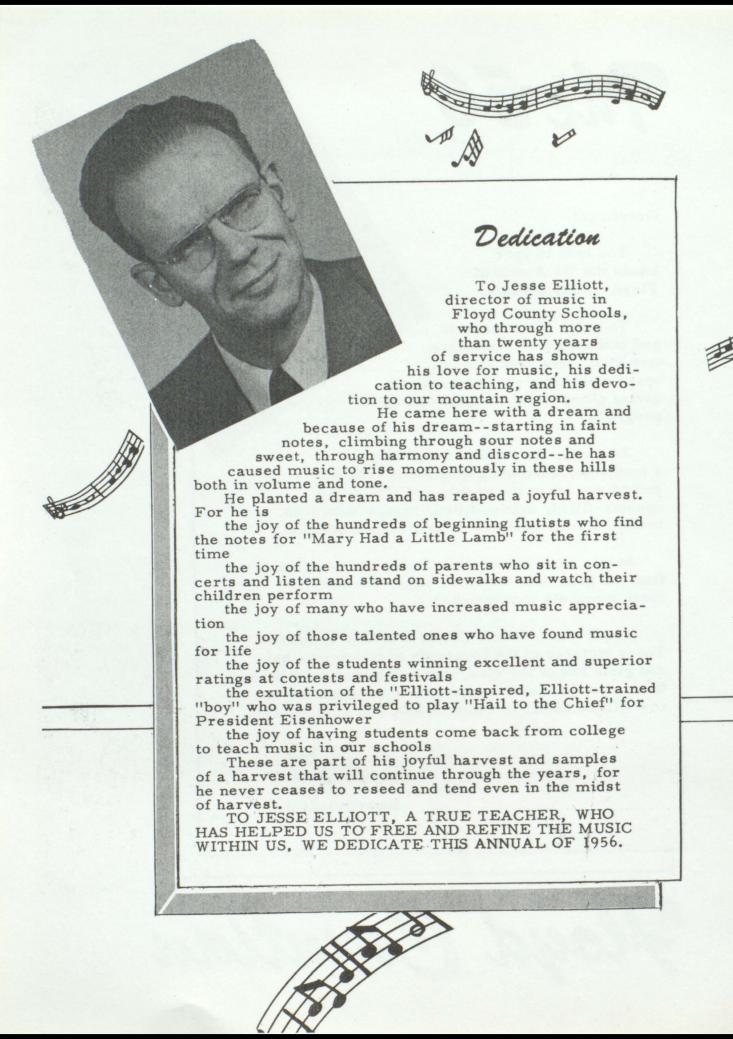

To all of us, I feel, this is a book of promise.

These pictures of the thousands of fine school boys and girls and of the wise, gentle faces of the teachers who guide them are assurance and promise that tomorrow will be better in Floyd County and in the world.

Did you know that . . .

Floyd County has 14,989 Children over 7 years of age in the school census, and of this number 14,023 are enrolled in our schools. In 1956 we had 880 Freshmen entering our ten high schools and had 525 graduates from our high schools. Of this number, one hundred ten went on to colleges, universities or other institutions of higher learning. To educate this great number of boys and girls 464 teachers are employed. Of this number 346 are in the elementary field and 118 are in the high schools. All our high school teachers are teaching in their area of specialization-thanks to the Minimum Foundation Program-for the first time in the history of our County.

To furnish these pupils with a better education, we are, this year, spending \$14,742.75 for special auxiliary services. This amount, which greatly enriches the education of our children, is supplemented by local community effort.

To transport our children to and from school, so that none will be denied an education, is a major problem. To do this job for them, we are using 31 school buses. We also have 13 contract carriers, on all weather roads not good enough for busses to travel where the number of children justify economical transportation. Our per pupil transportation cost of \$13.59 is the second lowest of any district in the state. The busses and contract carriers travel 324,721 miles each year and carry 4764 pupils to and from school each day. Our drivers have been and will be selected with the greatest of care. They are certainly to be commended. Not a major accident has occured in all the millions of miles they have traveled. Due care, in case of bad weather, is always exercised. If we are in doubt as to the safety of children, school is dismissed. This causes the school term to run a little longer in the spring but we think the safety of our children must come first.

To house our children without undue overcrowding, we are building additional classrooms as fast as possible. We are happy to report that about three-fourths of our classrooms are now on the Minimum Foundation Program, and now have an average of 30 children per teacher. This means that your teachers can give more individual attention to your children and a better education can be had by all. In order to bring this about, in part, ten new classrooms have been added this year and four rooms have been re-conditioned for classroom purposes. Much remains to be done, but we have made a good start and hope to see more done this coming year.

Electric lighting has been brought to seven of our schools which never before had this benefit. Part of this was done on a cooperative basis-the community and County Board working together. We intend that no school child's eyes suffer from poor lighting where electricity is available.

To feed our children a wholesome noon-time meal, cheaper than a cold lunch can be packed at home, we now have 16 lunch rooms operating. No child in Floyd County pays more than 25¢ for a hot, well balanced meal. Many pay only 20¢ for a meal that includes: Meat or substitute, two cooked vegetables, raw vegetables or fruit, bread, butter and milk. Also, many schools are taking advantage of our Special Milk Program where the children are served 1/2 pint of extra milk in the morning and afternoon or at meal time for 3¢ per half pint. These programs are putting roses in the cheeks of our children, stimulating better attendance, and building better health.

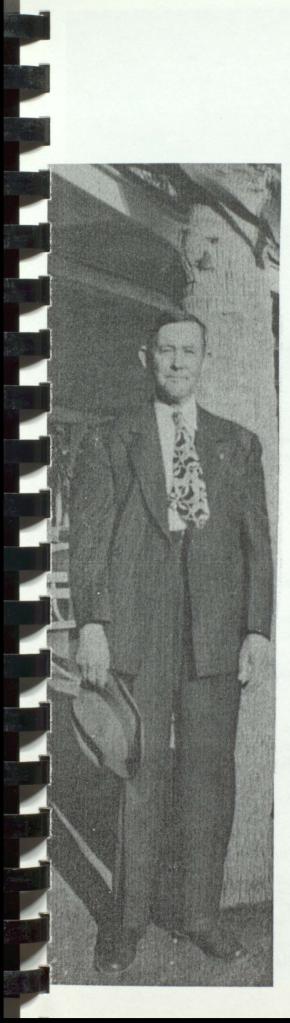

Total number served each day 4095 Number served free 1375 daily.

Our Motto--"No Child is allowed to be hungry where there is a lunch room."

To do this job, we employ 32 full time cooks who earn \$26000.00 per year. We also buy \$96000.00 ood materials, in addition to distributing many tons of government surplus foods. These foods enable

in food materials, in addition to distributing many tons of government surplus foods. These foods enable us to give meals at low prices to those who can play, and to give free meals to those who cannot pay.

It can truly be seen that School Business in Floyd County is Big Business. We want the people of Floyd County to know that we are bending every effort to do the best we can with what we have to bring the best education possible within reach of every boy and girl. We try our very best to give you the best teachers available. We try our best to help make good teachers better. We try to give them the help they need and the materials to do the job. But all this is not enough. They need your help and moral support also. Without your help and cooperation, you will have a second rate school at best. We, therefore, earnestly beg that you get to know your child's teacher; that you help and cooperate with her to the fullest. Only by so doing can your child come into the heritage that it rightly deserves.

Dedication

JOE S. DINGUS

"He Beat a Distant Drum"

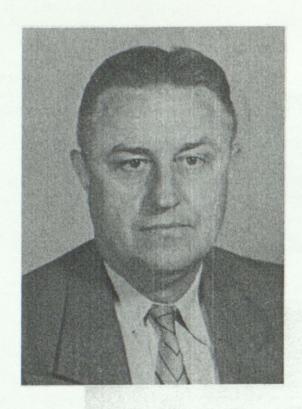

The Floyd County schools are a monument to the life endeavor of many dedicated teachers. Of this legion of instructors, Joe S. Dingus is typical.

He began to teach in the year 1900. Back then, more than half a century ago, our school system was groping its way forward from the confines of an imprisoning isolation. Then many of our school buildings were log structures, decaying vestiges of the log cabin development period the section had left behind.

Joe Dingus gave allegiance to the people around him, ever sought to imprint his life upon their world. He walked or rode horseback to schools he taught. He became an advocate of good roads. He attended church in isolated schoolhouses or worshiped under the open sky. He labored for the churches.

Today there is great change. The call for it was the intonation of an ancient, distant drum.

That our lives have been enriched and our children blessed with opportunity in a modern educational system is due to the consecrated work of men and women, like joe Dingus. They carried a torch for us and beat a distant drum.

Greetings

Here is your copy of the '57 yearbook, the book whose pages you will be turning many times, in many places and many years from now, saying as you remember "Oh, that was the year --"

- I entered school.
- we had such a wonderful teacher.
- I learned to read.
- our team won the tournament.
- our class graduated.
- etc, each finding his own personal finish for the phase.

I hope the number of you who must finish with sad phases as, "I quit school," "failed algebra," is few.

To the adminstration and faculty, it will be the year we worked so hard to put the minimum foundation program into operation.

And to all of us, it will be the year of the flood: the year we "watched the things, we gave our life to, broken And stopped and built 'em up with worn-out tools."

It was a year in which we worked hard, learned much, enjoyed school and I hope "grew in favor with God."

This was a year of your school life. Here is the book to help you remember it.

Sincerely yours,

Superintendent Floyd County Schools

DEDICATION

Because for the past five years she has been the guiding spirit that has led, and the dynamo that has driven the Floyd County annuals to completion.

Because her record shows her to be typical of the best Floyd County Teachers, those who scorn to measure service by salary.

At eighteen, she taught her first school on Jack's Creek, where, trying to meet the needs of her seventy-five pupils, she kept school so late that parents came looking for the children. At nineteen, on foot, she daily clambered over a tall mountain to her school at Arkansas, through all kinds of weather accompained by "Bear Dog", her canine protector.

Then followed years at McDowell, Martin, and Wheelwright High Schools.

During the war, she joined the WAC and for three years served as a physical therapist.

Then she was seven years at Maytown, teaching whichever subject lacked a teacher, sponsoring whatever lacked a sponsor.

She got her M. A. by attending summer schools, never missing a year's teaching while in doing so.

For the past five years, she has been a supervisor in the Floyd County Schools, working as health co-ordinator, PTA supervisor, annual sponsor, lunchroom supervisor, and at a multitude of other duties, assorted and fluctuating.

Because she never says, "That's not my job" but "How can I help?"

Because she is "A lady who most certainly will put the pig out", who will put her shoulder to any stalled wheel-be it unloading a railroad car of butter, or scrubbing out tons of flood mud.

Because she typifies those alive personalities in the teaching profession whose warmth of heart, intellectual achievements, constant courage and reliability, enthusiasm for work well-done and scorn for shoddy performance have made the word "Teacher" a beautiful word.

We dedicate this annual to Blanche E. Dingus

DID YOU KNOW THAT ...

This page brought many favorable comments, and many answers and replies, "No I certainly did not know." Popular

demand has prompted us to our figures and to insert a similar page.

Floyd County has 14,698 children over 6 years of age in the school census. Of this number 13,399 are enrolled in our schools. In 1957 we had 915 Freshmen entering our ten high schools and had 453 graduating from our high schools. Of this number 110 went on to Colleges or Universities; 10 to schools for nurses; 40 to commercial schools; 32 work in stores or offices; 101 took employment in factories or trades; 51 are employed in various other fields; 91 stayed home or were married; while we did not find what 17 were doing or where they were. To educate this great number of boys and girls 465 teachers are employed. Of this number 345 are elementary teachers and 120 are in the high schools. All our high school teachers are again teaching in their areas of special training.

In order that these pupils may have the best education possible, we are this year spending more than \$25,000 for special services (library, science, biology, chemistry, home economics, agriculture). The latest item to be added to this enrichment program was assistance in the amount of \$25.00 per teacher for classroom materials and supplies.

Proper housing of our school children has always been a major problem. We are trying to meet this problem by adding additional modern classrooms as fast as possible. New buildings or classrooms are being added at the following places: Branham's Creek, Home Branch, Harold, Drift and Head of Prater Creek. An additional ten or twelve classrooms will be added by using first quality prefabricated buildings which we were able to secure from the Federal Government. With these additions it is believed that we can report that 90% of our teachers will have classroom units complying with our Minimum Foundation recommendations of an average of 30 children per classroom. Too, we can report that by popular demand, several one-room schools have been consolidated with larger schools in the last two years. In every case, we find the parents very happy that their children now have more and better opportunities for richer, fuller education.

Wherever possible we try to feed our children a wholesome noon-time meal. In order to do this we have 17 lunchrooms operating, having added Auxier, and Bosco this year. Next year Drift will be added with a modern lunch room and possibly others. No child in Floyd County pays more than 30c and many pay only 20c for a well-balanced meal comprised of meat or meat substitute, two cooked vegetables, raw vegetable or fruit, bread, butter and milk. Also, many schools are taking advantage of our Special Milk Program where the children are served $\frac{1}{2}$ pint of extra milk in the mornings and or afternoon for 3c per half pint. These programs are putting color in the faces of our children, stimulating better attendance and in general building all round better health. We are currently serving 454.2 children per day, 1490 of whom are served

free of charge.

Our Motto-"No deserving Child is allowed to go hungry where there is a lunch room."

To do this job of building better health for our children we employ 34 full time cooks who earn \$26,182.82 per year. We also buy from local suppliers \$12,600 worth of food materials, in addition to distributing many tons of government surplus foods. This assistance enables us to give meals at low prices to those who can pay, and to give approximately 25% of all

meals free to those who cannot pay.

It can easily be seen that the operation of Floyd County schools is a big job. We want the people of Floyd County to know that we are bending every effort to do the best we can with what we have to bring the best education possible within the reach and grasp of every boy and girl. We try our very best to give your child the best teachers available. We try to help all teachers become better teachers by giving our assistance when called upon and by furnishing the materials and tools to help better do their job. But all this is not enough, Your teachers need your help and moral support also. Without cooperation and assistance, your child will have a second rate school at best. We, therefore, earnestly beg that you get to know your child's teacher better; that you learn more about your child's desires and ambitions; that you join hands, heads and hearts with your teacher and your child and lend your assistance whenever and wherever needed. By so doing you will be able to see your son or daughter grow into the young man or young lady of your "dreams."

Greetings,

This is your '57 '58 Floyd County Annual.

This is a book that shows to some extent the enormity of the task of providing educational opportunity for our near 15,000 children; that shows through the faces of these boys and girls the challenging worth of the task; that shows to some extent that the work is being done.

This annual is itself a sample of what is being accomplished by cooperative effort. Annual staffs and sponsors in various schools work together to produce it. Individuals and businesses throughout the county have helped to finance it.

How often we say "Picture this, if you can", and "How I wish I had a picture of that". Between these covers is a wealth of pictures to serve as a poignant reminder of the year past.

To the seniors, for whom this is the most special annual, my congratulations and best wishes. You are graduating in a star-marked year-the year in which man first invaded the star-territory of outer space. The possibilities of the effect of that fact on your future are beyond imagination.

But it is also a year in which you sang, "Catch a falling star and put it in your pocket," and I think that excellent advice. For while you may live in an age when not only the earth but the universe itself becomes your province, you are still going to need your own special pocket-sized, heart-sized stars. Your own "inner lights." For true men are not like moons reflecting dead light, but are luminous with their own heart's-glow. Light giving, as stars. So I wish you may capture a supply of private stars that you may move in light and be able to see clearly what man needs most to see, the face of love.

FLOYD COUNTIAN

Greetings,

This is your '58-'59 Floyd County Annual.

Here is enshrined pictures of those who lost their lives in the Floyd County school bus disaster. We will forever remember the twenty-six children and the bus driver, the year 1958, and how so many people gave untiringly of themselves in this crisis. Nor can we forget to be thankful for the twenty-one children who escaped.

Here are the pictures of Dr. W. D. Osborne, William Amold Spradlin, Dr. J. H. Allen and James Greene who gave so many years to the cause of education.

During the year Congress passed the National Defense Education Act to strengthen educational efforts in Science, Modern Languages, Guidance, Counseling and Testing in the secondary schools. This is a small step in federal aid to education, but a very important one.

This was also a year of general awakening throughout the country to the need for quality education. The Conant study of "The American High School" gives specific recommendations on how to improve our schools. These developments are certain to have a profound influence on our educational system.

The economic conditions in the county show once again how important it is for our people to secure a better education. Only by intelligent planning can more industry be obtained for Eastern Kentucky. Intelligent planning also means a more diversified economic base for our people.

The primary purpose of education is to give our people better qualities for better living. This can be done by developing to the fullest the mental, physical, social, emotional and religious life of every individual.

This book records in its many aspects the continual development of these qualities.

FLOYD COUNTIAN

FLOYD COUNTY SCHOOLS KENTUCKY

1960

DEDICATION

Mr. John Stephens Superintendent Floyd County 1926-1934

In appreciation for his many years of service in raising the educational standards of Floyd County Schools this 1960 VOLUME of the FLOYD COUNTIAN is respectfully dedicated to MR. JOHN STEPHENS.

For thirty years Mr. Stephens was a rural teacher. He was a member of the first Floyd County Board of Education and was Superintendent of Schools from 1926-1934.

He is remembered as a Superintendent, who on foot or on horseback, visited each school in the county at least once each year to encourage the teachers and counsel the pupils.

During his term as Superintendent, eleven high schools were constructed and put into operation.

Mr. Stephens, who is now retired, resides on his farm near Prestonsburg and is still deeply interested in advancing education in Kentucky.

Greetings,

Here is the Floyd County Annual of 1960, rounding out another decade in our educational history.

These annuals, as they are issued year after year, mirror constant change. There are always new faces; in the first grades, in the senior classes and among the faculties. There are always changes in policies, in materials, in methods. But running through all the annuals is evidence of one unchanging purpose, that of improving education in Floyd County.

We are proud of the level of education portrayed in this annual. And we are highly excited by the prospects for tremendous improvement in the near future promised by the stand taken by our Governor and the Legislature in backing the K. E. A. Program for Education.

With such financial aid as is promised by this program, Floyd County annuals of the future should report vastly improved, greatly widened opportunities for our children, and much better conditions for our teachers.

We look forward to such a future when the unchanging goal - a good education for all - will be more nearly attained.

Sincerely yours,

FLOYD COUNTY
